Hide / Unhide Modules or Specific Content

1. “Turn Edit On”

2. The “closed eye” indicates the module is closed or hidden from students. Click to open/unhide the module.
The module is open, however the content uploaded to the module may be hidden from students. This is indicated by a “closed eye” icon next to the content.

3. Click on the closed eye icon to make individual content available to students.

The selected content becomes available to students.
