2005-2006 Catalog
General Information

WELCOME

On behalf of the faculty and staff, I want to welcome you to Greenfield Community College.

Whether your goal is to transfer to earn a baccalaureate degree, to graduate with your career opportunities enhanced, or to take courses for personal fulfillment, we are so very pleased that you chose GCC. Ultimately, our goal is to equip you with the knowledge and skills necessary to achieve your dreams.

GCC has a rich tradition of academic excellence. The faculty and staff of this college are committed to the development of each and every student who attends. We are proud of the learning environment that we create for all who access the college. As a relatively small college we have the opportunity to get to know all of our students. You are much more than a number at GCC. The learning process is a challenging one. Our faculty will ask you to stretch old muscles and develop new ones. It will take courage, patience, and persistence on your part, but GCC also has a rich tradition of student success. We welcome you to that proud tradition.

Sincerely,

Robert Pura, President

PRINCIPLES OF EDUCATION

“We are all about learning.”—Bob Pura, President GCC

These principles articulate the implicit assumptions regarding teaching and learning held dear by members of Greenfield Community College and represent the ideals to which the GCC community aspires. They apply to all members of the GCC community—students, employees and trustees.

These principles intend to provide a foundation on which members of the community develop and teach courses, engage students, hire faculty and staff, design professional development activities and structure budgets. These principles should inform the daily, habitual life of all members of the college, having both immediate and lasting impact. As teaching and learning are at the heart of the college, these principles appropriately shall guide the college into the future.

The college maintains a learning environment that values the process of learning as much as the knowledge taught; an environment that encourages independent thinking and divergent activities; and an environment that elevates members of the community and inspires them to:

- Develop independent and interdependent, lifelong learning strategies
- Nurture their aspirations, confidence, curiosity, imagination, self-respect and responsibility to others
- Explore and adapt to new ideas in both work and leisure
- Understand social change and individual development and take responsibility for sustaining both
- Accept the constancy of change and cope with, adapt to and manage change effectively in all areas of one’s life
- Possess self-determination with a realistic assessment of one's aptitudes and inclinations

Members of the GCC community have the opportunity to acquire the knowledge, skills and attitudes that empower them to clarify values, express ideas, solve problems, and embrace learning as a life-long process.
Diversity and Community

The college creates and fosters an environment for work and learning in which one may achieve a level of comfort with one’s individuality and culture, while accepting and respecting the individuality and cultures of others. The college encourages each member of its community to:

- Recognize how the foundation of one’s ideals and values emanate from one’s particular background and experience
- Participate in communities as both teacher and learner; connecting with others, sharing thoughts and creating knowledge while taking advantage of an open environment that values critical thinking and civil discourse
- Enhance one’s understanding of various forms of discrimination and oppression while embracing the principles of access to promote equitable opportunity for all in the teaching and learning experience
- Explore, understand, and respect the tenacity and validity of diverse values and heritage
- Appreciate the interconnectedness of global events and issues and one’s place in the web of life
- Develop an environment that encourages active learning and values the differing approaches of all community members

Literacy and Communication

The college promotes effective expression in many forms for making public meaning and personal significance. Symbolic interpretation and representation of ideas and emotions, using logical and aesthetic systems that cultivate various modes of self-expression, contribute to successful interpersonal and intrapersonal communication. The college policies and practices ensure that all its members continue to develop their capacities to:

- Enhance literacy in all areas—reading, listening, viewing, writing, speaking, creating, and movement
- Reason quantitatively, using numerical data to meet personal and vocational needs and to respond to a world increasingly dependent on the understanding of a broad range of quantitative concepts and processes
- Identify a need for information and know how and where to find it
- Use language to communicate effectively with other individuals and groups, including basic functional ability in a language other than one’s own
- Function constructively in both a leadership and participatory role within groups
Knowledge and Thinking

The college expects members of the community to think critically and to conduct disciplined inquiry, using both their minds and hearts in order to understand the complexity and simplicity of ideas and actions; to prioritize and make decisions; to identify and solve problems; to evaluate and judge; in short, to think independently. The college encourages each member to:

- Access, organize, interpret, evaluate, synthesize and apply information
- Reflect on and assess information and knowledge from differing perspectives
- Develop knowledge of one's feelings, values and biases and how they relate to one's thinking and behavior
- Integrate knowledge from multiple disciplines to make thoughtful and informed decisions
- Base decisions on factual and affective evidence rather than on unexamined opinions
- Determine the nature of a problem, analyze the problem and implement an appropriate solution, applying scholarly theories and methods where appropriate
- Evaluate, integrate and adapt to technological change

Adopted by the Greenfield Community College Assembly, May 17, 2004
OUR HISTORY

Greenfield Community College is located in the beautiful and historic Pioneer Valley of western Massachusetts, between the foothills of the Berkshire Mountains and the fertile farmland of the Connecticut River watershed.

The College was founded in 1962 by visionary citizens of the community who saw how a community college would enhance the quality of life and offer opportunities for growth to the people of Franklin County and surrounding areas, even including counties of southern Vermont and New Hampshire.

In our first year we enrolled just more than 100 students who attended classes in an old elementary school, a former factory and a remodeled warehouse in the center of Greenfield. The school grew rapidly and we moved to our main campus in the rolling farmland of “The Meadows” area of Greenfield in 1974. Today, the annual fall enrollment of the College exceeds 2,300 students.

The College expanded further by opening the Downtown Center in 1995, where the Greenfield Community College Foundation, Community Education, and the nursing and health occupation programs are located. As growth continued, a new “East” building was constructed on the main campus in 1999 that houses state-of-the-art dance class facilities, the fitness center, laboratories, classrooms and offices.

GCC is the smallest of the 15 community colleges in the Massachusetts higher education system, known for the caring and supportive attitude of the faculty and staff, and for the broad support it enjoys from the surrounding community. We are fully accredited by the New England Association of Schools and Colleges, and we work closely with bachelor degree granting colleges of the Massachusetts public higher education system, including the University of Massachusetts, and with private colleges and universities, which enables us to offer diverse transfer opportunities to our students.

The career programs offered by the College prepare our students to enter the work force or update their skills, while credit-free workshops and seminars are offered for personal enrichment.

Day, evening and weekend classes are offered so that students who need a flexible academic schedule can be served.
OUR MISSION

The College serves an academically, economically, and culturally diverse student population primarily from Franklin and Hampshire counties in Massachusetts, and from southern Vermont and New Hampshire. GCC offers associate degrees for students planning to transfer to four-year colleges as well as associate degrees and certificates to prepare students to enter the knowledge-based workforce, especially in those fields most in demand in Western Massachusetts.

Working closely with area businesses and other community partners, GCC provides job training and skills improvement as dictated by the rapidly changing regional and national economies. We are also committed to working in partnership with elementary and secondary schools in our region to better prepare students to pursue education beyond the secondary level. As the only college in Franklin County, GCC exists as the center of higher education in the region and, as such, is committed to providing cultural activities and lifelong learning opportunities that enrich our entire service area.

This, then, is our mission:

- To be the primary source of adult education in the northern half of the Pioneer Valley
- To provide low-cost, high-quality, open-admission education in a small college environment
- To participate in transforming our region into a knowledge-based economy and to prepare our students to live and work in the emerging global society

STATEMENT OF NON-DISCRIMINATION

It is the policy of Greenfield Community College to prohibit unlawful discrimination on the basis of race, ancestry, color, gender, religion, ethnic or national origin, age, personal disability, veteran status, social class, or sexual and/or affectional preferences/orientation. The College operates under an affirmative action plan and encourages under-represented individuals to apply, both in terms of employment and to all rights, privileges, programs, and activities generally accorded or made available to its students. This policy is in compliance with all applicable federal, state and local statutes, ordinances and regulations. All inquiries concerning the above should be directed to the College's Affirmative Action Office.

Greenfield Community College
One College Drive

STANDARDS OF BEHAVIOR

As an institution of higher learning, Greenfield Community College actively encourages the free and open exchange of ideas and opinions. The college encourages diversity in the belief that, in doing so, it promotes growth and positive change in individuals. The college recognizes, however, that maintaining an atmosphere where such discourse can flourish requires that faculty, staff and students acknowledge and remain sensitive to the needs, beliefs and feelings of others. It therefore expects all individuals to maintain certain standards of behavior as members of its community.

These expectations include the exercise of discretion in the use of language, both in the choice of terms used and in the tone in which discourse is delivered and individuals are addressed. Insulting or demeaning language or gestures, perhaps generally accepted or even common in other social settings, are not suitable in an academic environment. A courteous regard for the differing backgrounds and perspectives held by others is encouraged.

The above expectations hold for behavior throughout the institution and for all of its members. With regard to behavior in the classroom, yet another set of expectations exists. Classrooms are unique environments, places expressly reserved for the exchange of information and ideas. They constitute sanctuaries of learning, gatherings in which students and an instructor or instructors come together for a particular purpose: to grow and develop through personal interaction and directed activity. Because classrooms are unique in this way, they hold particular expectations of their members. Generally speaking, these are extensions of the rules of civility and courtesy that prevail in the institution at large, though the classroom instructor might add to or modify these rules to promote particular goals. Deviation from the expectations or rules set forth in a classroom is not acceptable.

It should be noted that behavior influenced by an individual’s mental state (irrespective of the ultimate evaluation), or use of drugs or alcoholic beverages shall not limit the responsibility of that individual for the consequences of his or her actions.

Finally, Greenfield Community College, while intent on maintaining an environment that promotes learning within a secure and collegial atmosphere, is resolutely committed to defending every individual’s right to personal expression.
WE ARE FULLY ACCREDITED

Greenfield Community College is accredited by the Commission on Institutions of Higher Education (CIHE) of the New England Association of Schools and Colleges (NEASC), and our accreditation has been reaffirmed most recently in March 2001.

Greenfield Community College has demonstrated that it meets the CIHE’s eleven Standards for Accreditation and complies with its policies. You can find GCC’s 2000 Institutional Self-Study by visiting the President’s Welcome at our website at www.gcc.mass.edu.

Greenfield Community College is also accredited by specialized accrediting bodies. Specialized accreditation encourages program improvement by applying specific accreditation requirements to measure characteristics of a program and by evaluating the overall quality of a program. GCC programs are accredited by the following:

- The associate’s degree program in Nursing is accredited by the National League for Nursing Accreditation Commission.
- The certificate program in Outdoor Leadership is accredited by the Association for Experiential Education.
- The certificate program in Massage Therapy is accredited by the Commission on Massage Therapy Accreditation (COMTA).
- The certificate program in Paramedic is accredited by the Commonwealth of Massachusetts’ Office for Emergency Medical Services (OEMS).
GENERAL POLICY ON ADMISSION

Greenfield Community College maintains a policy of open admission to all but a few of its degree and certificate programs. This open admission policy means that students who have earned a high school diploma or its equivalent, earned a General Education Diploma (GED), scored satisfactorily on a federally-approved Ability-to-Benefit test, or completed an approved home-schooling plan may matriculate into a degree or certificate program. Matriculation means that GCC has admitted a student into a particular degree or certificate program. Students who have not reached their high school graduation dates should refer to the General Policy on Early Entrants below. Students who have completed an approved home school program should refer to the Home Schooling Policy below.

Certain major programs of study may require students to earn a high school diploma or its equivalent or a GED either as a prerequisite for admission or as a requirement of graduation. State governing boards may require a high school diploma or its equivalent or a GED for certification or licensure. For more information about these programs, contact the Admission Office at (413) 775-1806.

Students who seek to register for a class, but not matriculate into a degree or certificate program, must demonstrate their readiness for coursework at GCC by scoring satisfactorily on standardized placement tests in reading, writing, and mathematics. The College reserves the right to limit or deny enrollment of any student in a course or program based on its case-by-case consideration of a variety of factors, including, but not limited to, the student’s maturity, life experience, placement test scores, prior education, course content, instructional methodology, and risks associated with a particular course or program.

Matriculation Process

1. Obtain an application for admission by visiting or calling our Admission Office at (413) 775-1806 or by visiting a local high school guidance office.

2. Complete the application for admission and send it to our Admission Office at Greenfield Community College, One College Drive, Greenfield, MA 01301-9739.

3. Include a non-refundable admission fee with the completed application. The application fee is $10 for permanent residents of Massachusetts and $35 for all other students. Make the check or money order payable to Greenfield Community College. Students may apply to up to three Massachusetts community colleges using a single application fee. Students who have paid an application fee to another Massachusetts community college should indicate the name of the college on the application fee card. Students for whom the application fee is a financial hardship should contact the Admission Office at (413) 775-1806.
4. Students who are high school seniors at the time of application should ask their high schools to send an official transcript of their academic records to the Admission Office at Greenfield Community College, One College Drive, Greenfield, MA 01301-9739.

Readmission to the College

If you are applying for readmission to a degree or certificate program, or have completed an application for admission for a previous semester but did not attend, you must complete an application for admission and send it to the Admission Office at Greenfield Community College, One College Drive, Greenfield, MA 01301-9739. No application fee is required if you paid when you originally applied.

General Policy on Early Entrants

Greenfield Community College defines early entrants as students who seek to enroll in credit-bearing courses at the college prior to their high school graduation dates. Early entrants must:

- Meet with the Director of Admission to discuss the early entrant’s plans and GCC’s ability to meet the early entrant’s needs.
- Demonstrate their readiness for coursework at GCC by scoring satisfactorily on standardized placement tests in reading, writing, and mathematics.
- Provide written authorization from a school official, such as a principal or guidance counselor, recommending specific coursework at GCC, if affiliated with a school.

Home Schooling Policy

All home schooled students, without a high school diploma or General Education Diploma (GED), may apply for admission to a degree or certificate program, provided they have successfully completed an approved home school program in accordance with Massachusetts General Laws or the laws of their home state. If a home schooled student has not completed an approved home school program, the student will not be eligible to enroll in a degree or certificate program until the student has taken and passed a federally-approved Ability-to-Benefit test. Inasmuch as high school students may self-certify their completion of a public or private high school program, so too may home schooled students self-certify their completion of an approved home school program.

To determine whether a student has participated in an approved home school program, the student must submit, with the application for admission, evidence that the home school program was approved by the student’s school district’s superintendent or school committee. In addition, if the student is under the age of compulsory attendance, which is 16 years old in Massachusetts, and completed a home school program, the student’s school district’s superintendent or school committee must provide a letter stating that the student is not considered truant and would not be required to attend further schooling or continue to be home schooled.
How to Apply for Admission to Health Careers

Health Occupations programs require a special admission process. Upon acceptance to the college, students will be matriculated as a Liberal Arts/Health Occupations intent student until final acceptance to their program of choice.

Greenfield Community College has collaborative agreements with Berkshire Community College and Holyoke Community College for enrollment in selected health occupations programs that are not currently available at GCC. Holyoke Community College enrolls selected students from the Greenfield area in their Radiologic Technology program. Participating students are subject to program requirements at the collaborating institutions. See pages 111-115 for program information. For further information contact the Health Occupations Office at (413) 775-1802 or 775-1805.

Additional Admission Requirements

Immunization and Health Requirements

Greenfield Community College, in compliance with the College Immunization Law, Chapter 76 Section 15C of the Commonwealth of Massachusetts, has adopted the following immunization policy: All full-time students (enrolled in 12 or more credits), and all full-time and part-time international students, must provide the Health Services Office with documentation of immunity to specified communicable diseases within 30 days of starting classes. Failure to comply with these requirements will jeopardize continued enrollment, receipt of grade reports, transcripts, etc. Medical and religious exemptions are allowed. All full and part-time health occupation students must provide the Health Services Office with documentation of a physical exam and immunity to specified communicable diseases. Health occupation students will not be permitted to attend classes without a completed health record.

For a list of current immunization requirements, or assistance in meeting immunization requirements, contact the Health Services Office, room C123, Main Campus, (413) 775-1430.

Criminal Offender Record Information Checks

Students interested in participating in an academic program that involves working with children, the disabled, or the elderly, or includes a clinical affiliation with a private or public health care provider, will be required to undergo a Criminal Offender Record Information (CORI) check. Depending on the contents of a student’s CORI report, participation in an academic program, or clinical affiliation related thereto, may be denied. CORI checks may be performed pursuant to Mass. General Laws, Chapter 6, Sections 167-178B, and consistent with guidelines of the Executive Office for Health and Human Services, and/or the Commonwealth’s Department of Public Health. For more information, please contact Laura Earl, Staff Assistant to the Dean of Student Affairs (413) 775-1816.
Transferring from Other Schools and Colleges *

Students applying for admission to Greenfield Community College who have attended other post-secondary institutions must submit official transcripts from those institutions to the Admission Office. Official transcripts are required if:

1. You need documentation of previous successful college coursework for exemption from placement testing, or
2. You intend to transfer credit toward your degree or certificate program at GCC, or
3. You expect to enter one of GCC's health occupation programs.

Transfer credit is generally given for those courses that are similar in content, level, and scope to courses offered at Greenfield Community College, and in which at least a C- grade has been earned. An evaluation of transfer credit is based on a student’s academic major at GCC. Course descriptions should be provided for each course that you are requesting to receive transfer credit. Any change of major in the future will require a re-evaluation of this transfer credit. A student must earn a minimum of 15 semester hours at GCC to be eligible to receive the associate’s degree.

* There are stricter standards for the Criminal Justice Program. Please see page 67.

Additional Certifications

Some programs such as Associate Degree Nursing, Practical Nursing Certificate Program, Massage Therapy Certificate, Outdoor Leadership Certificate, and Paramedic Certificate require certification in areas such as EMT, CPR and Wilderness First Responder. Please refer to the special application process materials for those individual requirements.
We Welcome International Students

We welcome international students at Greenfield Community College. We do not provide housing on campus, but our Student Life Office is willing to assist you in finding housing in the community. We are also unable to offer financial assistance under any federally-funded financial aid program. Therefore, international students should have ample financial resources to meet their college expenses.

Estimated Expenses for International Students Per Academic Year*

</tr>
<tr>
<td><strong>Total expenses</strong></td>
<td><strong>$23,089</strong></td>
</tr>
</tbody>
</table>

* These costs reflect the tuition-and-fee schedule for the 2004-2005 school year, based on 15 credit hours per semester. All costs are subject to change and may vary for each student.

If you are an international student, you should submit your completed application to the Admission Office at least six months prior to the time you plan to attend. We recommend that you contact the admission staff at (413) 775-1840 as soon as possible to ensure that all necessary requirements have been met in sufficient time.

Applicants must apply for admission by submitting all the following required documents to the Admission Office no later than sixty (60) days prior to the first day classes start in the term/semester they wish to attend.

- $35.00 non-refundable application fee payable in American funds. If paid at another community college in the Massachusetts Community College System, please have that institution notify us of that payment.
- Admission Application - NOTE: Permanent address on the admission application should be from your home country, not a US address.
- Proof of high school graduation that includes the date of graduation. This has to be the original document or a certified copy in English.
- High school or secondary school final transcripts (grades). This has to be the original document or a certified copy in English.
- Students must demonstrate that they are financially able to support themselves for the entire period of stay in the United States while pursuing a full course of study and are required to attach documentary evidence of means of support. Generally, a sponsor guarantees enough money to cover the educational costs and living expenses for an international student. A sponsor can be a family member or friends. Students may even sponsor themselves.
Letter from the bank showing verification of available funds in English.

Testing information. The TOEFL score requirement for academic programs is 550 or higher on the paper test or 213 or higher on the computer test. (Required for all applicants from countries where English is not the primary language.)

Immunization Record; international students are required to provide documentation of their immunization record and complete the Tuberculosis Risk questionnaire.

SEVIS fee (Student and Exchange Visitor Program) - $100. The purpose of this fee is to cover the costs for the continued operation of the Student and Exchange Visitor Program (SEVP) including the administration and maintenance of SEVIS, compliance activities, and the establishment of SEVIS Liaison Officers.

Health and accident insurance. Because US medical costs are very high, this is very important. If you don’t have insurance that will cover you while you are in the US, it will be necessary for you to purchase insurance through the college. We estimate that expense to be around $600 per year.

Federal financial assistance is not offered to international students. All international students must have an exit interview with the Director of Admission or his designee upon withdrawal from the college or graduation. This should include any break in your attendance at GCC.

**English for Speakers of Other Languages**

If you demonstrate proficiency in English through your scores on placement assessments, you will not be required to take course work in English for Speakers of Other Languages (ESOL). However, if your placement assessment scores indicate that you need further English language study, you will be enrolled in ESOL classes at the appropriate level and limit your enrollment in other classes as well.

**Eligibility for Federal Student Financial Aid**

*(Title IV Eligibility)*

Student eligibility:

- Students of any age can be eligible to apply for Federal Student Financial Aid after they have completed a home school program according to Federal Law.

Institutional Eligibility:

- An eligible institution is one that admits as regular students only persons who have a high school diploma or equivalent or persons beyond the compulsory attendance age for the institution's state.
Additionally, under Massachusetts state law, students who complete a home school program are not considered to have completed the equivalent of a high school education, therefore, we cannot matriculate a student under compulsory attendance age unless they have received state-approved certification (as of now, only Pennsylvania issues such certification) for their home school program.

State approved certification is the equivalent of a high school diploma.

Finally, students of any age may enroll in any course(s) with the exception of an approval of a Course Enrollment Objection (see page 11); however, students cannot be matriculated unless they satisfy one of the above mentioned categories.

How to Get Credit Applied to Your Program of Study

Students declaring a program of study may qualify for transfer credits based on previous educational experiences, including courses completed at other accredited or recognized institutions of higher education.

You may transfer credit earned at other colleges and universities to GCC provided you earned a grade of C- or better, and the courses will apply to your certificate or degree at GCC. Grades will not transfer and are not used to calculate your grade point average at GCC. Complete details about our transfer policies may be obtained by contacting the Admission Office*.

You may also receive college credit for:

- satisfactory performance on selected College Board Advanced Placement Examinations and American College Testing subject examinations;
- satisfactory performance on selected College Level Examination Program examinations;
- demonstrated competence on GCC challenge examinations;
- unique life and work experiences that lend themselves to evaluation†; or
- course work completed in the military through recognized educational programs*.

* The Criminal Justice program has stricter requirements and does not award life experience credits or credit for military or police training. Please see page 67.

The content of each challenge examination is roughly equivalent in scope and content to the final examination for the selected subject. The passing standard is a “C” or better. Some departments or programs may require a specific score to meet their own requirements or prerequisites.

Students enrolled in a certificate or degree program who wish to earn credit by examination should request an application form and a list of division offices to contact from the Student Services Office. A fee of $40 per credit is charged. A receipt of payment and the application form should be left in the division office before the date of the exam. Study guides for some examinations may be on reserve in the library.
Courses that currently can be challenged for credit at GCC are:

- ACC 121, Principles of Financial Accounting I
- ADM 106, Keyboarding for Info. Processing
- BUS 105, Mathematics for Business
- CIS 115, Intro. to Business Information Systems
- CIS 140, Microcomputer Software Tools I

Please note that you can not challenge a course for credit if you have failed the course at GCC.

How to Satisfy Currency Requirements for a Course or Program

A number of courses and programs at GCC require students to satisfy a currency requirement for some required or prerequisite courses. This means students must have taken the course within a stated number of years prior to enrollment in the course or program for which its currency is required. A student who has taken such a course but who does not meet the currency requirement may qualify to take a currency examination. Biology, Chemistry, and Psychology courses for which a student may demonstrate currency at GCC are:

- BIO 194, Comprehensive Anatomy and Physiology I
- BIO 195, Human Anatomy and Physiology I
- BIO 196, Human Anatomy and Physiology II
- CHE 105, Basic Principles of Chemistry
- PSY 217, Human Growth and Development

To qualify for a currency examination for BIO 117, BIO 118, BIO 195, BIO 196, or PSY 217, a student must submit a college transcript showing completion of an equivalent course with a grade of C or better. Students applying for a Health Occupations Program should check the specific grade requirement for that program.

To qualify for a currency examination for CHE 105, a student must submit either a college or high school transcript showing successful completion of an equivalent course with a grade of C or better.

General Education Development (GED) Tests

The GED Testing Center provides people who have not graduated from high school with the opportunity to earn a High School Equivalency Diploma. Massachusetts residents who are at least 16 years of age and not currently enrolled in high school may take the GED Tests, which are offered in Greenfield and Orange on a regular basis. Free GED preparation classes are available at local adult education centers. For more information, contact the GED Office, (413) 775-1147.
TUITION AND FEES

The Costs of Attendance

Your costs will vary depending upon individual circumstances. Your bill will reflect charges based on the number of credits and the type of courses you take. The college has different tuition and fee charges for credit and credit-free workshops. In addition, your residency status and miscellaneous fees may impact the amount of the bill. Tuition and fee charges are subject to change.

In accordance with applicable provisions of Chapter 15A of the General Laws all educational programs, college sponsored activities, college tuition, fees, and related charges are subject to change upon approval by the Massachusetts Board of Higher Education or the Greenfield Community College Board of Trustees.

Tuition and Fees

Tuition cost is based on your official permanent residence. Residents of Massachusetts pay the lowest tuition. Students from other New England states who qualify for the Regional Student Program of the New England Board of Higher Education (NEBHE) currently pay 150 percent of the Massachusetts resident tuition listed in Figure 1.

Figure 1: Massachusetts Resident Tuition and Fee Charges for Credit Courses (subject to change):

Other fees may apply.

* NEBHE day tuition is $39 per credit; this is a special rate for qualifying New England residents. Out-of-state day tuition is $281 per credit. The college offers no reduction in tuition and fees for auditing a course. Credit-free courses are priced individually.

The New England Regional Student Program

Through the New England Board of Higher Education (NEBHE), Massachusetts participates in the Regional Student Program (RSP), which enables students from one New England state to attend public colleges or universities in another New England state at tuition rates below those normally charged to out-of-state students. Eligible New England students who reside outside of Massachusetts currently pay 150 percent of the tuition charged Massachusetts residents. This is a substantial saving compared to the standard non-resident tuition. To qualify, you must be a resident of one of the
five other New England states and be pursuing a degree or certificate program that is not offered at a two-year community college in your home state, or is offered at a Massachusetts community college that is closer to your home. For more information, please contact our Admission Office.

How Your Fees are Used

**Registration Fee:** The registration fee is used to help defray some of the administrative costs of registration.

**College Service Fee:** The college service fee helps pay for a variety of academic services, equipment, supplies, and technology expenses.

**Health Service Fee:** The health service fee helps pay for services provided to students through the College’s Health Services Office.

**Student Activity Fee:** The student activity fee supports a wide range of student activities offered by the College. These include concerts, movies, dances, music productions, and clubs.

**Other Fees:** You may be charged other fees which are used to cover specific costs such as course or program-specific fees, late registration charges, or returned check fees.

Estimated Expenses

The cost of attending GCC involves several types of expenses that will vary depending on your individual circumstances. In general, though, your total expenses will include tuition and fees, books and supplies, room and board, transportation, and personal expenses (such as clothing, laundry, and recreation).

Housing and Transportation

GCC does not have dormitory facilities. However, our Student Life Office provides an information booklet and a bulletin board for notices about housing. The Student Life Office can be reached at (413) 775-1200.

Ample, well-lit parking is available free of charge. The Greenfield/Montague Transportation Authority and the Franklin Regional Transit Authority provide regular bus service to campus from the greater Greenfield area.
Annual Board of Higher Education -
Affordability Disclosure Statement

Students who attend Greenfield Community College and other public higher education institutions in Massachusetts receive a substantial subsidy of their cost of education through a state appropriation. The state appropriation lowers the cost of tuition and fees to students. Many needy students also receive financial aid awards to further reduce their costs.

The annual cost information below is an example of the net cost to a Massachusetts resident taking 30 credit hours per year at Greenfield Community College. Individual costs will vary depending on each student’s particular circumstances.

</tr>
</tbody>
</table>

In addition to the state subsidy and student financial aid, students may also be eligible for federal income tax credits (Hope Scholarship). Actual tax credits will vary with a maximum being $1,500. Tax credits do not reduce the initial cost to attend college, but are instead a reimbursement of tuition paid. In the example above the student’s cost would be fully covered through financial aid and the tax credit. For more information about tax credit eligibility, refer to Internal Revenue Service instructions or ask your tax advisor.

Student annual financial aid includes all federal and state grants and tuition waivers that may be applied directly to the College’s tuition and fees. Tuition and mandatory fees reflect the cost of the courses; it does not include health insurance or other miscellaneous fees.

MassPIRG

Day students are automatically assessed a $7 per semester voluntary contribution to the Massachusetts Public Interest Research Group (MassPIRG) organization. You can waive this fee by completing the necessary paperwork in the Business Office.

Insurance

Health Insurance: All students who are registered for nine (9) credits or more, and who are also enrolled in a degree or certificate program, are required by state law to purchase health insurance through the college. The cost for coverage from September 1, 2005 through August 31, 2006 is not available at this time, but is generally around $750. The insurance charge is automatically added to your bill if you are enrolled in a degree or certificate program for nine (9) or more credits. If you carry your own health insurance, you can waive the charge by completing an insurance waiver form.
in the Business or Registrar's Office. You can purchase the insurance plan if you are taking fewer than nine credits by filling out a part-time student insurance application form, found on the back cover of the student insurance booklet sent to students with the fall tuition bill. Student insurance brochures are also available at the student Health Service Office and the Business Office. It must be submitted to the insurance carrier directly. Voluntary coverage for dependents is also available.

Liability Insurance: We require all health occupation students to carry college-approved professional liability insurance.

Are You an In-State or Out-of-State Resident?
You are an in-state resident if you are a U.S. citizen or permanent resident, have established a residence in Massachusetts, and have maintained continuous residence in Massachusetts for at least the six months immediately prior to the date of your enrollment.

Are You a Full-Time or Part-Time Student?
You are a full-time student if you are registered for at least 12 credits of course work per semester; in day, evening, or weekend classes, in which you will receive a letter grade. If you are registered for fewer than 12 credits, you are a part-time student. Full-time or part-time status may affect your eligibility for such programs as health insurance, financial aid and veteran's benefits.

Weekend Classes
Weekend classes are designed for working people or students who need a more flexible academic schedule. Classes are held Fridays, Saturdays and some Sundays. Support services including tutoring, disability accommodations and academic advising are available to weekend students. Please call the Administrator for Evening and Weekend Services, at (413) 775-1804, for additional information.

Payment and Refund Policies

Paying Your Bill
Payment for tuition and fees is due three weeks before classes begin each semester; or upon registration after that date. We recommend that you pay your bill by mail, and make your check, bank check, or money order payable to Greenfield Community College. We also accept payment by MasterCard, Discover; and Visa by mail or phone. Please do not send cash. If you prefer, you may pay your bill in person at our Business Office. An installment payment plan is available for your convenience. Contact the Business Office at (413) 775-1301 if you have any questions about your bills and payments.
What Happens if Your Payments are Late

If you have not paid your bill by the due date, your class(es) may be canceled. In addition, any outstanding financial or property obligations to the College will result in a “hold” on your account which will prevent you from receiving grade reports, official transcripts and future registrations. Your account may be turned over the Commonwealth’s INTERCEPT of state tax refund program and the College’s collection agency. All collection costs are the responsibility of the account holder.

Tuition Waivers

The College requires that a completed tuition waiver form be presented at the time of registration if you are eligible for one. Proof of eligibility must be provided. No refunds will be made if you fail to submit the proper waiver in a timely manner. Generally, fees cannot be waived, except for senior citizens and certain college employees. Students registering using a waiver may be admitted to the course on a “space available” basis.

Refund Policies

The college has different refund policies if you withdraw from day, evening, weekend, summer, or intersession courses, or from credit-free workshops. (See Figure 2 below.) In all cases, the date of formal withdrawal will determine your eligibility for a refund. A full refund will be given if a course or workshop is canceled. Please allow six (6) weeks for processing of refunds.

Credit-free workshops require official withdrawal prior to the end of the published registration period or one (1) week prior to the first workshop session. A full refund, less a $10 administrative charge, will be given for official withdrawals. Official withdrawal is made by completing a “drop/add” form and submitting it to the Registrar’s Office within the time frame required. Refunds for non-credit workshops will not be issued under any other circumstances.

</tr>
</tbody>
</table>

* For summer and intersession courses, the last day for 50% refund is the third day of the term. There is no refund after the tenth day for other courses.
Exceptions:

Students may request an exception to the refund policy by writing to the Dean of Administrative Services. Exceptions are made on a case-by-case basis. The request should contain enough information to allow an examination of all the pertinent facts and include any applicable documentation, which will strengthen the request. Students should submit their requests to Dean of Administrative Services, attn: Karen Bross, Administrative Assistant, One College Drive, Greenfield, MA 01301-9739. Students also may submit requests via email to hillien@gcc.mass.edu with a cc: to brossk@gcc.mass.edu. If the request includes additional documentation, students should submit the request by the traditional postal service route to Karen Bross.

Refund of Federal Financial Aid Title IV Funds

Students withdrawing from the College may have their financial aid payments adjusted to reflect the actual percentage of time that they have attended class and/or other educational activity. This percentage will be calculated by the number of days the student has attended the college divided by the number of days in the semester. The College and student must return any unearned aid to the appropriate funding sources (e.g. Pell Grant, Mass Grant, Mass Cash Grant, Stafford Loan). The College will have only 30 days to determine the correct amount of funds the student has earned and notify the student if a refund must be collected for any aid previously disbursed. (Students will need to work very closely with the Financial Aid Office as they withdraw from the college.)
FINANCIAL AID
(www.gcc.mass.edu/financial_aid)

Many Students Are Helped with Financial Aid Programs

Many of the students attending Greenfield Community College participate in financial aid programs. These financial aid programs come from federal, state, institutional, and private or community resources and carry certain requirements and obligations on the part of the College and the students.

You should be aware that your particular academic program may have an impact on your financial aid award. For example, developmental courses, withdrawing from the college, or repeating courses may affect the status of your aid.

You should also be aware that the costs associated with attending the College will not be covered entirely by financial aid.

Be aware that all financial aid programs are subject to changes in regulations and procedures.

How Do I Apply For Financial Aid?

To be eligible for financial aid, you must:

- be enrolled in an eligible degree or certificate program at Greenfield Community College;
- be a US citizen or an eligible non-citizen;
- have a high school diploma, a High School Equivalency Diploma (GED), or have passed a federal Ability-to-Benefit test;
- maintain satisfactory academic progress required under your aid program;
- provide information about you and your family’s financial background, as follows:

1. All students must complete the Free Application for Federal Student Aid (FAFSA) in order to be considered for any federal, state, or institutional aid. Submit the form to the address on the envelope attached to the application. Students must list Greenfield Community College’s code number 002169. This will ensure that the FAFSA results are submitted to the college electronically. The application will take approximately four weeks to be processed by the Department of Education. The priority application deadline is April 15 to be considered for all forms of financial aid, although you may apply for financial aid throughout the semester.

2. Students must also complete a Greenfield Community College Financial Aid Application.

3. Verification of all income, which includes a copy of your federal income tax forms for the calendar year prior to enrollment, will be required for
those students selected by the Department of Education. You must also submit verification of untaxed income such as Social Security or welfare benefits to the Financial Aid Office. If you are supported by a parent or guardian, we need to verify your parents’ or guardians’ income as well.

4. If you have received a scholarship from an off-campus group or individual, please provide the Financial Aid Office with official certification and complete terms of the award as early as possible.

5. An eligible noncitizen card may be requested if the student is an immigrant (I-94, I-151, I-181, I-181a or I-181b).

6. Anticipate that the complete application process may take approximately two months. If you adhere to the following deadline, you can be assured of an answer concerning eligibility before tuition bills are due:

   For the Fall Semester—
   - Mail FAFSA by April 15.
   - Bring documents to the GCC Financial Aid Office by May 15.
   - Applications and files completed after July 15 cannot be guaranteed notification of a financial aid award by the beginning of the Fall Semester.
   - Files not completed within 30 days of the end of the semester will not be considered for aid.

   For the Spring Semester—
   - Mail FAFSA by November 7.
   - Bring documents to the Financial Aid Office by December 5.
   - Applications and files completed after December 5 cannot be guaranteed notification of a financial aid award by the beginning of the Spring Semester.
   - Files not completed within 30 days of the end of the semester will not be considered for aid.

What Kind of Financial Aid is Available?

In an effort to enable all qualified students to attend GCC, we offer assistance to students with demonstrated financial need, and we participate in all major federal and state financial aid programs. Our Financial Aid Office can help you with a combination of three general types of financial assistance:

- Grants and scholarships from federal, state, and institutional sources, which you do not repay;
- Loans backed by federal, state, or private sources, which you must repay, usually at long-term, low-interest rates; and
- Federal work-study, which provides you with a part-time job during the summer or the school year, either on or off-campus.
Grants and Scholarship Programs That Are Available

The following descriptions give you a clear, general picture of most grants available through the College. However, they do not include all requirements for grant eligibility. If you have questions about your eligibility for a grant or other form of financial aid, contact the Financial Aid Office at (413) 775-1109.

_Pell Grants_

The Pell Grant Program provides grant assistance to students with exceptional need. The amount of grant money that you can receive through this program will depend upon a program’s federal funding for the year, the information provided by you and your family, and whether you are enrolled full-time or part-time. You must be enrolled for a minimum of 3 credit hours in an eligible program. Your eligibility for this grant is evaluated each year until a first Bachelor’s Degree is earned.

_Federal Supplemental Educational Opportunity Grant_

The Federal Supplemental Educational Opportunity Grant (SEOG) Program is a federally-funded, campus-based program that provides grants for exceptionally needy students, based on the student’s financial resources, the cost of education, the number of credits a student is enrolled in, and the funds available to the college.

_Federal Work-Study Program_

The Federal Work-Study Program uses federal funds to offer part-time on-campus and off-campus jobs to students with demonstrated financial need. The program enables students to earn money while gaining job experience.

_Federal Perkins Student Loan Program_

The Federal Perkins Student Loan Program enables GCC to make low-interest, deferred-payment loans to students with demonstrated financial need. Borrowers begin repayment after they graduate or withdraw from the college. Entrance and exit interviews are required.

_Nursing Student Loan Program_

The Nursing Student Loan Program uses state and federal funds to provide low-interest, deferred-payment loans to Registered Nursing Program students with demonstrated financial need. Entrance and exit interviews are required.
Federal Family Educational Loan Programs: The Stafford (Subsidized and Unsubsidized) Loan, The Parents Loan Program

The Federal Family Educational Stafford Loan Program enables students with financial need to obtain low-interest, deferred-payment loans through banks or other lending agencies. Borrowers begin repayment six months after they graduate or withdraw from the college. In Massachusetts, this program is administered by the American Student Assistance Corporation. Loans will not be processed until a student’s financial aid file is complete. Entrance and exit interviews are required.

Massachusetts Cash Grant Program

The Massachusetts Cash Grant Program provides grant funding to students who demonstrate financial need and have been a legal resident of the state for one year prior to the opening of the academic year. Students must have completed the FAFSA application.

Massachusetts No-Interest Loan Program

The Massachusetts No-Interest Loan Program supplements other loan programs available through GCC by providing a loan to full-time needy students who have completed their FAFSA application by August 1. No interest charges are applied to the students’ repayment until the end of the deferment period. Entrance and exit interviews are required.

Massachusetts Paraprofessionals Teacher Preparation Grant Program

The Massachusetts Paraprofessionals Teacher Preparation Grant provides financial assistance to a Massachusetts resident who has worked and continues to work as a paraprofessional in a public school in the Commonwealth of Massachusetts for a minimum of two years or is employed as a paraprofessional and is pursuing a course of study that will lead to certification as a teacher in bilingual education, special education, math, science or foreign language. Students may be full or part-time. Awards are determined by the Office of Student Financial Assistance.

Massachusetts Part-time Grant Program

The Massachusetts Part-time Grant Program provides additional grant assistance to students who are studying on a half-time or three-quarter time basis and who demonstrate financial need.

Massachusetts Tuition Waiver Program

The Massachusetts Tuition Waiver Program is a waiver of tuition for residents of Massachusetts who have resided in the state for one year prior to the opening of the academic year and who demonstrate a financial need.
Massachusetts Grant Program (for Full-time Study)

The Massachusetts Grant Program provides additional grant assistance to students who are studying on a full-time basis (12+ credits each semester), who have been legal residents of the state and who demonstrate financial need.

Massachusetts Performance Bonus Grant Program

The Massachusetts Performance Bonus Grant Program provides a financial reward for students who have performed well in college, have completed at least 24 college credits beyond high school, and have maintained a 3.0 (or higher) grade point average (GPA).

Vermont Student Assistance

The Vermont Student Assistance Grant Program provides additional grant assistance to students who are studying on a full-time or part-time basis, who are legal residents of the state of Vermont and who demonstrate financial need. Students must apply directly to the Vermont Student Assistance Corporation for consideration.

Institutional Grants

GCC scholarships are funded by the GCC Foundation to provide additional support for students in need of financial assistance. The annual Striving and Driving Golf Tournament is the primary fund-raiser for these scholarships. Volunteers from the College Foundation, the local community, GCC students and GCC staff work hard to raise this money.

Awards and Scholarships

Awards and scholarships are given to students at the annual Honors Convivium in the spring to honor students for their academic achievements, their leadership and their community involvement. Applications are available for some awards, while other recipients are selected by faculty and staff. A complete list of scholarships and awards is available in the GCC Foundation Office located in the Downtown Center or in the Financial Aid Office.

Veterans Benefits

Veterans of the United States armed services, or dependents of a deceased or disabled veteran, may be eligible for federal veterans’ educational assistance benefits. For additional information, contact our Veterans Affairs Coordinator in the Financial Aid Office, at (413) 775-1102 or (413) 775-1109.

In addition, the Commonwealth of Massachusetts provides tuition exemptions at public colleges and universities to veterans who have been residents for one year prior to the beginning of the academic year. Members of the Massachusetts National Guard may also be eligible for tuition assistance. Those seeking to use a tuition waiver for any of these classifications must confer with our Veterans Affairs Coordinator before enrollment.
Grants and Awards Policies

Packaging Policy for Financial Aid

Financial aid is awarded to those students who qualify. The financial aid which the college awards from the various grants, scholarships, loans, and work-study programs is based on financial need. Applicants’ financial need is determined by subtracting students’ estimated family contributions from their estimated student expenses.

Repeated Class Policy for Financial Aid

Students who have received credit for a class and wish to repeat that class are generally not eligible for financial aid to cover the charges for that class. Students will be eligible to receive financial aid for a course that is replacing a grade of “F.” A detailed Repeated Class Policy will be available in the Financial Aid Office after the start of the school year.

Financial Aid and Standards of Satisfactory Academic Progress

All students will be academically eligible for financial aid during their first semester of attendance at Greenfield Community College, regardless of their previous academic experience. After their first semester of attendance, students must maintain satisfactory academic progress in order to remain eligible for financial aid in subsequent semesters.

In order to maintain satisfactory academic progress, students must not be dismissed from, suspended from, or placed on academic probation by the college, according to the current academic standing policy published in the College Catalog, Student Handbook, and elsewhere. In addition, students must earn a certain minimum number of credits for each semester of attendance, regardless of whether they received financial aid during that semester, based on each student’s enrollment status as of the last day to withdraw with a partial refund, which is approximately 10 class days into the semester. A complete explanation of all types of enrollment is available in the Financial Aid Office.

Entrance and Exit Loan Interviews

All student loan applicants and recipients are required to attend an entrance and exit interview each year that they receive a loan. The College recommends that you request only the minimum amount necessary to cover your educational costs to reduce your future loan burden. You will be notified about the place and time of the meetings. Funds will not be disbursed until these requirements have been fulfilled.

Federal Stafford Student Loan applications will not be processed until you have completed the financial aid application process.
Time Limits for Financial Aid

Federal law and college policy require that students receiving financial aid complete their degrees or certificate programs in a reasonable length of time. If your work toward a degree or certificate is delayed or interrupted for any reason, you should consult with the Financial Aid Office to determine the status of the aid you are entitled to.

Financial Aid for Summer Sessions

There is very little financial aid available for the Summer I Session. Aid for the Summer II session will be based upon the requirements for the following financial aid year. Students are encouraged to complete Summer Financial Aid Applications in April/May as they register for summer classes. The Financial Aid Office will determine the amount of aid available to the students prior to the beginning of their classes. Pell Grant eligibility will be based on whether students have used their entire award for the academic year. Satisfactory academic progress requirements are identical to semester requirements.

Rights and Responsibilities of Students Receiving Financial Aid

Students receiving federal and state financial aid funds should always be familiar with their rights and responsibilities. Various publications from the Department of Education, American Student Assistance Corporation or the College will provide students a thorough explanation of their rights and responsibilities.

Financial Aid from Private Sources

If you received a financial aid award from an off-campus group or individual, please provide our Financial Aid Office with official certification and complete terms of the award as early as possible.
MANAGING YOUR GRADES AND ACADEMIC PROGRESS

When you are admitted to GCC, we normally expect that you will undertake an organized program of courses that will enable you to earn a certificate or an associate degree. You may, however, decide to take credit or credit-free courses during the day, evenings, or weekends to enhance your occupational skills or enrich your personal life, without pursuing a degree or certificate. If you are a junior or senior in high school, you may be eligible to take credit courses that will help fulfill your high school graduation requirements while earning credit toward a college degree. To do so, you will need the written approval of your principal.

Academic Advising

We encourage you to develop and maintain a close relationship with your academic advisor. Your advisor can provide helpful guidance in selecting courses, exploring career options, and transferring to another institution. Obtaining good advice early can help you to avoid problems later. If you are enrolled in a degree or certificate program and take courses during the day, a faculty or professional staff member will serve as your academic advisor. If you are enrolled in a degree or certificate program and take courses only in the evening, an evening academic counselor will serve as your advisor. You can find out who your advisor is, where your advisor’s office is located, and your advisor’s telephone number by visiting either the Advising Center or the Student Services Office. Advisors generally post their office hours and other contact information on their office doors.

Skills Assessment

Most students are required to complete reading, writing, and mathematics assessments before registering for their first credit course. This assessment helps to ensure academic success by placing students in appropriate courses. You may be exempt from skills assessment if:

- you have already completed the assessment process at GCC within the last year;
- you have successfully completed a transferable course in English composition and/or mathematics at another college (a math course must have been within the last five years);
- you are taking courses on an audit basis and not for credit.

Students who believe their assessment scores do not reflect their level of skill should contact the Skills Assessment Office in Student Services, at (413) 775-1147, to discuss their options and to arrange for a retest.
Developmental Courses

Courses with the advising code “D” (this is an administrative code, not a grade of D) are for improving basic reading, writing, mathematical, and study skills and may not be used to fulfill associate degree requirements. Grades earned for these courses will not be used in calculating your grade point average.

Changing Your Major or Your Advisor

One of the objectives of a college education is to explore and experiment with a variety of academic interests and career options. As a result, we recognize that as your interests and goals evolve, you may want to change either your major program of study or your academic advisor or both. If you would like to change your major, your advisor, or both, contact the Advising Center for additional information.

Course Load Maximum

You cannot carry a course load of more than 18 credits unless you have the approval of your advisor and your advisor’s associate dean. To be eligible, you must be in good academic standing.

How to Add a Course

You may add a course through the first week of classes with the approval of your advisor. You may add courses after this time only with the approval of the instructor and the appropriate associate dean, in addition to the approval of your advisor. You must use a drop/add form to add courses, and the form must be submitted to and processed by the Registrar’s Office before the change becomes official.

How to Drop a Course

You may drop a course through the first two-thirds of the class. If you drop a course during the first third of the class, no record of it will appear on your transcript. If you drop a course during the second third of the class, you will receive a grade of “W”.

We will not process an official drop during the last third of the class, and if you stop attending, you will receive a grade as assigned by the instructor. We cannot process a drop/withdrawal for a class that has already ended. If you want to drop a course, you should consult your advisor; and you must complete a drop/add form and submit it to the Registrar’s Office for processing; otherwise, the change will not become official. Simply telling your instructor is not enough. If the change does not become official, you may jeopardize your eligibility for tuition refunds, financial aid, and continued enrollment. If extraordinary circumstances force you to drop a course during the final third of a semester, you should discuss the possibility of making an exception with the Dean of Student Affairs.
If You Need to Repeat a Course

You may repeat any course, but you may not earn credit twice for the same course. When you repeat a course, your latest grade replaces the previous grade in the calculation of your grade point average. You will not receive financial aid for any repeated course unless you are replacing a grade of F.

Some exceptions and choices apply when you repeat English Composition I or II. Discuss your options with your advisor or your instructor.

Course Enrollment Objections

Faculty who believe that their course content, or a portion thereof, may be inappropriate or unsafe (physically, emotionally, etc.) for one student or others, may recommend to the Dean of Academic Affairs, in writing, that the student not be permitted to enroll in that course. The request needs to specifically state examples of the content the faculty member believes to be inappropriate. Finally, faculty are encouraged to examine their course descriptions to maximize accurate portrayal of course content.

Class Attendance

We expect you to attend class regularly. Absences may jeopardize your academic status and lower your grades. Individual instructors and program coordinators have the authority to establish attendance standards appropriate for their courses, and they should inform you in writing of those standards at the beginning of the course.

Religious Absences

We recognize that your religious beliefs may occasionally cause you to miss class or other college activities. Under Massachusetts state law, you are excused from class on a particular day when it conflicts with your religious beliefs. Your professor must provide you with the opportunity to make up a missed examination or class work, provided that such makeup examinations or work do not create an unreasonable burden on the College.

Academic Honesty

The faculty and staff at Greenfield Community College expect academic honesty. The college upholds the definition of plagiarism published by the Modern Language Association: “Using another person’s ideas, information, or expressions without acknowledging that person’s work constitutes intellectual theft…Students exposed as plagiarists suffer severe penalties, ranging from failure in the assignment or in the course to expulsion from school.” (MLA Handbook for Writers of Research Papers. 6th edition. Ed. Joseph Gibaldi [New York: MLA, 2003] 66-67). Students should consult with individual instructors for how to acknowledge sources properly and for the consequences of plagiarism. Students may also want to see the “Procedures for Honesty and Academic Offenses” in the GCC Student Handbook.
Grading

Course grades are reported in letter symbols which include credit/no credit (CR/NC). We will mail a grade report to you at the end of each semester. In addition, in the middle of each semester we will mail preliminary reports of academic deficiency to you for each course in which you are earning grades of “D”, “F”, or “O”. In our grading system, plus (+) and minus (-) symbols may be used only for grades of “B” and “C”, while a minus symbol may be used for the grade of “A”. Listed below are the grading symbols that we use.

A—Excellent B—Good C—Satisfactory D—Poor F—Failing

IN Incomplete: indicates work of acceptable quality where you have failed to complete course requirements and the instructor wishes to allow time for the completion of the work. The “IN” must be removed within four weeks of the beginning of the next semester or it is replaced by an “F” or “NC” (for courses graded CR/NC).

W Withdrawn: indicates that you have officially withdrawn from a course or from the College. Withdrawal from the College requires the submission of a completed withdrawal form, to the Registrar’s Office.

AW Administratively Withdrawn: indicates that you have been administratively withdrawn for failure to fulfill financial, medical (immunization records), or property obligations to the College. Once you have been administratively withdrawn, you may not be reinstated during that semester.

AU An audit carries no credit and has no grade point equivalent. AU grades cannot be used to satisfy graduation requirements.

CR Credit

NC No Credit (credit/no credit option): Full-time students may elect to take one course each semester on a CR/NC basis, in addition to courses normally graded CR/NC, provided that at least nine credits of coursework are taken on a graded (A, B, C, D, F) basis. You must perform work of “C” quality or better to earn credit (CR). This option must be selected at the time of registration. Courses taken on a CR/NC basis often are not transferable to other institutions.

NG No Grade Submitted is assigned temporarily by the Registrar to indicate that no grade was received from the instructor.

O Insufficient Basis for Evaluation: indicates that you have discontinued attendance without formally withdrawing from the class or the College prior to the final withdrawal date. The “O” grade will be treated as an “F” in the calculation of the grade point average. The “O” grade is considered an indication of unsatisfactory academic progress for financial aid purposes.
Auditing a Course

There may be circumstances under which a student will wish to audit a course, i.e., participate in the class without earning a grade, credit hours, or academic credit. The student is encouraged by the instructor to participate fully in the learning process. Students must state their intention to audit at the time of registration and are required to pay all tuition and fees associated with the class. Financial aid does not cover the cost of audited classes. Changes to or from an audit status are treated as adding a class and must be processed prior to the end of the published add period.

Grade Point Average

At the end of each semester or after any grade change, we calculate your semester and cumulative grade point averages. These averages provide a general indication of your academic performance, the first based on one semester and the latter on all of the courses that you have taken.

To calculate a grade point average (GPA), we convert all letter grades to numbers, which we call grade points, as follows:

- A = 4.00
- B = 3.00
- C = 2.00
- F = 0.00
- A- = 3.65
- B- = 2.65
- C- = 1.65
- O = 0.00
- B+ = 3.35
- C+ = 2.35
- D = 1.00

Once the letter grades have been converted to grade points, we multiply the grade points by the number of credits for each course, resulting in what we call quality points. We then total all of the quality points and divide the sum by the total number of credits, resulting in the grade point average. In calculating a grade point average, we use only the grades listed above with their corresponding grade points. No other grades affect the grade point average in any way.

Dean’s List

The Dean’s List recognizes matriculated students with superior academic achievement for a given term. To be included on the Dean’s List, you must have:

- earned at least 12 credits at GCC;
- earned at least 6 college-level graded credits in the semester or during summer terms I and II combined;
- no incomplete grades;
- no grade less than a “C” in the term;
- achieved a term GPA of at least 3.50 at the term’s end; and
- achieved a cumulative GPA of at least 2.00 at the end of the term.
Phi Theta Kappa International Honor Society

Each candidate for membership must have completed 12 semester hours of associate degree work, with a GPA of 3.5 or better. A GPA of 3.25 or better must be maintained to continue membership. Candidates with a 3.5 GPA or better, that adhere to the school conduct code and possess recognized qualities of citizenship will be invited to join Alpha Sigma Omicron chapter of Phi Theta Kappa, the international honor society for two-year colleges.

Academic Standing

We focus considerable attention on ensuring your academic success. Our academic standing policy provides the criteria by which we evaluate your academic progress. While we hope all students will maintain good academic standing throughout their time at GCC, we recognize that various obstacles may interfere with making satisfactory academic progress. Our academic standing policy also provides a warning system to alert and respond to students who experience academic difficulty. The categories of academic standing follow:

<table>
<thead>
<tr>
<th>Status</th>
<th>Criteria</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Good Standing</td>
<td>Both a cumulative GPA and a term GPA of 2.00 or above.</td>
<td>No action required.</td>
</tr>
<tr>
<td>Academic Review</td>
<td>Either a cumulative GPA or a term GPA under 2.00 at the end of the term, or both under 2.00 and not previously on Academic Review.</td>
<td>Placed on Academic Review. Reduction in academic load and/or co-curricular activities expected.</td>
</tr>
<tr>
<td>Academic Probation</td>
<td>Both a cumulative GPA and a term GPA for current term under 2.00 and student on Academic Review for one term.</td>
<td>Placed on Academic Probation. NOT ELIGIBLE FOR FINANCIAL AID. Other actions same as for Academic Review.</td>
</tr>
<tr>
<td>Academic Suspension</td>
<td>Both a cumulative GPA and a term GPA under 2.00 and a cumulative GPA lower than the previous term.</td>
<td>Precluded from enrollment for one full fall or spring term, (if previously on Academic Probation). Otherwise, placed on Academic Probation.</td>
</tr>
<tr>
<td>Academic Dismissal</td>
<td>Both a cumulative GPA and a term GPA under 2.00 and a cumulative GPA lower than the previous term, and previously on Academic Suspension.</td>
<td>Precluded from future enrollment.</td>
</tr>
</tbody>
</table>
We recognize that unusual circumstances may affect any of the academic standing actions described above. You may request a review of your individual circumstances to determine if they warrant additional action by contacting the Advising Center.

Withdrawal from the College

You may withdraw from the College any time during the first two-thirds of the semester provided you are not enrolled in a class that has already ended. If you withdraw during the first third of the semester, no record of the courses in which you were enrolled will appear on your transcript. If you withdraw during the second third of the semester, you will receive grades of “W” for all courses in which you were enrolled. We will not process an official withdrawal during the last third of the semester, and if you stop attending class you will receive the grade assigned by the instructor.

You cannot withdraw from a class that ended prior to the submission of your withdrawal request.

If you find it necessary to consider withdrawing from GCC, you should consult with your advisor and your instructors first. To withdraw officially, you must submit a completed withdrawal form to the Registrar’s Office. As with dropping a course, if you simply stop attending class or if you tell only your instructors that you are withdrawing, the withdrawal will not become official and you may jeopardize your eligibility for tuition refunds, financial aid, and future enrollment at GCC.

If extraordinary circumstances force you to consider withdrawal during the last third of the semester, you may discuss the possibility of making an exception to the policy with the Dean of Student Affairs.

Medical Withdrawal

If you need to withdraw from the College for health reasons, you may request a medical withdrawal by discussing your situation with the Director of Health Services. A medical withdrawal requires the recommendation of the Director of Health Services and the approval of the Registrar.

Administrative Withdrawal

Administrative withdrawal is the result of action taken by the College when a student fails to fulfill financial, medical (immunization records), or property obligations to the College during the semester. Once you have been administratively withdrawn, you may not be reinstated until the next semester.

New Start Policy

If you have not attended GCC for more than two academic years and you were on probation, suspension, or dismissal at the time that you discontinued your attendance, you may be re-admitted to the college on academic review
for the first semester of your return. Normal academic progress standards
will apply thereafter. Such readmission will be at the discretion of the
Director of Admission.

Fresh Start Option

Greenfield Community College has a “fresh start” option for students. Once
in a lifetime, if you return to GCC after being away for at least two
consecutive years, you can elect the “fresh start” option. For the purposes of
the College’s academic standing policy, your grade point average (GPA) will
be calculated only from the point you are re-admitted. Your previous
coursework may be applied toward your degree under this policy, but it will
not be calculated in your GPA. Your official transcript will include a statement
noting this “fresh start” option. In the event of multiple two-year absences,
you have the option of choosing the effective readmission date of the policy.
You must elect this option in person in the Registrar’s Office.

Graduation Requirements

Only matriculated students are considered eligible for graduation. To be
considered for graduation, you must submit a graduation application, in
person, to the Student Life Office by early February. Graduation applications
are available in the Registrar’s Office in early November. We award degrees
only once each year, following the close of the spring semester.

In order to earn an associate’s degree, you must complete the course
requirements of the curriculum, achieve a cumulative grade point average of
at least 2.00 for all courses taken at GCC (excluding courses with an advising
code of “D”) and be in good standing with the College. All associate’s degree
programs require at least 60 credits of coursework. You must complete at
least 15 credits of coursework at GCC to receive a degree or certificate.

If you wish to earn an additional associate’s degree, you must:

a. meet all specific requirements of each degree program;

b. complete at least 15 credits of coursework beyond the previous degree
   awarded; and

c. of those 15 additional credits, at least 12 must be completed at GCC.

Normally, you must fulfill the requirements stipulated in the catalog at the
time you enroll and select a major program of study. If the requirements
change after you enroll, you may elect to fulfill either the new requirements
or the requirements that were in effect when you enrolled as a matriculated
student.

Graduation with Honors

To graduate “with honors” you must earn a cumulative grade point average
of at least 3.50 based on at least 30 credits of letter-graded course work
completed at GCC.
Transcripts

You may request transcripts of your GCC academic record for yourself or for other colleges or employers by completing a transcript request form in the Registrar’s Office. You also may request a transcript with a signed letter or a signed fax in which you clearly identify yourself and where you would like a transcript to be sent. We cannot accept telephone requests. We provide you with one free transcript and charge $2 for each subsequent transcript. Due to the volume of requests, please allow at least three days to process your request.

Petition to Review Academic Record

If you are currently enrolled, you may petition the Transcript Review Committee to review your academic record for the purpose of seeking relief from past poor academic performance. Before you submit your petition, you must have either completed 12 credits of course work since the semester for which you are seeking relief, or have completed six (6) credits and include two letters of support from your current instructors. Petition forms are available in the Registrar’s Office.

Exceptions to Academic Policy

If you think that unusual or extenuating circumstances justify an exception to an academic policy, requirement, or regulation, you may request an exception using an appropriate form obtained in the Registrar’s Office. Your request should be signed by your advisor and you must gain the approval of the appropriate program coordinator, Associate Dean, and the Dean of Academic Affairs. Your request will be considered on its individual merit.

We Maintain a Drug Free School and Campus

Greenfield Community College is in compliance with federal legislation, which requires us to adopt and implement a program to prevent the illicit use of drugs and the abuse of alcohol by students and employees.
INDIVIDUAL RIGHTS

The Family Educational Rights and Privacy Act of 1974

You have certain rights to privacy about the information that we maintain about you. For more information, including a full text of the regulations regarding your records and your right to privacy, please consult your Student Handbook or inquire at the Registrar’s Office.

The Hazing Act of 1985

Massachusetts General Laws, Chapter 269, Section 19, requires the College to inform its students annually of the provisions of this Act. Copies of the act are available from the Registrar’s Office or by consulting the Student Handbook.

Office of Diversity

Greenfield Community College has a policy of non-discrimination. The Office of Diversity was created to help attract and retain a culturally diverse college community. The College wishes to increase its representation of under-represented students, faculty and staff on campus, and to improve the general climate of comfort and acceptance experienced by individuals who are not among the campus majority.

GCC strives to do this not just in words but in deeds. The Office of Diversity is responsible for overseeing and coordinating all of the College’s efforts to meet its objective of providing equality of opportunity for everyone.

The College’s curriculum contains courses that meet the University of Massachusetts cultural diversity requirement. These courses are noted with an asterisk in the Credit Courses section of this catalog.

Harassment

We consider harassment of a student, an employee, or any other person in the college community to be intolerable and not permissible. If you believe you have been the subject of harassment, you should consult with the Director of Diversity, at (413) 775-1809, or the Sexual Harassment Co-Officer at (413) 775-1811, to obtain counseling concerning your rights and effective means of resolving grievances. The Community Colleges of Massachusetts Affirmative Action Plan is available in the college library and from the Director of Diversity.

Affirmative Action - “Creating the Culture of Diversity”

Affirmative action and equal opportunity applies to all segments of the College. If you believe you have been the subject of discrimination, you should consult with the Director of Diversity, at (413) 775-1809.
Individuals with Disabilities

The College welcomes individuals with disabilities and provides reasonable accommodations to eligible individuals to enable them to participate fully in the academic and social life of the College. Use of adaptive equipment, sign-language interpreters, alternative-testing procedures, early registration, reduced course load, and special furniture arrangements are some of the accommodations available to individuals with documented physical, learning, or psychological disabilities.

The College has in place a protocol for securing needed accommodations. This protocol is available from the Office of Admission and is available on the college web site. Because securing and scheduling services and equipment requires time, individuals anticipating the need for accommodations should request them as early as possible. For further consultation, please contact Dawn Stevenson in Disability Services at (413) 775-1812 or visit the GCC website.

TTY/TDD Telephone Equipment for the Hearing Impaired

For outgoing calls, a telecommunications device for the deaf with a telephone teletypewriter phone line (TTY/TDD) is available to the public and is located in the GCC library. For telephone inquiries to the College, please call our TTY at (413) 774-2462 or contact the respective department using a relay service. Relay numbers differ from state to state. Please consult your local phone book for appropriate relay numbers.

Student Right-to-Know Act

The Student Right-to-Know Act requires GCC to report graduation rate data to the U.S. Department of Education annually. From among the first-time, full-time, degree-seeking students who enrolled at GCC in the fall of 2001, 47 percent graduated or transferred to another institution by December 31, 2004.
SERVICES TO STUDENTS

In addition to our academic programs, the College offers a wide range of services and activities to enhance your college experience. We encourage you to take advantage of these services and to become an active member of the College community.

Help with Transferring to Other Schools

The Transfer Office provides services to students considering transfer to another college or university. If you think you might want to transfer, we encourage you to contact the Transfer Coordinator as early in your time at the College as possible. The Transfer Coordinator can assist you in exploring transfer options, planning appropriate coursework while you are at GCC, completing applications to other schools, writing college essays, and in choosing people to write college recommendations for you.

The Transfer Office maintains a small library of college catalogs, videotapes, and compact disks that are available for your use and the Transfer Coordinator arranges visits from college representatives to meet with prospective students on campus throughout the academic year. You may contact the Transfer Coordinator by telephone at (413) 775-1207 or in person in room C233 of the Main Building.

The Commonwealth Transfer Compact

The Commonwealth Transfer Compact is an agreement between the fifteen Massachusetts community colleges and the Massachusetts state colleges and universities that offer bachelor’s degrees.

The purpose of the Compact is to ensure that eligible students receive at least 60 transfer credits to a college offering bachelor’s degrees and that they do not need to take more than 68 credits to complete a bachelor’s degree at their new school. In addition, some colleges consider their core or general education requirements to be fulfilled by students who transfer under the terms of the Compact, allowing transfer students to focus on the requirements of their major program of study. To qualify for the Commonwealth Transfer Compact, you must:

- Complete an associate’s degree with a minimum of 60 credits, excluding developmental coursework;
- Achieve a cumulative grade point average of not less than 2.00; and
- Complete the following minimum general education core, excluding developmental coursework:
  - English composition/writing: 6 credits
  - Behavioral and social sciences: 9 credits
  - Humanities and fine arts: 9 credits
  - Natural or physical science: two 4-credit courses
  - Mathematics: 3 credits
The following associate's degree programs meet the Commonwealth Transfer Compact requirements:

- Liberal Arts (and all Liberal Arts options)
- Business Administration Transfer
- Art/Communication Design, Commonwealth Transfer Compact Option
- Art/Fine Art, Commonwealth Transfer Compact Option
- Art/Media Arts, Commonwealth Transfer Compact Option.

You may add the course work necessary to any other associate's degree program to qualify for the benefits of the Compact. No separate application or form is required to qualify for the Commonwealth Transfer Compact. For further information about the Compact, contact the Transfer Coordinator by telephone at (413) 775-1207 or in person in room C233 of the Main Building.

The Joint Admissions Program

The Joint Admissions Program is an agreement between the fifteen Massachusetts community colleges and the Massachusetts state colleges and universities that offer bachelor's degrees. The purpose of the program is to guarantee participating students admission to the University of Massachusetts and most Massachusetts state colleges. To qualify for the Joint Admissions Program, you must:

- Enroll in an eligible program of study
- Submit a Student Participation Agreement form to the Registrar's Office at GCC
- Complete an associate's degree in an eligible program of study
- Achieve a cumulative grade point average of 2.50 or higher.

For further information about the Joint Admissions Program and eligible programs of study, contact the Transfer Coordinator by telephone at (413) 775-1207 or in person in room C233 of the Main Building.

Tuition Advantage Program

The Tuition Advantage Program is an additional benefit for students enrolled in the Joint Admissions Program. Qualified students receive a reduction of one-third off the in-state tuition rate for their first year at the university or state college. To qualify, you must meet all of the conditions for the Joint Admissions Program (see above) and maintain a cumulative grade point average of 3.00 or higher. You may renew your eligibility for a second year by maintaining a cumulative grade point average of 3.00 or higher at the university or state college.
Transfer Agreements with Other Colleges

GCC maintains several articulation agreements with colleges that award bachelor's degrees. The purpose of articulation agreements is to make transfer from GCC to those colleges easier than it would be otherwise. In most cases, the articulation agreements ensure the transfer of a minimum number of credits and placement at the junior year level. Some of the articulation agreements are general, while others are specific to certain programs at GCC and the institution you transfer to.

In addition, an Academic Articulation Agreement between Massachusetts College of Liberal Arts (MCLA) and Greenfield Community College provides a part-time option towards a B.A. degree in Interdisciplinary Studies with Teacher Certification in Elementary Education, and will be offered on the GCC campus starting in the Fall, 2005. For more information, please refer to page 71 (Education program), or call the Transfer office at: (413) 775-1207.

In a few cases, the articulation agreements also include provisions for student financial assistance. For further information about articulation agreements with other colleges, contact the Transfer Coordinator by telephone at (413) 775-1207 or in person in room C233 of the Main Building.

Foreign Language Requirements

Some colleges, such as the University of Massachusetts at Amherst and Mount Holyoke College, require proficiency in a foreign language to earn a bachelor's degree. You may find it advantageous to complete a foreign language requirement at GCC, so that you can concentrate on the requirements of your major when you transfer. For further information about foreign language requirements, contact the Transfer Coordinator by telephone at (413) 775-1207, by email at maisto@gcc.mass.edu, or in person in room C233 of the Main Building.

The Library/Learning Resource Center

The Library and Learning Resource Center is available to all citizens of Massachusetts who have appropriate identification, as well as all students, faculty, and staff of GCC. The collection contains more than 66,000 units of print and non-print material. And in addition to a rich variety of books, periodicals, newspapers, videocassettes, and electronic reference services, the library has facilities for language practice, video viewing, microfilm reading and self-service photocopying. The library is a full member of the Massachusetts Central/Western Automated Resource Sharing network of libraries.

Services include individual and group library instruction; information, reference, and reserve assistance; interlibrary loan and microform copying.

The TTY/TDD telephone for the hearing impaired is located in the Pioneer Valley Resource Center.

Library information and web links are posted at www.gcc.mass.edu
Special Library Collections

Four important special collections are available for public use: the Archibald MacLeish Collection, the Pioneer Valley Resource Center, the Yankee Nuclear Power Station Public Information Repository, and The Funding Source, a reference collection of grant-writing materials.

Educational Technology Support Center (ETSC)

Located on the main campus, the Educational Technology Support Center (extension 1842) is a college-wide support service developed to assist faculty, staff, and students in teaching and learning through the integration of technology into the educational process.

The ETSC schedules, distributes, and maintains media related classroom presentation equipment throughout the campus and provides student equipment circulation Monday through Friday 10 am to 1 pm. The ETSC works with faculty and staff in the design, production, and evaluation of teaching materials for all academic programs. Utilizing technology based experiential learning, ETSC staff offer workshops in media literacy, group building, and communication. The production facility houses a complete television production studio, linear and non-linear video editing suites, computer animation workstations, satellite and cable distribution area, faculty multimedia production areas, media duplication, and institutional media archives.

By appointment, the staff provides training to the College Community in the operation of presentation and production equipment. Equipment and services are available for GCC academic purposes in direct or indirect classroom support and subject to the institutional lending policies. For further service and updated information, log on to our server at www.etsc.gcc.mass.edu.

Academic Support Programs

Monday-Friday 8:00am to 4:00 pm
Located in the Learning Center
(413) 775-1330

The Learning Center houses services to help students improve study skills, build confidence and clarify goals. Services are free and confidential. They include Counseling, Peer Tutoring, Writing Assistance Program, Math Assistance Program, and Disability Services

◆ Counseling: Counseling by trained professionals is available for GCC students. Many students struggle with school pressures, physical or learning disabilities, difficult relationships, substance abuse, family problems or illness. Sometimes they find it helpful to see a counselor to explore the challenges they face. Counseling helps students learn to take charge of their lives and to accomplish their goals. Referrals to community service agencies can be arranged.
Peer Tutoring: Peer tutoring is provided for any GCC student who needs help with course work and who wishes to improve academic performance. Tutors and students meet in the Learning Center to review course material, discuss and practice study skills, and work on specific assignments. The tutor’s role is to assist students with the content of these courses while furthering the process of learning how to learn.

Writing Assistance Program: This program offers a variety of services to help students succeed in all courses that require writing and language learning. Peer tutoring is offered for writing papers, word processing, note taking, exam preparation and content review for all humanities and behavioral science courses. The WrAP coordinator is available to meet with individual students to discuss special tutoring accommodations, writing anxiety, general writing assistance for coursework, and transfer application essays.

Math Assistance Program: This program offers a variety of services to help students succeed in math, science, business and information technology courses. Services include peer tutoring, math drop-in, graphing calculator rental program, and loans of videotapes. The MAP coordinator is available to meet with individual students to discuss special tutoring accommodations, math anxiety, math course placement and any other concerns they have about their success at Greenfield Community College.

The Studio: The Studio is a place for students to work with each other and with faculty on questions and problems related to mathematics. The Studio is equipped with comfortable chairs and tables, computers, and math resources and texts. The Studio is open for use throughout the day and is staffed by math faculty during posted hours. No appointment is needed, just come by.

Counseling for Students with Disabilities: GCC counselors collaborate with Disability Services to provide ongoing support for students with a variety of disabilities. Counselors are available to explore how each student learns best, to develop individual accommodation agreements, and to assist each student with the advocacy process.

Academic Computing Center

The Academic Computing Center, located in the East Building, is open to all currently enrolled GCC students, regardless of major or credit load. The Center’s personal computers may be used for homework, term papers, or other student projects. For those who need help working on a computer, a monitor or consultant is on duty.

The Career Resource Center

The Career Resource Center provides students, alumni, and members of the community with an opportunity to gain the skills and knowledge necessary to find success in the world of work. The objective of the Career Resource
Center is to assist you in assessing a career path or major most suitable to your interests, values, abilities, and lifestyle. Individual counseling is available to assist you with this process and all other phases of career development.

The Center is equipped with state-of-the-art technology so that you can receive guidance in formatting resumes and cover letters, in preparing for interviews, and in developing job leads in the “hidden job market.”

The staff in the Career Center is happy to assist in meeting your career objectives. Stop by the Career Resource Center, located in the Core of the Main Building in room 241C near the student lounge, to use the computers, career library, and computerized career software at any time. To make an appointment to work with a career counselor call (413) 775-1818.

The Advising Center

The Advising Center, located in the Financial Aid Office suite on the second floor of the Main Building, provides you with assistance designed to help you enjoy and benefit from your experience at GCC as much as possible. While we encourage you to develop strong and lasting relationships with your instructors and your academic advisors, we in the Advising Center can help you with questions about course offerings, grade reports and transcripts, enrolling in degree and certificate programs, dropping or adding courses, changing majors, transferring to other institutions, and understanding GCC’s academic policies and procedures.

Health Services

The Student Health Services staff is able to help you with a variety of health problems and referrals, and will assist you in complying with immunization requirements (see page 11). Services are free of charge, confidential and available to students enrolled in day classes. An adult nurse practitioner and a registered nurse are available on a drop-in basis or by appointment, and physician visits are available by appointment only. All medical records are confidential, and information cannot be released without your permission.

A variety of self-care items, as well as a selection of health-related educational materials is available in the Health Services Office. The staff can help with questions about the health insurance coverage, which is mandated for students carrying nine (9) or more credits. (See pages 19–20.)

The Health Services Office, located in the Main Building off the first floor lobby, room C123, is open from 9:00 a.m. to 3:30 p.m., Monday through Friday. You are invited to drop in or call (413) 775-1430 for help in achieving and maintaining a high level of wellness.

The College Store

The College Store is open from 9 a.m. to 4 p.m. daily during the academic year. Evening and special occasion hours will be posted in the lobby at the store entrance. The College Store carries supplies, required texts, paperbacks, and study guides. We advise you to begin attending classes before you buy your books.
MasterCard, Visa, and Discover are accepted, and personal checks will be accepted for the amount of purchase. A maximum personal check of $5 can be cashed by the College Store upon presentation of college ID. There is no charge for this service; however, there is a $10 charge for returned checks.

Refunds on books will be made for a period of two weeks after classes begin for the fall and spring semester. Books must not be marked or damaged, and you must have both the sales slip and a processed drop/add form to return books. The policy on refunds does not apply to other merchandise. Up-to-date information regarding special hours, buyback and store policies is available at www.gcc.mass.edu/resources/bookstore.

Dining Facilities

The Cafeteria in the Main Building is open Monday through Friday from 8 a.m. to 2 p.m. during the academic year when classes are in session. The Cafeteria offers a full breakfast menu, hot entrees, sandwiches, and hot and cold drinks. A luncheon special is available each day. Group dinners, luncheons, or coffee hours may be arranged.

During the summer and intersession, the Cafeteria will be open from 9 a.m. to 1 p.m. The food services are augmented by vending machines. Vending locations are in the lobby of the Main Building, East Building and the Downtown Center. Soda is also available on the 2nd floor of the Downtown Center.

Student Life

The Student Life program is a vital part of life at GCC. Student Life helps student groups plan and operate extracurricular programs and activities, and encourages faculty and staff to serve as organizational advisors and participants. Typical activities include cultural programs, exhibits, graduation, orientation, workshops, lectures, musical performances, clubs, and social and recreational activities.

The Student Life Office (first floor core, (413) 775-1200) publishes the annual Student Handbook, which includes policies and regulations that apply to you as a student, as well as a description of student services offered at GCC. Students are expected to read it, and will be held responsible for policies and regulations included in it.

The Student Association

When you pay your student activities fee, you automatically become a member of the Student Association, the structure within which the Student Senate and the Student Life Program operate. Members may hold office, vote in elections and participate in Association programs.
The Student Senate

As a student in good standing, you will be eligible for election by the members of the Student Association to the Student Senate. The Student Senate approves student organization budgets and supervises expenditures with the consent of the College President. The Senate's objectives are:

- to promote and support activities that enhance the life of the college community;
- to administer and allocate the funds of the Student Association in conjunction with the college administration;
- to represent the student body on and off campus; and
- to act with college officers in supervising the college activities program.

Performing Arts

The theater, music, and dance departments offer opportunities for student performances. The college choir performs on campus and in the community several times each year. At least one major theater production is presented each semester, as well as, dance concerts and musical performances.

The Fitness Center

The Fitness Center offers a variety of cardiovascular and weight-training equipment in a fun, friendly, and inviting atmosphere. It is open to all GCC students, staff, and faculty at no charge. Fitness assessment, program design, and incentive programs are available to all members.

The Student Lounge

The Student Lounge houses a pool table, television, video games, and table tennis. Game equipment can be obtained in the Student Life Office with a valid GCC I.D. card.

Activities Hours

College personnel and the Student Senate have agreed that no classes will meet during the Activities Hours. These hours are every Monday, Wednesday and Friday from 12:00 noon to 12:50 p.m. during the semester. The college community is encouraged to participate in social, cultural and recreational events during these hours. College committee meetings, club meetings, concerts, guest speakers, and special events are available for your enjoyment and relaxation.
COMMUNITY EDUCATION AND
WORKFORCE DEVELOPMENT PROGRAMS

Credit-Free Workshops and Seminars

The Office of Community Education is located at GCC’s Downtown Center, 270 Main Street in Greenfield. The programs it administers serve over 2,500 participants each year and take place at many locations in Franklin and Hampshire counties and beyond, with campus locations in Greenfield, Turners Falls, and Northampton.

Workshops are designed in response to community needs, often in cooperation with other organizations, drawing upon both college and community resources. Instructors include faculty members, professors from other colleges, area business professionals, and local residents with special skills or expertise. We welcome your suggestions for new workshops, services or programs. Contact Community Education at (413) 775-1605, or stop by the office on the first floor of the Downtown Center.

Community Education Facilities

Facilities available through the Office of Community Education include:

- The Downtown Center’s Computer Classroom that is equipped with 15 computers, using the Windows XP Professional operating system with access to the Internet, Microsoft Office 2003, Quickbooks, Photoshop and Illustrator and other applications.

- Meeting rooms that are available to outside organizations at our downtown or main campus locations. Presentation equipment is available at the Downtown Center for a fee.

Community Education Programs

- The Office of Workforce Development at Greenfield Community College provides customized education and training for area businesses and organizations. Courses, workshops and individualized instruction are offered for managers, office and technical staff, machine operators, and child care workers, to give just a few examples. Instruction can be offered in the workplace, at GCC’s Downtown Center, at the main campus or at other locations in our region. These services are designed to increase the skills of employees and to contribute to greater organizational effectiveness and productivity. Open enrollment business workshops are scheduled each semester.
Community Education Workshops cover a wide range of subjects, including: business, computers, dance, arts and crafts, finance, horticulture and other leisure and work programs. Workshops are scheduled for spring, summer and fall, usually in the evening but also during the day and on weekends. They are offered for both personal and professional growth. The complete schedule of workshops is printed each semester in the GCC Course Guide and on the Community Education page on the GCC web site.

Technical Skills Workshops are credit-free offerings designed to provide work-related skills for a variety of professions and vocations. Topics include: computer-aided design, electricity, plumbing, welding, machine science, mill carpentry, and blacksmithing. Workshops are scheduled for spring and fall, usually in the evening, and are often held at area technical and vocational high schools.

The Senior Symposia Program is a collaborative effort between the Office of Community Education and area senior citizens to provide a way for area seniors to continue their education in a format that best suits their unique needs, interests, and resources. Mini-courses are held at the Downtown Center during the fall and spring semesters.

GCC Alumni Association

The Greenfield Community College Alumni Association is an independent organization that cultivates lifelong relationships with current and future alumni. As a committed partner and supporter of the College, the Association strives to foster a spirit of loyalty among graduates, former students, current students, friends, and the community.

The Alumni Association has created an endowed scholarship fund and provided support for professional development for faculty and staff and other important college programs.

For more information, contact Allen J. Davis, Ed.D., Executive Director of the GCC Foundation and Director of Alumni Affairs at (413) 775-1601 or alum@gcc.mass.edu.
Academic Programs

• Degree Programs
• Certificate Programs
• Programs in Collaboration with Neighboring Community Colleges
• Additional Academic Opportunities

Our academic programs enable you to transfer to baccalaureate degree colleges and universities or prepare you to enter a variety of career fields. Several programs serve both purposes, depending upon the elective courses that you take. We offer associate degree programs, which require at least 60 credits of coursework, and certificate programs, which require up to 42 credits of coursework.
Academic Programs

All programs approved by the Board of Trustees of Greenfield Community College.
All degree programs approved by the Massachusetts Board of Higher Education.
*Certificate programs approved by the Massachusetts Board of Higher Education.

Degree Programs
Associate of Arts Degree
- Business Administration Transfer (BAT)
- Liberal Arts
  All of the following are Liberal Arts programs. You may earn only one degree from the list below. (your diploma will read “Liberal Arts”):
  - American Studies (LAS)
  - Art (LAA)
  - Computer Science (LCS)
  - Dance (LAD)
  - Economics (LES)
  - Education (LEO)
  - English (LAE)
  - Environmental Studies/Human Ecology (LEH)
  - Environmental Studies/Natural Resources (LEN)
  - Food Science (LFO)
  - General (LIB)
  - Healing Arts (LHA)
  - Health Fitness and Wellness (LHF)
  - Human Services (LHS)
  - International Studies (LIS)
  - Math-Science (LMO)
  - Music (LMU)
  - Science-Math Education (LSM)
  - Theater (LAT)
  - Women’s Studies (LWS)

Degree Programs
Associate of Science Degree
- Accounting (ACC)
- Art/Communication Design (ACD)
- Art/Communication Design Commonwealth Transfer (CDC)
- Art/Fine Art (AFA)
- Art/Fine Art Commonwealth Transfer Compact (AFC)
- Art/Media Arts (AMP)
- Art/Media Arts Commonwealth Transfer Compact (AMC)
- Computer Information Systems (CIS)
- Criminal Justice (CRJ)
- Early Childhood Education (ECE)
- Engineering Science (EGS)
- Fire Science Technology (FST)
- Management (MAN)
- Marketing (MKT)
- Nursing (NUR)
- Occupational Technology (OCC)
- Office Management (OMN)

Certificate Programs
- Business Microcomputer Applications (BMA)
- Computer Assisted Bookkeeping (CAB)
- Early Childhood Education (LEC)
- Environmental Studies/Natural Resources (NRC)
- Human Services (HSV)
- Massage Therapy (MTC)*
- Microsoft Office Applications (MOA)
- Multimedia Design (MME)
- Office Assistant* (OFF)
- Outdoor Leadership* (OLP)
- Paramedic (PMC)
- Practical Nursing-LPN.* (PNC)
- Real Estate (RST)

Degree Programs
in Collaboration with Neighboring Community Colleges
- Pharmacy Technology
- Physical Therapist Assistant
- Radiologic Technology Program
Degree Programs

Program descriptions begin on page 54.

Associate of Arts Degrees
see list on facing page

Our liberal arts programs consist of a broad range of general studies in the humanities, behavioral sciences, business, natural sciences, mathematics, and technology with options to focus on more specialized fields of interest. Liberal arts programs lead to the associate of arts degree and transfer status as a junior at many four-year colleges and universities. Many professions, including law, medicine, economics, education, and human services, require a strong liberal arts background. Our programs are designed to provide a strong foundation in liberal studies that will enable you to transfer to baccalaureate degree programs at other institutions.¹

Advising codes for Liberal arts electives for Associate of Arts degrees are listed on page 54.

Associate of Science Degrees
see list on facing page

Our career degree programs consist of specialized education, which may include studies in humanities, behavioral sciences, business, natural sciences, mathematics, and technology, in addition to studies in specific career fields. Career degree programs lead to the associate of science degree. We have designed these programs to prepare you for employment in a variety of career areas, as well as, in many cases, to enable you to transfer to baccalaureate degree programs at other institutions. You should work closely with your academic advisor in selecting your courses. If you are considering transfer to another school, you should contact our Coordinator of Transfer Affairs as early as possible.¹

Most career programs require some elective coursework in liberal arts. In making your liberal arts course selections, use these guidelines and consult your academic advisor:

• You may satisfy a general elective® by completing any credit course offered by the college, except courses with advising codes of D.

• You may satisfy a liberal arts elective® by completing any credit course offered by the college with any advising code other than A, X, or D.

• You may satisfy an elective from a specific subject area® by completing any credit course with these advising codes:

<table>
<thead>
<tr>
<th>Subject Area</th>
<th>Advising Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Humanities elective</td>
<td>HC or HL</td>
</tr>
<tr>
<td>Behavioral Science elective</td>
<td>BC or BL</td>
</tr>
<tr>
<td>Math/Science elective</td>
<td>NC or NL</td>
</tr>
</tbody>
</table>

¹ To learn more about transfer requirements, see pages 41-43.
² Please note: Some electives in career programs are footnoted and specific courses are suggested.
Liberal Arts/General Program (LIB) ① ②
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts
THE PROGRAM: provides a broad background in the humanities, behavioral sciences, and natural sciences.
YOUR NEXT STEP: transfer to a baccalaureate degree institution.

CORE REQUIREMENTS

CREDITS
English Composition I (ENG 101, 103, or 105) ................................................................. 3
English Composition II (ENG 112, 114, or 116) ............................................................... 3
Oral Communication (SPE 101 or 121 or 131) ................................................................. 3
Behavioral Sciences Core: ..................................................................................................... 9
  a) Select two courses from the following: ANT 103 or 104, ECO 101 or 102, HEC 101, POL
     101, PSY 101, or SOC 101
  b) Select any additional course coded BC
Humanities Core: ............................................................................................................... 9
  One three-credit course from each of the following categories:
    a) History: any HIS course coded HC
    b) Literature: any 200 level ENG course EXCEPT ENG 207 and ENG 208
    c) A Humanities course with an HC advising code in: ART, ASL, DAN, ENG, FLK, FRE, GGY, HIS, HUM, LAT, MUS, PHI, SPA, THE
Science/Math Core: ......................................................................................................... 11-12
  a) Science: two 4-credit BIO, CHE, GEO, PHY, or SCI courses with NC advising codes
  b) Math: MAT course with NC advising code
Electives (see notes below) ............................................................................................ 22

TOTAL 60-61

ELECTIVES

• Elective requirements in this program can be satisfied by the successful completion of any course
coded A, BC, HC, NC, BL, HL, NL, L, and X.
• No more than 18 credits in any specific subject (such as chemistry, psychology) may be applied toward
  the degree requirements, except in English. You may apply 18 credits beyond English Composition II to
  your degree.
• You may not apply more than 12 X-coded credits (including a maximum of 4 credits in Leisure
  Education) toward the Liberal Arts degree.
① You may also select from among the liberal arts concentrations listed on page 52.
② All courses needed to complete this program/option will be offered both in the day and in the evening.
Accounting (ACC) ②

THE DEGREE: Associate of Science

THE PROGRAM: prepares you for work at the paraprofessional level in industry, retail, and wholesale enterprises, or public accounting offices.

YOUR NEXT STEP: work in such entry-level positions as accounts payable clerk, junior accountant in a public accounting firm, or full-charge bookkeeper in a service firm.

Joanne McNeil Hayes, Office: N316, (413) 775-1230, email: hayes@gcc.mass.edu
Art/Communication Design (ACD)

THE DEGREE: Associate of Science

THE PROGRAM: develops the visual, conceptual, and technical skills of graphic design as applied in traditional and contemporary media. Emphasizes a strong foundation in drawing, design, and computer imaging. Students select a concentration in either Web or Multimedia Design. Includes required courses in liberal arts and art history.

YOUR NEXT STEP: transfer to a four-year art college or professional institution, or seek employment in graphic design. Your future career may lie in a design profession, marketing, advertising, or the publication and information design industry.

Thomas W. Boisvert, Office: TBA, (413) 775-1224, email: boisvert@gcc.mass.edu
Art/Communication Design (CDC)
Commonwealth Transfer Compact Option

THE DEGREE: Associate of Science

THE OPTION: is designed to fulfill the requirements of the Massachusetts Commonwealth Transfer Compact (CTC) within the context of the GCC Communication Design program. Graduation with a grade point average of 2.50 or higher may qualify you for the Massachusetts Joint Admissions Program and graduation with a GPA of 3.00 or higher may qualify you for the Massachusetts Tuition Advantage Program.

YOUR NEXT STEP: transfer to a baccalaureate degree college.

## Art/Fine Art (AFC)

### Commonwealth Transfer Compact Option

**THE DEGREE:** Associate of Science

**THE OPTION** is designed to fulfill the requirements of the Massachusetts Commonwealth Transfer Compact (CTC) within the context of the GCC Fine Art program. Graduation with a grade point average of 2.50 or higher may qualify you for the Massachusetts Joint Admissions Program and graduation with a GPA of 3.00 or higher may qualify you for the Massachusetts Tuition Advantage Program.

**YOUR NEXT STEP:** Transfer to a baccalaureate degree college.

Art/Media Arts (AMP)

THE DEGREE: Associate of Science

THE PROGRAM: focuses on the development of critical, visual, and technical skills in the media arts. Students select a concentration in either photography or multimedia (computer arts). The program includes foundation experiences in the fine arts and required courses in liberal arts and art history.

YOUR NEXT STEP: transfer to a four-year art college or professional institution or seek employment. Your career may include work in photography, electronic imaging, video, animation, multimedia and web site design.

Business Administration Transfer (BAT) ②
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts

THE PROGRAM: provides the necessary courses for transfer to baccalaureate degree-awarding business administration programs. The program has a core of business administration courses combined with courses in liberal arts with an emphasis on mathematics. By using electives, you may complete the program of study typically offered in the first two years of a baccalaureate degree institution.

YOUR NEXT STEP: transfer to a baccalaureate degree institution.

Computer Information Systems (CIS)

THE DEGREE: Associate of Science

THE PROGRAM: is for students interested in applying knowledge of microcomputer operating systems, software, and networks to business needs. The program teaches the use of current application packages in data bases, spreadsheet, and word processing, single-user and network operating systems, and database development and programming. A foundation of business courses is included.

YOUR NEXT STEP: employment as the microcomputer specialist, consultant, or technical support person in a variety of business settings.

Criminal Justice (CRJ)

THE DEGREE: Associate of Science

THE PROGRAM: provides a broad education in the administration, operations and objectives of the criminal justice system and its component parts: police, courts, and corrections.

YOUR NEXT STEP: transfer into a baccalaureate degree program or enter into any of several careers within the criminal justice system, including police work, correctional work, the law, or social work.

① Students who wish to take advantage of the Commonwealth Transfer Compact will have to select their electives with those requirements in mind.
② Select with the assistance of the program advisors.

PLEASE NOTE: Only credit from regionally accredited institutions of higher education is accepted for transfer into an undergraduate Criminal Justice Program, and not all credit is necessarily accepted. There are requirements for transfer credit which may be stricter than those for the college generally. The Criminal Justice Program does not award credit for life experience, military, policy academy or related training. No more than 10 percent of an Associate’s Degree can be completed through knowledge-based examinations (e.g., CLEP, Dantes). Please contact the Program Coordinator with any questions or concerns.

Dance (LAD)  
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts in Liberal Arts

THE PROGRAM: provides a broad range of liberal arts studies with an elective emphasis on dance. Future careers may include performance, choreography, dance education, or dance therapy.

YOUR NEXT STEP: transfer to a baccalaureate degree institution

REQUIRED COURSES | CREDITS
---|---
DAN 101 Introduction to Dance | 3
DAN 120 Dance in Culture or DAN 121 Dance History | 3
DAN 130 Choreography/Performance | 3
DAN 201 Dance Repertory Group: Mixed Company | 3
ENG 101, 103, or 105 English Composition I | 3
ENG 112, 114, or 116 English Composition II | 3
SPE 101 or 121 or 131 Oral Communication | 3
Behavioral Sciences Core: a) Select two courses from the following: ANT 103 or 104, ECO 101 or 102, HEC 101, POL 101, PSY 101, or SOC 101 b) Select any additional course coded BC | 9
Humanities Core: One three-credit course from each of the following categories: a) History: any HIS course coded HC b) Literature: any 200 level ENG course EXCEPT ENG 207 and ENG 208 | 6
Science/Math Core: a) Science: two 4-credit BIO, CHE, GEO, PHY, or SCI courses with NC advising codes b) Math: MAT course with NC advising code | 11-12
Liberal Arts electives | 3
Dance electives | 12

TOTAL 62-63

DANCE ELECTIVES: To graduate with the Liberal Arts Dance option, students are required to complete 12 credits of dance electives. Selection must include at least two dance styles, and at least 3 credits at the 200 level.

Early Childhood Education (ECE)
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Science

THE PROGRAM: provides a strong background in early childhood education and liberal arts. The curriculum integrates coursework with direct experience in a variety of early childhood settings.

YOUR NEXT STEP: work as a professional with Lead Teacher Certification from the Office for Child Care Services in various early childhood settings or transfer to a baccalaureate degree institution as preparation to teach in preschools and elementary schools.

PROGRAM ADVISOR
Kate Finnegan, Office: E116M, (413) 775-1125, email: finnegan@gcc.mass.edu
Engineering Science (EGS)

THE DEGREE: Associate of Science

THE PROGRAM: provides a base of mathematics, science, and engineering fundamentals common to the first two years of a baccalaureate degree engineering program. Engineering electives provide special courses to suit your particular interest in civil/environmental, electrical/computer, mechanical/industrial, or chemical engineering. Greenfield Community College participates in the College of Engineering, University of Massachusetts/Amherst Joint Admission Program. (See pages 41-43). Note: for direct admission to the College of Engineering at UMass/Amherst through the Joint Admission Program, students will need to take most of the concentration electives at other higher education institutions, chosen in consultation with your advisor.

YOUR NEXT STEP: transfer as an engineering major to a baccalaureate degree institution. In addition to the UMass Joint Admissions Program, GCC also has formal transfer agreements with Northeastern University in all engineering fields, Rensselaer Polytechnic Institute in all engineering fields, Western New England College in industrial, electrical, mechanical engineering and engineering-biomedical option, and Worcester Polytechnic Institute in all engineering fields.

CONCENTRATION ELECTIVES, PROGRAM COORDINATOR

(continued on the next page)
Engineering Science (EGS)
(continued from previous page)

CONCENTRATION ELECTIVES

Students must select six concentration electives. CHE 111 and CHE 112 are recommended except when not required by transfer institution. The selection should be based on the student's expected engineering major (chemical, civil, environmental, electrical, computer, industrial, or mechanical engineering) and on the requirements of the transfer baccalaureate institution. In most instances, the GCC courses will be accepted at the transferring institution. Courses from this list not accepted by the transferring institution will nevertheless provide valuable background knowledge to prepare students for similar courses at the baccalaureate institution. Students should consult their advisor or Engineering Science Coordinator for recommended electives for their specific situation.

GENERAL ENGINEERING PROGRAM ADVISING GUIDE FOR GCC ASSOCIATE DEGREE

**Fall – Freshman Year**
- Computer skills (GCC CIS 140 or 150)\(^{\text{D}}\)
- Physics w/ Calculus I (GCC PHY 111)
- Calculus I (GCC MAT 201)
- English Comp I (GCC ENG 101 or equiv)
- Engineering Orientation (GCC EGR 103)
- Engineering Graphics (GCC EGR 107)

**Fall – Sophomore Year**
- Concentration Elective (GCC CHE 111)\(^{\text{D}}\)
- Multivariate Calculus (GCC MAT 203)
- Computer Programming Elective
- Concentration Elective
- Liberal Arts Elective (BC or HC)

**Spring – Freshman Year**
- Physics w/ Calculus II (GCC PHY 112)
- Calculus II (GCC MAT 202)
- Economics Elective (ECO 101 or 102)
- Liberal Arts Elective (BC or HC)
- Concentration Elective

**Spring – Sophomore Year**
- Concentration Elective (GCC CHE 112)\(^{\text{D}}\)
- Report Writing (GCC ENG 123)
- Math Elective (GCC MAT 204 or 205)
- Concentration Elective
- Concentration Elective

NOTES:

Placement tests determine readiness for MAT and ENG courses. MAT 090, 095, 096, 107, 108 and ENG 090 and COL 090 may be required if present skills in these areas are insufficient.

The 6 Concentration Electives are chosen on the basis of the specific Engineering field desired, and should be chosen with regard to the selected transfer institution. Chemistry is accepted as a Concentration Elective. Other Concentration Electives will most likely be taken off campus either at HCC, or UMASS, or through distance learning courses. Select these in conjunction with your advisor, and as approved by EGS program coordinator.

**LIST OF POSSIBLE CONCENTRATION ELECTIVES:**

For Electrical and Computer Engineering these could include: Circuits I, Circuits II, Data Structures & Algorithms, Hardware Org. & Design, Digital Logic, Advanced Computer Programming

For Mechanical Engineering these could include: Statics, Strength of Materials, Material Science, Thermodynamics, Material Design

For Civil & Environmental Engineering these could include: Statics, Strength of Materials, Material Science, Thermodynamics, Probability & Statistics in Civil Engineering, Civil Engineering Analysis

For Chemical Engineering these could include: Organic Chemistry I, Organic Chemistry II, Thermodynamics, Fluid Mechanics

For Industrial Engineering these could include: Advanced Computer Programming Languages, Statics, Probability & Statistics, Material Science, Strength of Materials, Introduction to Mechanical Design

\(^{\text{D}}\) note-choose on the basis of your specific engineering concentration in consultation with advisor.

**PROGRAM COORDINATOR**

Ted Johnson, Office: E124L, (413) 775-1429, email: johnson@gcc.mass.edu
English (LAE)
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts in Liberal Arts

THE PROGRAM: offers the opportunity to study literature and to write and think critically and creatively. It provides a strong foundation for students considering a major or minor in English.

YOUR NEXT STEP: transfer to a baccalaureate degree institution. Future careers may include writing, editing, publishing, education, public relations, advertising, business, media communications, information technology, law, and politics.

(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts in Liberal Arts

THE PROGRAM: combines elements of the behavioral and the natural sciences to develop an understanding of ecology and the use of science and technology in solving problems which are critical to our future.

YOUR NEXT STEP: transfer to a baccalaureate degree institution.

Healing Arts (LHA)
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts in Liberal Arts

THE PROGRAM: enables graduates of the Stillpoint Center School of Massage, Inc. and the Stillpoint Massage Therapy Program at GCC to get credit for their studies toward an Associate of Arts degree from GCC. The program provides a broad range of general studies in the behavioral sciences, the natural sciences, the humanities, and business.

YOUR NEXT STEP: practice therapeutic massage as a business owner/manager, secure an entry-level position with an existing provider group, or transfer to a baccalaureate program or professional institution.

Music (LMU)
(Meets Commonwealth Transfer Compact Requirements)

THE DEGREE: Associate of Arts in Liberal Arts

THE PROGRAM: combines a broad range of liberal arts studies with an elective emphasis on music that can be tailored to student interests. The program provides a strong foundation in music theory, music history, instrumental study, and ensemble performance. Numerous opportunities exist for exploring world music and music technology.

YOUR NEXT STEP: transfer to a four-year college or seek professional employment. Your future career may include work in performing, composing, teaching, audio production, music therapy, commercial music, artist management, and non-profit arts administration.

(continued on next page)
Music (LMU)
(Meets Commonwealth Transfer Compact Requirements)

(continued from previous page)

ENSEMBLE ELECTIVES: (6 CREDITS)

MUS 111 Chorus ............................................................... 2
MUS 125 Jazz Ensemble .................................................... 2
MUS 128 World Music Ensemble ......................................... 2
MUS 129 Chamber Ensemble ............................................. 2
MUS 139 Contemporary Music Ensemble .............................. 2

MUSIC ELECTIVES: (4 CREDITS)

MUS 101 Introduction to Music ......................................... 3
MUS 102 Jazz Eras and Styles ........................................... 3
MUS 103 Music Theory Fundamentals ................................ 3
MUS 122 Jazz Theory: Tools for Improvisation .................... 3
MUS 127 20th Century American Popular Music ..................... 3
MUS 137 World Music and Cultures .................................... 3
MUS 207 Music Theory III ................................................ 3
MUS 208 Jazz Improvisation ............................................. 3
MUS 219 MIDI Studio Techniques ....................................... 3
MUS 220 Songwriting ..................................................... 3
MUS 247 Aural Skills III .................................................. 1

Music majors should plan to take MUS 230 (Applied Music) and MUS 231 (Recital Participation) concurrently for four semesters.

Students with little or no music theory background should take MUS 103 (Music Theory Fundamentals) as an elective prior to enrolling in MUS 107 (Music Theory I).

Some courses are rotated in the schedule and may not be offered every semester.

Additional special topics courses are occasionally offered on a "one-time" basis in such areas as composition, world music regions, and electronic music.

Matthew Shippee, Office: TBA, (413) 775-1228, email: shippeem@gcc.mass.edu
Nursing (NUR)

THE DEGREE: Associate of Science

THE PROGRAM: prepares you for a career as a nurse, providing patient care for adults and children in varied health care settings. You will be required to take a combination of liberal arts and clinical nursing courses in sequence over four semesters. Some students prefer to complete the program over a longer period of time.

YOUR NEXT STEP: take the R.N. licensure examination, and enter the R.N. work force, and/or continue your education part-time or full-time at a baccalaureate degree institution. We have direct articulation agreements with American International College, Elms College, Framingham State College, UMass/Amherst, and Vermont College’s Schools of Nursing.

TOTAL 70

1. C+ or better required
2. C or better required
3. 5 year currency or challenge required
4. LPN advanced placement
5. 3 hours/credit hour for clinical; 2 hours/credit hour for labs
6. C+ or better required to advance to next course
7. CR required to advance to next course

Students participating in this program will be required to undergo a Criminal Offender Record Information (CORI) check. For more information please refer to page 11.

PROGRAM COORDINATOR
Teresa Mariani, Office: D203, (413) 775-1630, email: mariani@gcc.mass.edu

(continued on next page)
Nursing (NUR)

(continued from previous page)

The Associate Degree Nursing Program is approved by the Massachusetts Board of Registration in Nursing and is accredited by the National League for Nursing Accrediting Commission, 61 Broadway, New York, NY 10006, (212) 363-5555. The highly-regarded Associate Degree program offers personal support and a wide range of challenging clinical learning opportunities in the Springfield, Holyoke, Northampton, Greenfield and Brattleboro areas.

ADMISSION PROCESS - Nursing requires a special admission process. Students who have met all admission requirements are accepted on a space available basis to our nursing program. Informational meetings are held to describe the details of the A.D.N. program. Dates and locations for the meetings are available in semester course guides, from the admission or the Health Occupations office (413) 775-1620.

PREREQUISITES FOR THIS PROGRAM - High school diploma or GED certificate required. Must place into ENG 101, 103, or 105 in placement assessment or successfully complete ENG 090 and COL 090 with a “C” or better. Must place out of MAT 096 in placement assessment or successfully complete MAT 096/117 or equivalent with a “C+” or better within five (5) years. Ten credits from the list of required non-nursing courses listed on the previous page, (including at least one of the BIO courses.)

LEGAL REQUIREMENTS - Applicants need to know that individuals with a record of conviction by a Court of Law will be required to provide a complete explanation to the Board of Registration in Nursing in order to be permitted to take the licensing examination (NCLEX) after graduation. Some of the clinical facilities require that students meet the requirements of a CORI (Criminal Offenders Record Information) check every six months. Students who fail to meet the requirements of GCC clinical affiliates will not be able to continue in the program.

EXTRA COSTS - Nursing students are required to purchase uniforms, lab equipment, malpractice insurance and standardized tests. In addition, there are fees for maintaining CPR certification, immunizations, health insurance, a required physical and nursing graduation related expenses (i.e., licensure application, NCLEX-RN exams, review course). Students are responsible for their own transportation between campus and clinical facilities.

EDUCATIONAL MOBILITY OPPORTUNITIES FOR LPNS - Licensed Practical nurses who have graduated from GCC’s Program or the Thompson School (Brattleboro, VT), with a B average or better, who apply to GCC’s associate degree nursing program within five years of graduation can be accepted into the second year of GCC’s ADN Program on a space-available basis. All other LPNs are encouraged to apply for advanced placement into the second semester or the third semester of the ADN Program. LPNs entering the second semester of the program must have successfully completed English Comp. I, PSY 101, BIO 195 or 117, the Excelsior College Fundamentals of Nursing, Associate Degree level Examination and NUR 111. LPNs who earn entrance into the third semester or second year must have also successfully completed SOC 101, PSY 217, BIO 196, Excelsior College Maternal and Child Nursing, Baccalaureate Degree Examination and NUR 112 (in the place of NUR 111). For testing applications and study guides write to: Excelsior College Exams, Excelsior College, 7 Columbia Circle, Albany, NY 12203-5159, (888) 723-9267.

Transfer students can be accommodated but must complete the entire second year of nursing requirements.
Occupational Technology (OCC)

THE DEGREE: Associate of Science

THE PROGRAM: provides opportunities for the person who already has developed industry specific technical skills to further his/her education in a concentration which emphasizes professional skill development for the vocational-technical educator; and/or the person who has worked in a trade specific area for at least 3 years and is looking to further develop his or her knowledge base for career advancement. Advanced program credit will be given for passing the Massachusetts Vocational-Technical Teacher Competency Testing program (a prerequisite for entry into the program), for full-time teaching in accredited vocational-technical schools, and for business experience related to the trades.

YOUR NEXT STEP: transfer into a baccalaureate degree program within the program's transfer articulation agreement to obtain a bachelor in science in Occupational Education or work in entry level supervisory positions within your technical career choice.

Occupational Technology (OCC)
(continued from previous page)

1. Two (2) credits per year will be granted for each year of successful full-time teaching under contract at an accredited vocational-technical high school. Up to three (3) credits may be granted for business experience (private, public, or non-profit) including experience in management, employee relations, and/or government regulations, taxes, and requirements. The total for these life experiences shall not exceed six (6) credits. To be granted these credits, applicants must submit a portfolio including proof of employment, performance reviews, letters of administrative support, and a narrative describing the applicant's business experience that will be reviewed by the program advisor, the Division Dean, and the Admission office.
2. To transfer to Westfield State College, take ECO 101 or ECO 102.
3. To transfer to Westfield State College, take ENG 112, 114, or 116.
4. To transfer to Westfield State College, take HIS 101, 102, 105, 106, 107, or 108.
5. To transfer to Westfield State College, take BIO 101, 102, 105, 106, CHE 111, 112, GEO 101, 102, PHY 101, 102, 111, 112, or SCI 103.
6. To transfer to Westfield State College, take no credits from this category if HIS 105, 106, 107, or 108 was taken to satisfy the required courses.

</tr>
</tbody>
</table>

TOTAL 61-62

Note: You will probably major in a particular math or science when you transfer to another school. We recommend that the fifth NC course and the electives be chosen from within the discipline in which you will ultimately major. Furthermore, students who will major in science when they transfer should strongly consider including chemistry and physics among their choices. Talk to your advisor for advice on the choices that best meet your academic goals.

**Theater (LAT)**

*(Meets Commonwealth Transfer Compact Requirements)*

**THE DEGREE:** Associate of Arts in Liberal Arts

**THE PROGRAM:** provides a strong basis in the performance and technical fields of dramatic arts. The curriculum is a blend of theory and concept with practical, hands-on experience in all fields. Classes focus on the skills of the actor, director, and technician, while also offering a wide range of study appropriate for non-majors pursuing a liberal arts education as well as majors preparing for a professional or education career.

**YOUR NEXT STEP:** transfer to a baccalaureate degree institution

WOMEN’S STUDIES ELECTIVES
(if not already used to fulfill required courses)

Select three (3) from the following list:

- EDU 139 Women in Education
- ENG 247 Women in Literature I
- ENG 248 Women in Literature II
- HEC 121 Gender Issues in Human Ecology
- HIS 131 Women in American History
- HUM 119 Women in the Pioneer Valley
- PSY 225 Psychology of Women
- PSY 259 Psychology of Oppression
- SCI 113 Women in Science and Technology

WOMEN’S STUDIES SOCIAL AND CULTURAL DIVERSITY ELECTIVE

Select one course from the following:

- EDU 103 Creative Experiences in Art, Music, Drama, and Dance
- EDU 205 Philosophy of Education
- ENG 228 Queer Literature
- ENG 241 Survey of Children’s Literature
- GGY 101 Introduction to Geography
- HUM 153 Media and Popular Culture
- HUM 155 Representing Families Through Media
- PHI 206 Environmental Ethics
- PSY 214 Psychology of Peace, Conflict, and Violence
- Any course that meets the University of Massachusetts social and cultural diversity requirement, marked with an * in the GCC Catalog

See Liberal Arts/General Program (page 54) for specific requirements.

PROGRAM ADVISORS

Dr. Anne M. Wiley, Office: E116N, (413) 775-1132, email: wiley@gcc.mass.edu
Joanne McNeil Hayes, Office: N316, (413) 775-1230, email: hayes@gcc.mass.edu
Certificate Programs

- Business Microcomputer Applications (BMA)
- Computer Assisted Bookkeeping (CAB)
- Early Childhood Education (LEC)
- Environmental Studies/Natural Resources (NRC)
- Human Services (HSV)
- Massage Therapy (MTC)
- Microsoft Office Applications (MOA)
- Multimedia Design (MME)
- Office Assistant (OFF)
- Outdoor Leadership (OLP)
- Paramedic (PMC)
- Practical Nursing-LPN. (PNC)
- Real Estate (RST)

Certificate programs consist of specialized education in specific career fields, without the general education coursework required for a degree. We have designed our programs to prepare you for early employment and/or to improve your specific job skills. You must complete at least 15 credits or two-thirds of the credit hours required for a certificate program (whichever is less) at GCC.

In most cases, the courses required to complete a certificate program may be used to fulfill requirements for an associate degree in the same field. If you complete the requirements for both the certificate and the degree simultaneously, you will receive only the associate degree.

We offer certificate programs with two types of official approval. The Massage Therapy, Office Assistant, Outdoor Leadership, and Practical Nursing programs, sometimes referred to as “board-approved certificates,” are approved by the Greenfield Community College Board of Trustees and the Massachusetts Board of Higher Education and require at least 30 credit hours of coursework. All other certificate programs, sometimes referred to as “certificates of completion,” are approved by the Greenfield Community College Board of Trustees and require fewer than 30 credit hours of coursework.

Due to the sequence in which the certificate course requirements are offered, completion of these certificate programs within the normal time frame is not possible if a student begins required coursework in January.
## Business Microcomputer Applications (BMA) ²

**THE CERTIFICATE:** Business Microcomputer Applications

**THE PROGRAM:** provides a comprehensive introduction to microcomputer use in business or medical records management. Includes hands-on experience with office automation software tools.

**YOUR NEXT STEP:** employment in a variety of business and medical office settings or continuation in an associate degree with a business or allied health emphasis.

Abigail Jenks, Office: E132U, (413) 775-1127, email: jenks@gcc.mass.edu
Massage Therapy (MTC)
(The Stillpoint Massage Therapy Program at GCC)

THE CERTIFICATE: Massage Therapy

THE PROGRAM: the Stillpoint Program at GCC provides you with a curriculum designed for career success through training in classical Swedish massage and specific techniques for soft tissue dysfunction; clinical experience; science courses in anatomy, physiology, and pathology; and specialized study of musculo-skeletal anatomy and movement principles. Professional development/worklife courses prepare you to start your business and understand legal and ethical parameters of practice. You are professionally trained as a practitioner grounded in technique and theory with a holistic approach to healing and well-being.

YOUR NEXT STEP: obtain licensure under local regulations in order to establish independent massage therapy practices, or seek employment as a massage therapist. Graduates may choose to continue their massage therapy training through additional Massage Therapy courses and/or enroll in the Liberal Arts/Healing Arts Option, Associate Degree Program.

TOTAL 40

Students participating in this program will be required to undergo a Criminal Offender Record Information (CORI) check. For more information please refer to page 11.

Program accredited by the Commission on Massage Therapy Accreditation (COMTA).

Students can enroll in one of the following program options: full-time day, part-time day, or evening.

Students are required to pass every course in the Massage Therapy Certificate curriculum plan. A passing grade is defined as a “C” (74) in classwork and in clinical performance. Since the curriculum is sequential and learning skills build on each other, failing one course prohibits continuing in the program.

Massage Therapy requires a special admission process. Students who have met all admission requirements are accepted on a space available basis to the Massage Therapy Certificate Program.

Admission requirements for this program: high school diploma or GED; English placement assessment at the college level; completion of or Math placement assessment beyond MAT 090 (or equivalent with a “C+” or better within 5 years). If a student has college level English or Math within 5 years, the placement exam is waived with proof of college training. Students must also complete health requirements prior to admission acceptance. Students must be 18 years of age to begin classes in the program. Entering students must present current CPR certification.

Legal Requirements: Some service learning facilities require that students meet the requirements of a CORI (Criminal Offenders Record Information) check every six months. Students who fail to meet the requirements of GCC service learning affiliates will not be able to continue in the program.

Informational meeting dates and locations are available from the Admission office or Division of Health Occupations office (413) 775-1620.

PROGRAM COORDINATOR

Dr. Robert J. Welsh, Office: E132J, (413) 775-1488, email: welsh@gcc.mass.edu
Multimedia Design (MME)

THE CERTIFICATE: Multimedia Design

THE PROGRAM: The Multimedia Design Certificate is a 27-credit program offered through the Art Department. It is designed to provide students with a strong foundation in working with animation, sound, video, and the design principles used in creating interactive multimedia. Students explore the artistic, logical, critical, philosophical, and practical aspects of multimedia design as currently used to create interactive CD-ROM’s and web sites. Course work produced by students contributes towards the creation of a multimedia portfolio. For most students, this program requires a minimum of four semesters to complete.

YOUR NEXT STEP: Seek entry-level employment in the field; continue your education in the Greenfield Community College Communication Design or Media Arts program; transfer to a similar program at other professional and degree granting institutions; and continue to create personal multimedia-based artwork.

Outdoor Leadership (OLP)

THE CERTIFICATE: Outdoor Leadership

THE PROGRAM: provides students with the skills and knowledge needed to lead entry-level adventure programs and services. You will learn by doing: activities are primarily field-oriented, with hands-on training. The certificate prepares you to design and deliver experiences in five areas: backcountry travel, rock climbing, paddling, nordic skiing, and challenge coursework. Certification competencies comply with adventure industry standards, i.e., American Canoeing Association or the Professional Ski Instructor of America, where available.

YOUR NEXT STEP: you will be prepared to work in program area-specific outdoor centers and schools, i.e., paddling schools, national adventure programs such as Outward Bound, human service organizations or educational institutions that utilize adventure modalities, and adventure organizations. Students with previous career skills may combine those with current technical training to found entrepreneurial ventures. You may also choose to continue your education in counseling, the natural or social sciences, and education.

David Wan, Office: N112, (413) 775-1126, email: wan@gcc.mass.edu
Paramedic (PMC)

THE CERTIFICATE: Paramedic

THE PROGRAM: meets the most recent National Standard curriculum requirements for Paramedic education and prepares you to take the Massachusetts and National Registry certification examinations. Students begin hands-on clinical experiences during the didactic portion of the program. Students with Basic EMT certification have the option to become EMT-Intermediates during the first half of the program, allowing for earlier work experience at the Advanced Life Support level.

YOUR NEXT STEP: take certification examination for EMT-Intermediate (optional); take certification examination for EMT-Paramedic.

TOTAL 29

The Paramedic Program is accredited by the Commonwealth of Massachusetts’ Office for Emergency Medical Services (OEMS).

Applicants must have current basic or intermediate certification and be able to pass a written Basic EMT test administered by the Program; placement beyond or satisfactory completion of COL 090, ENG 090, MAT 090; and concurrent enrollment or prerequisite completion of BIO 108 or equivalent. Students must complete health requirements prior to admission acceptance. Students must be 18 years of age to begin classes in the program.

LEGAL REQUIREMENTS: Some clinical facilities require CORI (Criminal Offenders Record Information) checks. Students who fail to meet the requirements of GCC clinical affiliates will not be able to continue in the program.

EXTRA COSTS: Paramedic students are required to purchase malpractice insurance, lab coats, uniforms, emblems, and texts. There are lab fees which cover the costs of ACLS, PALS, PHTLS, and PEPP certifications, disposable goods, instructor/student ratios, and examination supplies. Students are required to cover the costs associated with travel to and from clinical and field sites, and to cover the costs associated with travel to and housing at a high-volume EMS system, if applicable. Students are also required to cover the costs of state and/or national certifying examinations.

Students participating in this program will be required to undergo a Criminal Offender Record Information (CORI) check. For more information please refer to page 11.

PROGRAM DIRECTOR
Deborah Clapp, Office: D313A, (413) 775-1628, email: clapp@gcc.mass.edu
Practical Nursing (PNC)

THE CERTIFICATE: Practical Nursing

THE PROGRAM: prepares you for a career as a practical nurse, who provides direct and competent bedside care for adults and children in nursing homes and hospitals. You will be required to take a rigorous combination of liberal arts and clinical nursing courses over 40 weeks between September and the end of June.

YOUR NEXT STEP: take the LPN licensure examination and enter the LPN work force and/or continue your education in an RN program. A direct articulation agreement exists with GCC’s associate degree nursing program.

</tbody>
</table>

TOTAL 42

Students are required to pass every course in the Practical Nursing Certificate curriculum plan. A passing grade is defined as a “C” (74) in classwork and a passing grade in clinical performance. If a course is failed, the student cannot continue in the program.

Nursing requires a special admission process. Students who have met all admission requirements are accepted on a space available basis to the practical nursing program.

Admission requirements for this program are a high school diploma or GED, English placement assessment at the college level, Math placement assessment beyond MAT 090 (or equivalent taken within the last five years with a minimum “C+” grade), and one course from the following list taken within the last five years with a minimum “C” grade: one year of high school/college preparatory biology, chemistry, or physics, or one semester of college biology, chemistry, physics, or nutrition. In addition, a completed physical examination and immunization record, as well as a current CPR certification card covering Adults, Children, and Infants, are required.

Informational meetings are held where admission materials are distributed and the curriculum is explained. The meetings are highly recommended, with dates and locations for the meetings available from the Admission office, Practical Nursing Certificate Program office in Northampton (413-582-3055), as well as the GCC Website.

Applicants need to know that individuals with a record of conviction by a Court of Law will be required to provide a complete explanation to the Board of Registration in Nursing in order to be permitted to take the licensing examination (NCLEX-PN) after graduation. The Board’s revised policy, Initial Nurse Licensure by Examination or Endorsement; Determination of Good Moral Character now identifies specific criminal convictions which will permanently exclude an individual from initial nurse licensure in Massachusetts due to the egregious nature of the crime. The policy also allows initial nurse licensure applicants only one conviction within five years before the submission of an application for initial nurse licensure. In addition, the disposition of any criminal conviction must be closed for a minimum of one year before the submission of a nurse licensure application; any other criminal case must also be closed at the time of application. For any questions on this, be sure to call the program coordinator. Some of the clinical facilities require that students meet the requirements of a CORI (Criminal Offenders Record Information) check every six months. Students who fail to meet the requirements of GCC clinical affiliates will not be able to continue in the program.

Extra costs: nursing students are required to purchase uniforms, lab equipment, malpractice insurance, and standardized tests. In addition there are fees for maintaining CPR certification, immunizations, a required physical, and nursing related graduation expenses (i.e., licensure application, NCLEX-PN exams, review course.) Students are responsible for their own transportation between campuses and clinical facilities.

Students participating in this program will be required to undergo a Criminal Offender Record Information (CORI) check. For more information please refer to page 11.

PROGRAM COORDINATOR

Virginia Wahl, Office: VA Medical Center; (413) 582-3055, email: lpn@gcc.mass.edu
Real Estate (RST)

THE CERTIFICATE: Real Estate

THE PROGRAM: is designed for students desiring to enter the real estate field as a licensed salesperson. Students are prepared to take the state licensing exam after the first semester. Selling and business communication skills, business computer usage, and daily operations of a real estate business are emphasized. Students are expected to possess basic touch keyboarding skills equivalent to ADM 106 upon entrance into this program.

YOUR NEXT STEP: find employment in the real estate field.

Degree Programs

in Collaboration with Neighboring Community Colleges

- Pharmacy Technology
- Physical Therapist Assistant
- Radiologic Technology Program

Greenfield Community College has enrollment agreements with Holyoke Community College (HCC), Berkshire Community College (BCC), and Mount Wachusetts Community College in associate degree programs. GCC students can complete the general education courses listed at GCC before transferring to HCC, BCC, or MWCC to earn their degree. Students must still apply to the college offering the program they intend to pursue. Students are encouraged to contact the program chairs at HCC, BCC, or MWCC during their first year of study to learn about the admissions process required for these programs.
Pharmacy Technology
(with Holyoke Community College)

THE DEGREE: Associate in Science

THE PROGRAM: provides the knowledge and skills necessary to sit for the National Pharmacy Technician Certification Board examination, and the supportive and scientific subjects required for effective practice as a highly-skilled pharmacy technician or pharmacist assistant.

YOUR NEXT STEP: enroll at Holyoke Community College (HCC) to take the technical courses. After completion, employment opportunities exist with hospitals, HMOs, clinics, nursing homes, home health care pharmacies, wholesale drug companies and pharmaceutical companies.

Physical Therapist Assistant
(with Berkshire Community College and Mt. Wachusett Community College)

THE DEGREE: Associate in Science

THE PROGRAM: prepares a technical health care provider who works under the supervision of a physical therapist. Physical therapy methods and treatment techniques include massage, therapeutic exercise, gait training, heat and cold application, use of assistive, prosthetic, orthotic and electrical devices.

YOUR NEXT STEP: enroll at Berkshire Community College (BCC) or Mount Wachusett Community College (MWCC) to take the technical courses. The program at BCC and MWCC includes four sequential semesters of technical courses plus a summer session. Graduates of the PTA program are eligible to take the licensing examination to become registered PTAs. PTAs are employed in hospitals, nursing homes, school systems, private practices, rehabilitation centers, home health agencies, and sports medicine clinics.

HONORS CURRICULUM AT GREENFIELD COMMUNITY COLLEGE

The Honors curriculum at Greenfield Community College provides challenging and exciting educational opportunities designed to foster high levels of independent inquiry and creativity, written and oral communication skills, and the ability to work with others in a collaborative team environment. The Honors curriculum prepares graduates to continue their advanced studies at colleges and universities throughout the country and to bring their academic talents to the attention of future employers.

Curriculum Objectives

- Stimulate and challenge students intellectually, emphasizing interdisciplinary experiences.
- Encourage fellowship among diverse student groups with common intellectual curiosity.
- Promote scholarly interaction between faculty and students.
- Enhance students’ access to honors programs at the baccalaureate level.

Student Objectives

- Develop skills in critical thinking, research, written expression, and application of knowledge.
- Explore the cultural, historical, philosophical, and scientific backgrounds of academic disciplines.
- Experience an interdisciplinary approach to learning.
- Enhance the ability to explore ideas independently.

The college offers three distinct honors curriculum options: seminars, courses, and components.

The Honors Seminar (HSM 201, HSM 202, HSM 203) provides an in depth exploration of a selected topic of academic interest. The topics are interdisciplinary. The small class size requires considerable student interaction. The seminar maintains a balance between collaborative and independent work. The course includes frequent writing assignments and a major project.

Honors courses may focus on specialized content in a subject or take an interdisciplinary approach. These courses should include a major project, research, and substantial writing. Honors courses adhere to the Honors Curriculum and Student Objectives.
An Honors Component builds upon the content and design of a standard course and may include such additional activities as independent research, reading and writing beyond the normal requirements of the course, a special project, or a service learning experience. Completing an Honors Component to a standard course converts that course to Honors status for that student. The student’s work for an Honors Component must address at least one of the Honors Student Objectives listed above. Academic departments and programs determine in which of their courses students will be allowed to attempt Honors Components. Components may be completed only in designated course sections.

For more information, please contact your advisor or
David Ram, Campus Contact
Dean of Academic Affairs
Office: East 130, (413) 775-1206
ram@gcc.mass.edu

COOPERATIVE EDUCATION

Cooperative education is a program in which students receive credit for work experience that relates directly to their program of study and/or career goals. It is a supervised, on-the-job work experience that helps students to gain skills and knowledge in a particular work environment. By participating in a cooperative education experience, some students are better able to make career and major choices. For more information about this program, stop by the Career Resource Center in the Main building or call us at (413) 775-1818.

DIRECTED STUDY

Directed Study allows a student to work with an identified instructor to complete a project for advanced individual study beyond the specific course offerings at Greenfield Community College. To qualify, the student must have completed all available course offerings in the given subject field. Courses described in the Greenfield Community College catalog may not be completed through the directed study course number, except in extraordinary circumstances, such as periods when the courses are not offered as part of the regular schedule.

A directed study project is one which carries the course number 295 or 296 and may be completed for one, two or three credits. If a 295 course is completed for one credit, the student may complete additional 295 courses in the same subject field until a maximum of three credits is earned.

The successful completion of a 295 course is prerequisite to the 296 course in the same field. Once a student embarks on a 296, he/she may not go back to a 295 in the same subject field, even if the maximum of three credits in the 295 has not been earned.

The student must realize that a directed study may not be accepted in transfer to a Baccalaureate degree awarding institution.

Contact the Registrar or a Division Office to obtain additional Directed Study information and application materials.
TECH-PREP

Greenfield Community College is a member of Tri-County Tech Prep, a consortium that includes 16 high schools and Holyoke Community College. The purpose is to coordinate curricula between area high schools and community colleges to eliminate duplication of coursework and to streamline education in the changing technologies.

To facilitate the transition from high school to college, articulation agreements have been developed with area high schools, which allow students to earn college credit for competencies they have developed while in high school.

Additional agreements are continuously being developed. If you are entering GCC from a Tech Prep member school, check with your guidance counselor for details regarding articulation agreements.

Other Tech Prep related activities include: Leadership Academy, Tech Prep Career Pathways Days, career fairs, college placement testing, and college transitional services.

The high schools included in Tri-County Tech Prep are Agawam, Career and Technical Education Center, Dean Technical, Easthampton, Frontier Regional, Gateway Regional, Greenfield, Hampshire Regional, Holyoke High, Lower Pioneer Valley Collaborative, Pioneer Valley Regional, South Hadley, Southwick High, Turners Falls, West Springfield, Westfield High, and Westfield Vocational.

To learn more about admission, advanced credit, or other admission-related issues, see the Tech Prep Coordinator or Admission staff.
Credit Courses

• Accounting
• Office Administration
• Anthropology
• Art
• American Sign Language
• Biology
• Business
• Chemistry
• College Orientation Series
• Computer Information Systems
• Cooperative Education

This section contains descriptions of the College’s approved credit courses. Developmental courses use numbers 050-100; introductory level and first-year courses use numbers 101-199; intermediate level and advanced level courses use numbers 200-299.

* A course with an asterisk meets the University of Massachusetts social and cultural diversity requirement. Students who transfer to the University without completing the Commonwealth Transfer Compact will have to complete one course that focuses on diversity in the United States and one course that focuses on global diversity.

The College does not offer all courses each semester. Students should refer to the Course Guide published in the spring, summer and fall for the specific courses offered during those semesters.

An explanation of the advising codes (A, B, C, D, E, H, L, N, S, X) can be found on the inside back cover.

**ACCOUNTING**

**ACC 103** Analysis of Financial Statements (X) 3 cr
Interpretation and analysis of financial statements; cost allocation procedures, break-even analysis, the budgeting process, preparation of flexible and rolling budgets.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

**ACC 121** Principles of Financial Accounting I (X) 4 cr
An introduction to accounting principles, concepts, and techniques. Students create and maintain the manual accounting records, and prepare financial statements for a sole proprietorship. Other topics covered are internal control structure, short-term assets, and liabilities.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

**ACC 122** Principles of Financial Accounting II (X) 4 cr
A continuation of ACC 121 which is an introduction to accounting principles, concepts, and techniques. Students use accounting software to form partnerships and corporations. Other topics include long-term assets and liabilities, cash flow statements, and financial statement analysis.
Prereq: ACC 121

**ACC 131** Applications of Cost Accounting (X) 3 cr
An introduction to accounting for manufacturing and service organizations. The course focuses on the specialized record keeping for job cost systems and the preparation of the related financial statements. Other topics include process-costing systems, cost behavior, break-even analysis, and budgeting. The student uses spreadsheet software.
Prereq ACC 122; CIS 140 or permission of instructor

**ACC 151** Concepts of Financial Accounting I (X) 3 cr
Provides students with a conceptual understanding of how accounting events impact on the elements of a business entity's financial statements for the current and/or future periods. Students will read and interpret annual reports of public corporations.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

**ACC 152** Concepts of Financial Accounting II (X) 3 cr
A continuation of ACC 151 which provides students with a conceptual understanding of how accounting events impact on the elements of a business entity's financial statements for the current and/or future periods. The course includes a research paper.
Prereq: ACC 151

**ACC 203** Management Accounting (X) 3 cr
An introduction to the process of gathering and analyzing accounting data for use by managers in planning, decision-making, and controlling. Topics include basic cost concepts, cost-volume-profit relationships, relevant cost decisions, capital investment decisions, performance evaluation, and budgeting. The student uses spreadsheet software.
Prereq: ACC 152 or ACC 122; CIS 140 or permission of instructor

**ACC 207** Financial Accounting Systems and Procedures (X) 3 cr
Designed as a final course in Financial Accounting for Accounting Associate majors. Emphasis is on internal control concepts and techniques as they apply to small and medium sized financial accounting systems. Topics covered include: an overview of flowcharting and basic internal controls in an accounting system, creation and indexing of work papers, complexities of bank reconciliations, using work sheets as a general ledger, conversion of a trial balance from a cash basis to the accrual basis, depreciation schedules and controls, an overview of payroll accounting systems, and the completion of tax forms. Completion of two practice sets required.
Prereq: ACC 112 or ACC 122

120

www.gcc.mass.edu • (413) 775-1000
OFFICE ADMINISTRATION

ADM 106 Keyboarding for Information Processing (X) 1 cr
Introduction to basic keyboarding skill by touch. Using proper technique students learn to input specifically designed alphabetic information quickly and accurately. Additional topics include the basic vocabulary and concepts used in keyboarding operations. Laboratory suggested. Course is graded on a Credit/No Credit basis.
Prereq: None

ADM 122 Introduction to Medical Terminology (X) 3 cr
Introduction to medical terminology including prefixes, suffixes, and medical abbreviations. Course will emphasize terminology familiarization for entry level office careers.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ANTHROPOLOGY

*ANT 102 Introduction to Archaeology (BC) 3 cr
An introduction to prehistory, the bulk of the human past, emphasizing what archaeologists really do and how they do it. Surveys current methods and theories, the major findings of Old and New World archaeology, and the present worldwide crisis surrounding the loss of sites and information. Field trips in the northern New England area required, and some laboratory work follows these trips.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ANT 103 Introduction to Physical Anthropology (BC) 3 cr
The human species’ place in nature from an evolutionary and ecological perspective; the interaction between biology, culture, and environment in shaping human evolution and human adaptive patterns; the significance of racial classifications and modern theories of variation.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*ANT 104 Cultural Anthropology: Tribes, States and the Global System (BC) 3 cr
An introduction to basic concepts of cultural anthropology. Students compare cultures of increasing scale and investigate specific universal issues related to why cultures change, who benefits from such change, and the costs of such changes. The course begins with an introduction to anthropological fieldwork, and continues with the description and analysis of different cultures representing domestic-scale autonomous tribal societies; politically organized, class-based systems and ancient empires; and global, industrial market-based civilizations.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ANT 204 Discovering Culture: Adventures in the Field (BC) 3 cr
A hands-on approach to the study of culture through ethnographic fieldwork. The course covers reading and analysis of selected ethnographies with emphasis on learning about anthropology by going “into the field” and doing original work. Learning tasks focus on applied understanding of the culture concept by using various fieldwork methods, adapting to the field setting (selecting a cultural scene and making contact with informants), doing fieldwork (gathering and recording cultural data), and describing a culture (analyzing the data and writing a cultural description).
Prereq: ANT 104 and ENG 112, 114, or 116

ART

*ART 103 Art History I (HC) 3 cr
The vocabulary of art introduced through the study of contemporary art forms. Art of prehistory through the Gothic period is studied in traditional chronology. Emphasis on visual awareness of formal elements, aesthetics, and components of style; causal factors of change; and the role of the artist.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ART 104 Art History II (HC) 3 cr
History of Western art from Renaissance to contemporary art, introduced by a review of the elements of style in Gothic architecture.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; Recomm: ART 103

ART 107 History of Modern Art (HC) 3 cr
A survey of modern visual art from Post-Impressionism to the present. Although the emphasis is on the art of painting, major expressions in sculpture and architecture are also studied. Field trips are required.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ART 108 History of Photography (HC) 3 cr
An introduction to the history of photography from pre-photographic times to its most recent developments. This course presents an overview of major photographers and trends, technological developments, and stylistic analysis. Students examine the social and cultural contexts in which photographs are made, as well as critical approaches to photography and the relationship of photography to other art forms.
Prereq: ENG 101, 103, or 105
ART 121 Two-Dimensional Design (HL) 3 cr
Introduction to the visual vocabulary through an investigation of two-dimensional order. Emphasis on the development of visual awareness, craftsmanship, and use of media and materials.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ART 125 Three-Dimensional Design (HL) 3 cr
An exploration of three-dimensional space. The students apply design principles in relation to height, width, and depth. The course emphasizes conceptualization and problem-solving.
Prereq: ART 121; Recomm: ART 131

ART 131 Drawing I (HL) 3 cr
A series of problems designed to acquaint the student with perceptual and inventive skills in drawing. Introduction to drawing materials and techniques while examining ways of implying space on a two-dimensional surface.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ART 132 Drawing II (HL) 3 cr
A continuation of Drawing I with emphasis on perceptual and inventive skills.
Prereq: ART 131

ART 141 Color (HL) 3 cr
An exploration of the perceptual characteristics of color. Students will develop sensitivity to color through direct visual experiences and practice. Emphasis is given to color mixing and interaction in application.
Prereq: ART 121 and ART 131; or permission of instructor

ART 151 Introduction to Photography (HL) 3 cr
Introduction to basic camera operation, processing, and printing. Students must provide their own cameras, film, and paper. Processing and darkroom equipment furnished.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ART 155 Introduction to Video (HL) 3 cr
An introduction to video as a visual medium with an emphasis on the development of basic conceptual, critical, and technical skills.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

ART 157 Animation (HL) 3 cr
An introduction to creating two-dimensional animation for multimedia, the World Wide Web, and as an art form unto itself. Using computer software, students learn basic principles and concepts for developing animated works and combining sound with animation.
Prereq: ART 161 or concurrent with ART 161; Recomm: ART 121, ART 141, ART 155

ART 161 Introduction to the Electronic Studio (HL) 3 cr
An introduction to the visual, critical, and technical skills used in creating and manipulating images via computers and electronic imaging software.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; Recomm: ART 121

ART 173 Digital Design (X) 3 cr
An exploration of the tools and processes of digital design. The course emphasizes development of strong visual and technical skills in digital design, layout, and illustration.
Prereq: ART 121 and ART 161

ART 225 Three-Dimensional Design II (HL) 3 cr
A continuation of ART 125, Three-Dimensional Design with emphasis on three-dimensional form in relation to site and space. Students use various materials, technologies, and design processes, and explore concepts through the process of drawing.
Prereq: ART 125 and ART 132

ART 232 Thematic Drawing (HL) 3 cr
Structure, organization, approach, problem-solving, and expressive concerns in drawing. The course emphasizes thematic development in drawing.
Prereq: ART 132, ART 141, and ART 235 or ART 238

ART 235 Figure Drawing I: Anatomy and Structure (HL) 3 cr
An introduction to figure drawing with emphasis on the skeletal and muscular anatomy and the structure of the human form.
Prereq: ART 121 and ART 132, or permission of the instructor

ART 236 Figure Drawing II-A (HL) 3 cr
Focuses on drawing from the model with emphasis on gesture, proportion, foreshortening, and composition.
Prereq: ART 132 and ART 235

ART 237 Figure Drawing II-B (HL) 3 cr
A continuation of ART 236, Figure Drawing II-A, with emphasis on the development of a cohesive body of work.
Prereq: ART 236

ART 238 Perspective Drawing (HL) 3 cr
Introduces principles of perspective drawing. The course emphasizes diminution, foreshortening, and convergence. Students explore drawing problems involving determining height, width and depth, and the study of light and shadow in the spatial field.
Prereq: ART 131

ART 241 Painting I (HL) 3 cr
An introduction to oil painting, composition, and construction. Emphasis on the properties of the materials and the approaches to representational and non-representational forms.
Prereq: ART 132 and ART 141
ART 242  Painting II-A (HL) 3 cr
A continuation of the disciplines of painting. Expression through exploration of the various problems of painting. Students work from the model and a variety of sources.
Prereq: ART 241

ART 243  Painting II-B (HL) 3 cr
A continuation of ART 242, Painting II-A, with emphasis on the integration and development of paintings surrounding a basic idea or theme.
Prereq: ART 242

ART 251  Photography I-A (HL) 3 cr
Emphasis on the quality and range possibilities in photography. Students explore their interests through project orientation. Issues and methodologies that concern the contemporary photographer are discussed in relation to the projects chosen.
Prereq: ART 151

ART 252  Photography I-B (HL) 3 cr
Continuation of Photography IA. Emphasis on the quality and range of possibilities in photography. Students continue to explore their interests through project orientation. Issues and methodologies that concern the contemporary photographer discussed in relation to the projects chosen.
Prereq: ART 251

ART 255  Video I-A (HL) 3 cr
An exploration of video as a visual medium using various electronic image-making techniques.
Prereq: ART 155

ART 256  Video I-B (HL) 3 cr
A continuation of Video I-A with an emphasis on the development of individual expression.
Prereq: ART 255

ART 261  Electronic Imaging (HL) 3 cr
An exploration of the language and processes of digital photography. The course covers scanning, manipulation, and printing of photographic images using the computer and related resources. Students explore their interests through a project orientation.
Prereq: ART 161 and ART 251

ART 263  Designing for the World Wide Web (HL) 3 cr
Prereq: ART 161; Recmm: ART 121, ART 141, ART 157, ART 265

ART 264  Dynamic Web Page Design (HL) 3 cr
An introduction to the methods and philosophies of designing and creating dynamic interactive pages for the World Wide Web using Flash and DHTML.
Prereq: ART 263; Recmm: ART 157 and ART 265

ART 265  Multimedia Design I (HL) 3 cr
An introduction to the design principles, processes, and tools of multimedia for creating interactive artworks. The course focuses on the development of fundamental skills necessary for creative use of multimedia authoring software.
Prereq: ART 161; Recmm: ART 121, ART 141, ART 151

ART 266  Multimedia Design II (HL) 3 cr
A continuation of ART 265, Multimedia Design I, aimed at further developing a student’s ability to create cohesive interactive multimedia projects. The course emphasizes the development of individual expression through various tools of multimedia design.
Prereq: ART 157 and ART 265; Recmm: ART 121, ART 141, ART 151

ART 267  Three-Dimensional Modeling and Animation (HL) 3 cr
An introduction to the concepts and techniques of computer-based three-dimensional modeling and animation. Students use professional level 3D software to learn how to create complex forms and animations built up from simple shapes.
Prereq: ART 157; or ART 161 and ART 155

ART 271  Graphic Design I: Typography (X) 3 cr
An exploration of typographic elements and their application to various forms of visual communication. Building on established visual principles, students investigate problems in typographical structure, sequence, and communication effectiveness.
Prereq: ART 121, ART 131, and ART 173

ART 272  Graphic Design II: Problems in Design (X) 3 cr
Explores problems in graphic design requiring practical solutions with visual integrity. Students integrate text, image, and color utilizing traditional and computer processes.
Prereq: ART 271

ART 290  Media Arts Seminar (HL) 3 cr
Designed for students nearing completion of their course work in the Media Arts programs. Working independently, each student produces a thematic body of work suitable for inclusion in a transfer or employment portfolio, or for exhibition purposes. Students work outside of class; students and faculty use regular class meetings for critical discussion and review of work.
Prereq: Completion of a minimum of three 200-level art studio courses, or permission of the instructor.
ART 291 Fine Arts Seminar (HL) 3 cr
Designed for students nearing completion of their course work in the Fine Arts programs. Working independently, each student produces a thematic body of work suitable for inclusion in a transfer or employment portfolio, or for exhibition purposes. Students work outside of class; students and faculty use regular class meetings for critical discussion and review of work.
Prereq: Completion of a minimum of three 200-level art studio courses, or permission of the instructor.

AMERICAN SIGN LANGUAGE

ASL 101 Elementary American Sign Language I (HC) 4 cr
Presents basic grammatical rules in the use of American Sign Language. The course covers basic ASL vocabulary, manual alphabet/numbers, visual-gestural communication, and information related to deaf culture. Students develop basic competence in receptive and expressive use of ASL. Students and teacher use ASL in the class to communicate.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

ASL 102 Elementary American Sign Language II (HC) 4 cr
A continuation of ASL 101, designed to further develop students’ proficiency in frequently used signs. The course offers students the opportunity for individual hands-on experience in language learning. The course emphasizes a study of cultural behaviors, values, and norms. The course uses video text to improve conversational skills and preserve the integrity of the language. Students and teacher use ASL in the class to communicate.
Prereq: ASL 101 or equivalent, or permission of instructor

ASL 201 Intermediate American Sign Language I (HC) 4 cr
Offers the student continuing opportunities for hands-on experience in language learning. A critical component of the course is the use of video text to improve conversational skills at the intermediate level and to preserve the integrity of the language. The course emphasizes a deeper understanding of Deaf norms, allowing students to learn appropriate behavior in order to function comfortably in a wide variety of situations in the Deaf community.
Prereq: ASL 101 and 102, or permission of instructor

BIOLOGY

BIO 101 Zoology (NC) 4 cr
An exploration of major groups of animals through studying how representative species carry on life sustaining functions such as reproduction, feeding, waste removal, response to stimuli, and respiration. Students study the classification of animals and how they relate to their environment. In the laboratory, students study the structure and behavior of preserved and live animals from each of the major groups.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 102 Botany (NC) 4 cr
An introduction to the study of plants through exploring the structure and function of roots, stems, leaves, flowers, fruits, and seeds. Students study the processes of reproduction, respiration, photosynthesis, and inheritance. In the laboratory, students study the structure and function of live and preserved plant materials as they relate to lecture subjects.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 103 Ecology (NC) 4 cr
Environmental studies with emphasis on concepts of ecology, conservation of natural resources and their relationship to the quality of life. Lab sessions focus on forest, field, stream, and pond habitats, with field trips to local sites.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 104 Natural History (NC) 4 cr
Environmental studies with emphasis on natural history, climate, life zones, and conservation of natural resources. Lab required.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 108 Human Systems (NL) 3 cr
Presents a comprehensive examination of human anatomy and physiology with particular emphasis on the cardiovascular and respiratory systems. It highlights the anatomy and physiology of the central nervous system, as well as the autonomic and somatic peripheral nervous systems. This course surveys other body systems, including topics in geriatrics and infection control. The course satisfies course requirement for PMC Advanced Life Support students. It does not satisfy course requirement for LPN, ADN, and MTC students. PMC students must receive a minimum final grade of “C” in this course to maintain eligibility in the Paramedic Certificate Program.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
BIO 120  Introduction to Environmental Science (NC) 4 cr
Provides an overview of the principles of environmental sciences with the overall objective of increasing student awareness and understanding of regional, national, and global environmental issues. Students focus on environmental problems, ecological principles, human population, natural resources, environmental quality, pollution, biodiversity, and conservation.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 122  Freshwater Ecology (NC) 4 cr
Provides an overview of the ecology of freshwater habitats and freshwater organisms. The course emphasizes the study of wetlands (marshes, bogs, swamps and vernal ponds), streams, rivers, ponds, lakes and the biological communities (including plants, insects, fish, reptiles and amphibians) that they support. Students utilize fish-stocked recirculating tanks to conduct experiments and study the science of aquaculture (aquatic plant and animal farming). Students study the composition and conditions of freshwater habitats and go on field trips to different freshwater sites.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 124  Introductory Horticulture (NC) 4 cr
Provides knowledge on how to propagate and care for plants through experiences with soils, seeds, bulbs, potting, watering, pruning, dividing, terrariums, and fertilizers. Students learn how to design and manage a vegetable garden for maximum harvest. The laboratory sessions provide experiences with plants, such as mixing soil, planting seeds, taking cuttings, potting up plants, fertilizing plants, plant growth, constructing terrariums, and a trip to a local plant growing business. Credit can be granted for BIO 111 or BIO 124, but not both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

BIO 126  Biology I (NC) 4 cr
An introduction to the basic mechanisms of life. Major topics include the biochemical basis of life, cell structure, DNA structure and replication, protein synthesis, mitosis, meiosis, inheritance, respiration, photosynthesis, and biotechnology. Students use the scientific method in laboratory experiences that include selected topics in cell structure, cell functions, mitosis and meiosis, genetics, enzymes, respiration, photosynthesis, developmental biology, and microbiology. Credit can be granted for BIO 119 or BIO 126, but not both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090

BIO 127  Biology II (NC) 4 cr
An introduction to the major structures, functions, and ecology of plants and animals. Major topics include basic plant structures and their functions, basic animal structures and physiology, survey of major animal groups, survey of major plant groups, and ecology. Students use the scientific method in laboratory experiences that include selected topics in basic mammalian anatomy, nervous system and senses, musculoskeletal systems, seedless plants, seed plants, plant anatomy, selected invertebrates, chordates, evolution, and ecology.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090

BIO 129  Pathology (NL) 3 cr
Surveys illnesses and injuries commonly found in clients seeking massage therapy.
Prereq: BIO 101 or BIO 105 or BIO 117 or BIO 119 or BIO 194 or BIO 195

BIO 130  Human Nutrition (NL) 3 cr
The study of nutrition and its application to good health and a sense of well being. Applications of nutrition to physical fitness, preventive medicine, and health care.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

Note to Practical Nursing (PNC) graduates who intend to enter the Associate Degree Nursing (ADN) program: PNC graduates who have completed BIO 117 or BIO 194 with a B or better can complete the anatomy and physiology sequence required for the ADN program by taking BIO 196. PNC graduates who receive a grade lower than a B in BIO 117 or BIO 194 and all other Health Occupations students have to take both BIO 195 and 196 to qualify for the ADN program. Five (5) year currency or currency exam is required for all anatomy and physiology courses. Please contact the Nursing program for more information.

BIO 194  Comprehensive Anatomy and Physiology (NC) 4 cr
The study of human anatomy and physiology with emphasis on anatomy. Students study the anatomy of the nine organ systems using the structure to underscore the function of body parts and their relationship to each other. This is a Lab course. NOTE: Students can earn graduation credit for only one of the following: BIO 105 or BIO 107 or BIO 117 or BIO 194 or BIO 195. Students can earn graduation credit for BIO 106 or BIO 196, but not both.
Prereq: COL 090 and ENG 090, or satisfactory placement test scores
BIO 195 Human Anatomy and Physiology I (NC) 4 cr
A first semester of a comprehensive study of the anatomy and physiology of the human body, including biochemistry, cell anatomy and physiology, histology, the skeletal system, articulations, muscle anatomy and physiology, neurophysiology, the anatomy of the central and peripheral nervous systems, the anatomy and physiology of the special senses, and the neural integration. This is a Lab course that requires animal tissue dissections.
NOTE: Students can earn credit for only one of the following courses: BIO 105 or BIO 107 or BIO 117 or BIO 194 or BIO 195.
Prereq: High school or college chemistry within the past ten years, or placement by CLEP, or ENG 090, or satisfactory placement test scores.

BIO 196 Human Anatomy and Physiology II (NC) 4 cr
A second semester of a comprehensive study of the anatomy and physiology of the human body, including endocrinology, blood, cardiovascular anatomy and physiology, lymphatic system, immunity, respiratory anatomy and physiology, digestive anatomy and physiology, metabolism, urinary anatomy and physiology, fluid dynamics, reproductive anatomy and physiology, genetics, and development. This is a Lab course. Note: Students can earn graduation credit for BIO 106 or BIO 196, but not both.
Prereq: 1, or both 2 and 3 as follows: (1) BIO 195, or (2) BIO 117 or BIO 194 with a grade of B or better within the past five years AND (3) high school or college chemistry within the past ten years, or placement by CLEP, or CHE 105 or CHE 111 concurrently.

BIO 205 Microbiology (NC) 4 cr
An introduction to the biology of microorganisms, with emphasis on the properties of microorganisms and their relation to disease. Lab required.
Prereq: BIO 101 or BIO 105 or BIO 107 or BIO 117 or BIO 194 or BIO 195.

BIO 207 Human Pathophysiology (NL) 3 cr
An introduction to the physiology of adult disease processes. Students study pathogenesis, clinical manifestations, diagnostic assessment and the rationale for therapeutic regimens. This course places emphasis on common disorders of the cardiovascular, respiratory, endocrine, gastrointestinal and reproductive systems abnormalities. This course is primarily for primary care practitioners in the health care field.
Prereq: BIO 117, BIO 118, or BIO 194 or BIO 196, or permission of instructor.

BIO 281 Interpretation of Diagnostic Laboratory Tests (NL) 3 cr
The study of current information on commonly ordered laboratory tests. Includes normal values, background, test explanation, and clinical information. This course is intended for practitioners and students in the health care areas.
Prereq: BIO 196.

BUSINESS

BUS 103 Introduction to Marketing (A) 3 cr
The distribution of goods and services from producer to consumer. Structure of marketing institutions, price determination and policies; consumer and industrial marketing, market research; legislation affecting marketing.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

BUS 105 Mathematics for Business (X) 3 cr
Designed to meet the needs of business students. Aims to provide the mathematical background for success in the study of finance, accounting, and other business subjects.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 090 or placement by examination.

BUS 107 Introduction to Federal Income Taxes (X) 3 cr
Designed to acquaint the student with the federal income tax system. Emphasis is on the basic concepts of income recognition, deductible business and non-business expenses, and special tax calculations. Identification of the tax issue and proper research techniques for solving tax problems also stressed.
Prereq: ACC 112 or ACC 122.

BUS 108 Introduction to Income Tax Preparation (X) 1-3 cr
A practicum in income tax preparation. The course provides training in tax preparation procedures and prepares the student for the VITA (Volunteer Income Tax Assistance) course examination. Upon successful completion of the VITA exam, the student conducts community service in cooperation with the Internal Revenue Service and the Massachusetts Department of Revenue by filling out federal and state income tax returns for area residents. The student contracts with the instructor to earn from one to three credits.
Prereq: BUS 107.

BUS 109 Personal Finance (X) 3 cr
An introduction to the finances of the home. Topics include: auto loans and leasing, credit cards and fees, home mortgages—points, ARMs and fixed rates, health and life insurance, personal
Credit, bills, banking, and personal investing. Inexpensive PC-based home finance software will be used.

**BUS 111** Introduction to Business (A) 3 cr
Introduces students to management, marketing, and financial considerations of business. Establishes economic and historical perspectives, as well as daily operation of a business.
Prereq: None

**BUS 119** Principles of Real Estate (X) 3 cr
Surveys the principles of real estate. Designed for those who want to know more about the field for personal knowledge or for possible employment. Of help to those who intend to take a state real estate examination. Includes the legal, financial, brokerage, marketing, and other important aspects of the real estate business.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

**BUS 123** Business Communication (X) 3 cr
Designed to familiarize students with the principles of effective communication. Emphasis on planning, organizing, and writing a variety of business letters. Oral communication and basic telephone techniques also covered.
Prereq: ENG 101, 103, or 105

**BUS 125** Principles of Advertising (X) 3 cr
An introduction to the field of advertising. Intended for those interested in the role of advertising in our business and economic structure. Emphasis on how a mass communication program should be developed.
Prereq: ENG 101, 103, or 105

**BUS 155** Business Law I (A) 3 cr
An introduction to the law as it pertains to transactions in business and commercial fields. Laws of contracts, social forces, and legal rights, bailments, and personal property transactions.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

**BUS 163** Diversity Management: Understanding Multiculturalism (A) 3 cr
Focuses on multicultural organizational development, and demonstrates how many of us find ourselves ill-prepared to work or go to school in today's socially and culturally diverse society. An interdisciplinary approach (historical, sociological, and anthropological) used to understand cross-cultural differences.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

**BUS 203** Human Resources Management (A) 3 cr
Prereq: BUS 111
Provides a practical approach to the tasks of recruiting, hiring, training, and compensating employees. Students will also study equal opportunity, motivation, health and safety, and labor relations.

**BUS 204** Managerial Communication (A) 3 cr
A study of the rhetoric of managerial communications. The student learns to improve his or her ability to communicate in such management situations as conflict resolution, negotiation, conducting meetings, making presentations, and working with teams using multiple genres—listening, written, oral, multimedia, and the Internet.
Prereq: ENG 101, 103, or 105, CIS 140, or permission of instructor

**BUS 205** Principles of Management (A) 3 cr
Fundamentals of the management of organizations. Introduces students to the process of management, including decision making and the role of the individual. Emphasis on the functions of management.
Prereq: BUS 111; Recmm: PSY 101

**BUS 213** Personal Selling and Sales Techniques (X) 3 cr
Equips the student with a firm foundation for a sales career. Attention to general principles of selling and to building skills essential in the workplace. Emphasis on the selling cycles.
Prereq: BUS 103 or permission of instructor

**BUS 214** Retail Management (X) 3 cr
A practical approach to managing a retailing organization, with an emphasis on current practices and trends. Students study selecting, purchasing, pricing, and selling policies for merchandise and services in stores and electronic retailing. The course stresses retail planning and decision making along with a focus on change and adaptation to change. Using case studies, students learn about selecting, purchasing, pricing, and selling policies.
Prereq: BUS 103, BUS 111, or permission of instructor

**BUS 223** Business Applications (L) 3 cr
An upper level course for business students. Students combine classroom instruction in a current business topic with practical involvement in a specific business enterprise or industry. While topics may change every semester, the course includes such activities as data collection, document analysis, topical research, stakeholder interviews, business planning, and strategy development. The course includes significant writing assignments and a major project.
Prereq: BUS 111; ECO 101 or ECO 102; completion of 24 college-level credits; MAT 107 concurrently or placement by examination
CHEMISTRY

CHE 105  Basic Principles of Chemistry (NC)  3 cr
A survey course for students interested in the basics of chemistry from a descriptive point of view. Includes matter, properties of families of compounds and their characteristic compounds, mixtures, acids and bases, chemical reactions, introductory biochemistry, environmental effect of chemistry. Could be the basis for coursework in selected technical areas, but not intended as a substitute for CHE 111, 112.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

CHE 111  General Chemistry I (NC)  4 cr
Theoretical and descriptive topics of chemistry, including nature of matter; atomic and molecular structure, periodic properties of the elements, chemical bonding, nomenclature, stoichiometry, gaseous, liquid, and solid states. Lab required.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 096 concurrently or placement by examination.

CHE 112  General Chemistry II (NC)  4 cr
Interrelated descriptive and theoretical topics of chemistry, including chemical kinetics, chemical equilibrium, acids and bases, solubility equilibria, free energy, entropy, equilibrium and free energy, electrochemistry, nuclear chemistry, environmental impact of chemistry. Some basic chemistry of metals and non-metals, as well as some organic chemistry concepts are covered in this course. Lab required.
Prereq: CHE 111; MAT 107 concurrently or placement by examination.

CHE 201  Organic Chemistry I (NC)  4 cr
Introduction to the chemistry of carbon compounds. In-depth study of the structure, physical properties, and reactivity of alkanes, cycloalkanes, alkenes, alkynes, and conjugated unsaturated systems. Special topics integrated into the survey include conformational analysis, nucleophilic substitution, elimination reactions, electrophilic addition, and stereochemistry of chiral molecules. Lab required.
Prereq: CHE 112.

CHE 202  Organic Chemistry II (NC)  4 cr
In-depth study of aromatic compounds, physical methods of structure determination, organic halides, organometallic compounds, alcohols, phenols, ethers, aldehydes, ketones, carboxylic acids, carboxylic acid derivatives, amines, and amides. Examination of various classes of natural products. Introduction to biochemistry. Polymers and polymerization. Lab required.
Prereq: CHE 201.

COLLEGE ORIENTATION SERIES

GCC 101  The College Connection: Building a Community of Scholars (L)  3 cr
An intensive two-week experience for incoming first-year students as an introduction to life as a college student. Working collaboratively with peers and faculty in a learning community, students participate in multi-disciplinary activities centering on themes from a work of literature that the students read prior to taking the class. Students also participate in experiences that provide them with a view of several college disciplines. Students explore different learning styles and assess what methods of note taking, study, reading, and exam taking work best for them individually. In addition to their academic pursuits, students learn of the opportunities available to them at the college including support services, the library, student life, health services, etc. Students have learning experiences in the classroom, computer lab, and outdoor settings. Students write extensively.
Prereq: Students must be entering GCC for the first time in the following semester. Students must read the assigned work of literature before starting the class.

COMPUTER INFORMATION SYSTEMS

CIS 101  Computer Literacy (X)  1 cr
A general introductory level microcomputer course for novices. Students learn to use basic computer vocabulary and to create, save, and print a simple document. Also included is a preview to computer electronic mail and information retrieval. Graded credit/no credit.
Prereq: None.

CIS 110  Introduction to Computers (L)  3 cr
A non-technical survey course in computers—what they are, what they can do, what they cannot do, how to use them, and what impact they have on society. Ideal for someone looking for a single course in computer literacy. Not designed to prepare for a career in computing, although it provides a background for a select group of computer information systems (CIS) offerings. Introduction to data management, graphics, word processing, and spreadsheets with student use of commercial software. Writing and running simple programs in the BASIC language also included. Students spend time, outside of class time, in the computer lab.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 095 or equivalent.
CIS 111 Introduction to the Internet (X) 3 cr
An introduction to the Internet and its components, the World Wide Web, Gopher, and Veronica. Topics include: networking, working with email; search strategies, web page construction, security and privacy issues, legal and social issues. Graded credit/no credit.
Prereq: None

CIS 115 Introduction to Business Information Systems (A) 3 cr
The application of computers to business and like organizations. Topics include: data processing systems, computer concepts, teleprocessing, business data base systems, distributed processing. Emphasis is on the use of microcomputers in business. Students complete hands-on exercises using current word processing, spreadsheet, and database software. Examines the role of management and the user in the development and operation of business computer systems. An appropriate beginning course for those contemplating careers in computing and business as well as those wishing to use the computer as a business tool.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 095 or equivalent

CIS 121 Word Processing on Microcomputers (X) 1 cr
Using text editor programs, this course explores the facilities available on standard editor programs, along with giving the student a facility for using such programs in research paper writing, and other applications according to the needs and wishes of the students. Graded credit/no credit.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; ADM 106 or permission of instructor

CIS 123 Database Applications (A) 1 cr
A non-technical view of database management systems, with a survey of possible applications. Includes hands-on use of microcomputer database management systems, with discussions of their relative effectiveness.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; ADM 106 or permission of instructor

CIS 125 Internet Literacy (X) 1 cr
A basic overview of the Internet. Topics include: the World Wide Web and how to access it; configuration of a browser; use a browser to do research, transfer files, and send/receive mail. Graded credit/no credit.
Prereq: None

CIS 140 Microcomputer Software Tools I (A) 3 cr
Provides students with an introduction to several major “productivity” programs used on microcomputers. Topics include the Windows operating system, word processing, electronic spreadsheet management and graph production using currently popular software packages, and some database management. This is a hands-on course.
Prereq: ADM 106 and placement beyond or satisfactory completion of COL 090, ENG 090 and MAT 090

CIS 141 Microcomputer Software Tools II (A) 3 cr
Provides students with intermediate training in the use of word processing and electronic spreadsheet software. In addition to building upon software skills taught in CIS 140, Microcomputer Software Tools I, students learn the integration of data created in various programs and the development of presentation-quality output. Students use each application’s macro language to automate and customize documents, worksheets, and data entry operations. Students are introduced to graphics software used for business and multimedia presentations.
Prereq: CIS 140

CIS 143 Advanced Word Processing (X) 3 cr
Provides students with advanced concepts in word processing. Topics include mailmerge, collaboration, advanced formatting and pagination, advanced table manipulation, forms, and advanced paragraph formatting. Students also learn to utilize modern task management software. Topics include creating calendar entries with special features, use of task pads, use of mailing lists, and e-mail group and document management. Students learn correct formatting options for many commonly used business documents, including letters, reports, and brochures.
Prereq: CIS 140

CIS 145 Relational Database Design and Application (X) 3 cr
Provides a foundation in business information management using a relational database. Topics include the theory of managing data; planning and design of a database; creation, normalization and management of tables; design and development of queries, forms and reports; techniques for controlling ease and accuracy of data entry; use of macros to automate operations. Students create and manage a variety of common business database applications.
Prereq: COL 090 and ENG 090, or satisfactory placement test scores; ADM 106 or permission of instructor
CIS 150  Programming Principles and Concepts (L) 3 cr
Computer problem-solving principles and techniques for students contemplating a career in computer programming, or computer information systems. Structured problem-solving methods are introduced, including techniques for decomposing complex problems, and expressing the problem solutions in terms which can be expressed in any computer programming language.
Prereq: MAT 096 or equivalent; ENG 101, 103, or 105 or concurrent enrollment

CIS 151  HTML and Web Page Design (X) 3 cr
A study of HTML programming language and the creation of the effective web pages for use on the Internet. Topics include creating web pages with HTML and with web page construction tools, managing files, administering web sites, and managing commerce on the web. Students create interactive web pages, and complete an extensive final project.
Prereq: CIS 140, or CIS 150, or permission of instructor.

CIS 170  Introduction to Computer Maintenance (X) 3 cr
An in-depth coverage of microcomputer (PC) hardware design, operation, maintenance, troubleshooting and repair. The course provides thorough coverage of and hands-on experience with Intel-based microcomputers; the interaction between software and hardware in managing resources and controlling operation; components of the motherboard; optimization of the motherboard; support for I/O devices; and hard drive operations. Topics also include troubleshooting techniques which are useful to diagnose and correct a wide variety of PC problems. This is a hands-on course and requires extensive lab work.
Prereq: CIS 115, or CIS 140, or permission of instructor

CIS 180  Network Workstation Administration (X) 3 cr
Provides a basic working knowledge of installing, setting up, and administering workstations using a current operating system. Topics include installing and configuring workstations to operate on a variety of network topologies. Other topics include configuring protocols, security, sharing of resources, and allowing access to information. Students set up, debug, and troubleshoot actual workstation installations.
Prereq: CIS 115, or CIS 140, or a CIS major

CIS 245  Advanced Database Programming (L) 3 cr
A continuation of CIS 145, Relational Database Design and Application. The student begins with advanced macro design, then is introduced to Access Basic (a 4GL version of Microsoft Visual Basic for Windows) in conjunction with built-in database tools. This is used by the student to create custom applications using the Microsoft Access relational database. Students complete a database term project.
Prereq: CIS 145

CIS 250  Advanced Basic (L) 3 cr
A continuation of CIS 150, Programming Principles and Concepts. Students study additional command structures and coding techniques utilizing contemporary Basic software. The course emphasizes proper programming techniques and structure, and industrial practices. Teaching methodology includes lab activities, and problem solving, both individually and in small groups. Students complete extensive programming assignments.
Prereq: CIS 150 and CIS 145, or permission of instructor

CIS 251  Java Programming (L) 3 cr
A study of computer programming using the Java language. The course emphasizes proper programming techniques and structure, and industrial practices. Teaching methodology includes lab activities, and problem solving, both individually and in small groups. Students complete extensive programming assignments.
Prereq: CIS 150 or status as a second year engineering student

CIS 252  C++ Programming (A) 3 cr
A study of computer programming using the C++ language. The course emphasizes proper programming techniques and structure, and industrial practices. Teaching methodology includes lab activities, and problem solving, both individually and in small groups. Students complete extensive programming assignments.
Prereq: CIS 150 or status as a second year engineering student

CIS 253  Pascal Programming (A) 3 cr
Introduction to a structured computer programming language lending itself well to modern programming techniques. Student facility in programming is emphasized by direct interaction with the computer. A number of problems are assigned to be solved.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 096 or equivalent, or permission of instructor

CIS 257  Current Concepts in Programming (L) 3 cr
A study of computer programming using industry standard, current language and principles. The course focuses on current, recently developed programming techniques and methods, with a focus on graphics, multimedia, file I/O and database connectivity. Teaching methodology includes lectures, hands-on classroom activities, and problem solving. Students complete a wide variety of programming assignments.
Prereq: CIS 150 or permission of instructor
CIS 258  Advanced Current Concepts in Programming (L) 3 cr
A continuation of computer programming using industry standard, current language and principles. The course focuses on advanced programming techniques and methods, with a focus on graphics, multimedia, file I/O and database connectivity. Teaching methodology includes lectures, hands-on classroom activities, and problem solving. Students complete a wide variety of programming assignments.
Prereq: CIS 257 or permission of instructor

CIS 270  Advanced Computer Hardware Maintenance (X) 3 cr
A continuation of CIS 170, Introduction to Computer Maintenance. Hardware related topics include techniques for customizing a PC with internal and peripheral equipment; understanding and managing physical and virtual memory; and electricity and power supplies in PCs. Software related topics include configuring and troubleshooting the Windows operating systems; and hard disk drive management and use of troubleshooting programs. Students learn methods and techniques used by professional PC technicians to diagnose and repair systems. This is a hands-on course and requires extensive lab work.
Prereq: CIS 170

CIS 280  Network Server Administration (L) 3 cr
Provides instruction in the installation, configuration, and management of a local area network server using current industry server software. Topics include installation of software, configuration of software and common services, protection of data, client requirements and setup, setting up groups and users, managing and securing access to server files, remote access, and other topics. Students complete extensive hands-on lab activities and homework.
Prereq: CIS 180

CIS 281  Networking Principles and Techniques (L) 3 cr
An introduction to networking concepts, design essentials, media and hardware. Topics include coverage of the OSI and IEEE 802 models, network communications and protocols, network architectures, simple network operations, complex networks, network administration and support, enterprise and distributed networks, wide-area and large-scale networks, and network problem analysis and solution. Students complete hands-on lab experiences in the implementation of a variety of local area network designs and protocols.
Prereq: CIS 180

CIS 283  Linux (L) 3 cr
Provides a basic working knowledge of the Linux operating system and an understanding of the Unix environment. Topics include installing Linux as a server, configuring Linux, managing users, the UNIX command line, file systems, security, Internet services (DNS, HTTP, SMTP, POP, SSH), and Intranet services (NFS, DHCP). Students set up, debug, and troubleshoot actual workstation installations.
Prereq: CIS 180 or permission of instructor

CIS 285  Managing Network Information Resources (L) 3 cr
Provides instruction in the installation, configuration, and management of system-wide electronic messaging exchange software. Topics include understanding system architecture and messaging protocols, installation of system software, communication and information transfer, managing users, setting up and managing client’s messaging server management, intersite connectivity and mail systems, system security, and other maintenance and connectivity issues.
Prereq: CIS 280

CIS 290  Systems Analysis and Design (X) 3 cr
An investigation and analysis of the methods and techniques used by the systems analyst in analyzing present systems, whether manual or automated systems. The systems development life cycle is followed, from feasibility study through implementation. A major portion of the course is a case study involving the design of a microcomputer-based system for inventory and accounts receivable for a small business.
Prereq: CIS 115 or CIS 150

CIS 292  Cooperative Work Experience in CIS (X) 1 to 3 cr
Supervised employment in a local organization which employs a computer in performing some tasks, combined with a seminar coordinating the employment situation with educational experience.
Prereq: Accumulation of at least 9 credits in CIS courses

COOPERATIVE EDUCATION

COE 297  Cooperative Education I (X) 3 cr
Provides students with an opportunity for experiential learning in a work setting that is directly related to their field of study. Students gain experience in full/part-time and on/off campus settings in order to gain and/or increase skills and knowledge in a particular field. Students attend a weekly seminar where they discuss on-the-job issues with peers who are also currently involved in Cooperative Education.
Prereq: Completion of 18 college level credits; 2.5 GPA; ENG 101, 103, or 105; must register for course with Career Center staff
COE 298 Cooperative Education II (X) 3 cr
Provides further opportunity for experiential learning directly related to student’s field of study. Students gain experience in full/part-time and on/off campus settings and attend a weekly seminar. In the seminar, students focus on broad work related issues as well as prepare for the job search. Topics include ageism, racism, ADA, glass ceiling, sexual harassment in the workplace, portfolio development and job search planning.
Prereq: Completion of 24 college level credits; 2.5 GPA; ENG 101, 103, or 105; COE 297; must register for course with Career Center staff.

CRIMINAL JUSTICE

CRJ 101 Introduction to Criminal Justice (A) 3 cr
Agencies and processes involved in the criminal justice system including the legislature, the police, the prosecutor, the public defender, the courts, and corrections. An analysis of the roles and problems of the criminal justice system in a democratic society with an emphasis upon inter-agency relations and checks and balances.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

CRJ 103 Criminal Law (A) 3 cr
The legal definition of crime and defenses; purposes and functions of the substantive criminal law; historical foundations; the limits of the criminal law.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

CRJ 105 Police Process (X) 3 cr
Social and historical perspectives on the police: police role and career; police discretion; police values and cultures; police organization and control.
Prereq: CRJ 101 or permission of instructor.

CRJ 107 Adjudication Process (X) 3 cr
Role and structure of prosecution, public defense and the courts; basic elements of the substantive criminal law; procedural law and its relation to constitutional guarantees.
Prereq: CRJ 101 and 103, or permission of instructor.

CRJ 109 Corrections Process (X) 3 cr
Post-conviction correction process: the development of correctional philosophy, theory and practice; a description of institutional operation, programming and management; community-based correctional probation and parole. Field trips are required.
Prereq: CRJ 101 or permission of instructor.

CRJ 113 Juvenile Justice Process (A) 3 cr
Definition of delinquent behavior; contributing social problems; adolescence as a subculture; the adjudication process of juveniles; philosophy and practice; treatment procedures.
Prereq: CRJ 101 or permission of instructor.

CRJ 121 Criminology (A) 3 cr
Deviant behavior as it relates to the definition of crime; crime statistics; theories of crime causation; crime typologies.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

CRJ 131 Social Issues in Criminal Justice (A) 3 cr
Designed to increase personal, professional, and academic awareness on contemporary issues in the criminal justice system, this course provides students with opportunities to investigate social issues such as racism, sexism, and domestic violence. At the end of the course, students have personal and practical awareness of these issues and their effects in the criminal justice system.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

CRJ 203 Criminal Investigation (X) 3 cr
Fundamentals of investigation; crime scene search and recording, collection and preservation of physical evidence; scientific aids; modus operandi; sources of information; interview and interrogation; follow-up and case preparation.
Prereq: CRJ 101, 103, or permission of instructor.

CRJ 209 Community Policing in the 21st Century (X) 3 cr
Provides a practical understanding of the evolution and practice of community policing. The course examines the contrasts between traditional and community policing philosophies. Students are introduced to the skills necessary for the development of viable police/community partnerships. Through realistic exercises, students learn useful problem solving techniques which are a core element of the community policing strategy. Students also explore ethical issues in a community policing environment, obstacles to implementation, and future trends.
Prereq: CRJ 105 or permission of instructor.

CRJ 215 Field Experience (X) 3 cr
An optional supervised field experience with an approved agency within the criminal justice system. The integration of classroom theory with practical experience. Placements are made at the discretion of the criminal justice faculty consistent with the policies of cooperating agencies.
Prereq: CRJ 101, 103, or permission of instructor.

CRJ 219 Issues in Constitutional Law (X) 3 cr
An examination of those provisions of the Constitution that directly relate to both federal and state law enforcement, and limitations placed on the enforcement activity through constitutional interpretation.
Prereq: CRJ 101, 103, or permission of instructor.
**DANCE**

**DAN 101 Introduction to Dance (HC) 3 cr**
Provides students with an introduction to the fundamentals of dance, and exposure to a wide range of different styles of dance, both western and non-Euro-American. The course includes a daily technique class with instructor or guest teacher, lectures and class discussions, video viewing, and outside-of-class reading assignments. Styles of dance introduced and experienced in the course may include: jazz, ballet, African, tap, Middle Eastern dance, Isadora Duncan dance, social and folk dance, modern, Classical Indian dance, Renaissance, and Baroque dance.
*Preqc: None

**DAN 102 Pilates Mat Work (X) 1 cr**
An introduction to the Pilates method of body conditioning. The Pilates method is a unique system of stretching and strengthening the muscles. The Pilates series of floor mat exercises strengthens and tones muscles, improves posture, flexibility and balance. The mat work movements and philosophy support an understanding of functional anatomy and reeducate the body about correct alignment. Through the work, students develop a strong center and suppleness. Students may repeat this course once for a maximum of two credits.
*Preqc: None

**DAN 103 Jazz Dance I (HL) 1-3 cr**
An introductory course in jazz dance. Classes consist of a full body warm up, and basic dance exercises to improve strength, flexibility, balance, and coordination. Students learn and practice the movement vocabulary essential to the jazz style, including body isolations, propulsive and syncopated rhythms, and standard jazz style traveling steps. The course presents the history of jazz dance as a fusion form with African roots, and its impact on concert dance and the entertainment industry through lecture, video viewing, outside-of-class reading, and assigned performance attendance. Students may earn a total of three credits in DAN 103.
*Preqc: None

**DAN 104 Jazz Dance II (HL) 3 cr**
A continuation of the study and practice of the basic elements of dance, with emphasis on movement vocabulary essential to the jazz style. The course presents the history of jazz dance as a fusion form with African roots, and its impact on concert dance and the entertainment industry through lecture, video viewing, outside-of-class reading, and assigned performance attendance. *Preqc: 3 credits of DAN 103, or permission of instructor

**DAN 105 African Dance I (HL) 1-3 cr**
An introductory course in African Dance. Students learn traditional movements, rhythms, and dances from a variety of African cultures and countries. Lectures on African history, geography, and culture provide a background for understanding the importance of dance in African life. Assignments may include attending performances outside of class. Students may earn a total of three credits in DAN 105.
*Preqc: None

**DAN 106 African Dance II (HL) 3 cr**
Continued practice of the traditional movements and dances of various African cultures. Increased emphasis on rhythmic awareness, coordination and performance style inherent in African dance. Lectures on African history, geography, and culture provide a background for understanding the importance of dance in African life. Assignments may include attending performances outside of class.
*Preqc: 3 credits of DAN 105, or permission of instructor

**DAN 107 Ballet I (HL) 1-3 cr**
An introduction to the study of classical ballet. Students learn the ballet terminology that denotes the traditional position of the feet, arms, and body, and the basic ballet steps. Each class includes barre work, center floor exercises to improve balance and coordination, and traveling across the floor combinations incorporating jumps and leaps. The course presents the rich history and theory of ballet, and its widespread cultural impact through lectures, video viewing, outside-of-class reading, or assigned performance attendance. Students may earn a total of three credits in DAN 107.
*Preqc: None

**DAN 108 Ballet II (HL) 3 cr**
A continuation of the study of classical ballet. Students learn the ballet terminology that denotes the traditional position of the feet, arms, and body, and the basic ballet steps. Each class includes barre work, center floor exercises to improve balance and coordination, and traveling across the floor combinations incorporating jumps and leaps. The course presents the rich history and theory of ballet, and its widespread cultural impact through lectures, video viewing, outside-of-class reading, or assigned performance attendance.
*Preqc: 3 credits of DAN 107, or permission of instructor

**DAN 110 Caribbean Dance I (HL) 1-3 cr**
An introductory study of Caribbean dances with West African roots. Students learn the traditional movements, rhythms, songs, and chants of selected dances from a variety of Caribbean countries and Brazil, such as Ibo and Nago from Haiti, and Samba from Brazil. Using lectures and video presentations students explore the history of the dances and the cultural links between Africa, the Americas, and the Caribbean. Students learn how these dances function within their cultural context. Assignments may include attending performances outside of class. The course may be repeated for a maximum of 3 credits.
*Preqc: None
Credit Courses

DAN 111 Modern Dance I (HL) 1-3 cr
An introduction to modern dance. Students learn the terminology and practice the fundamental movement vocabulary of modern dance. Classes consist of a full body warm-up, specific modern dance exercises, traveling step patterns, short dance combinations, and improvisational assignments. Class activities are designed to increase strength, flexibility, coordination, rhythmic awareness and musicality, and self-expression. The course presents the history, theory and significance of modern dance through lectures, video viewing, outside-of-class reading, or assigned performance attendance. Students may earn a total of three credits in DAN 111.
Prereq: None

DAN 112 Modern Dance II (HL) 3 cr
A continuation of the study of modern dance. Students gain proficiency in movement fundamentals, learning and performing dance combinations and locomotor movements to various rhythms and styles of music in large and small groups. The course presents the history, theory and significance of modern dance through lectures, video viewing, outside-of-class reading, or assigned performance attendance.
Prereq: 3 credits of DAN 111, or permission of instructor

DAN 114 Tap Dance I (HL) 1-3 cr
Introduction to the basic tap dance steps and their style of performance, in conjunction with general concepts of dance technique. Students learn traditional tap-step patterns such as time steps and waltz clog, and short combinations. The course presents tap history, including its development as a fusion of African and European dance-music forms through lectures, video viewing, outside-of-class reading and assigned performance attendance. Students may earn a total of three credits in DAN 114.
Prereq: None

DAN 115 Tap Dance II (HL) 3 cr
A continuation of the study of tap dance, with increasing complexity and length of patterns. Students focus on clarity of rhythm and tap sounds, and body coordination, while working on style and expression. The course presents tap history, including its development as a fusion of African and European dance-music forms through lectures, video viewing, outside-of-class reading and assigned performance attendance.
Prereq: 3 credits of DAN 114, or permission of instructor

*DAN 116 Middle Eastern Dance I (HL) 1-3 cr
An introductory course in Middle Eastern Dance. Instruction includes the historical and social context in which the dance is traditionally performed, and general concepts of dance technique and practice. Students primarily learn Middle Eastern “Belly Dance,” which functions as a form of social dance and/or entertainment. The class also studies regional or national dances, such as Lebanese debke, and dance steps to the 9/8 and 6/8 rhythms of Turkey and Armenia. Video viewing and outside-of-class reading assignments augment in-class practice. Students may earn a total of three credits in DAN 116.
Prereq: None

DAN 117 Middle Eastern Dance II (HL) 3 cr
A continuation of the study of the movements, steps, and aesthetics of Middle Eastern Dance within the historical and social context in which it is customarily performed. Students refine their ability to perform traditional movements with emphasis on personal expression, correct performance style and quality, the ability to respond appropriately to various tempos, rhythms and meters, and the ability to learn choreographed dances or to improvise. Video viewing and outside-of-class reading assignments augment in-class practice.
Prereq: 3 credits of DAN 116, or permission of instructor

*DAN 120 Dance in Culture (HC) 3 cr
Designed to introduce students to dance as a universal element of human culture. Students learn how dance functions within different societies as celebration, religion and ritual, socialization and courtship, as well as performance. Through outside reading, video and film viewing, in-class discussion, and dancing, students gain an understanding of diverse dance traditions, including non-European-American forms.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

DAN 121 Dance History (HC) 3 cr
Survey course of the major events in the history of western theatrical dance. Topics covered include Renaissance court dance, Baroque dance, Romantic, Classical, and Neo-Classical Ballet; Diaghilev’s Les Ballets Russes; the emergence of modern dance in the 20th century; Black dance; Selected figures of dance history discussed, such as Louis XIV, Marie Taglioni, Isadora Duncan, Martha Graham, Katherine Dunham, George Balanchine. Class format includes lecture, outside reading and in-class video and film viewing.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

DAN 130 Choreography/Performance (HL) 3 cr
A study of the theory and practice of choreography. Students create their own dances, both solo and group pieces. The course explores the use of a variety of musical styles as accompaniment for dance, as well as other forms of accompaniment such as text or poetry. Students refine and rehearse selected dances to be performed in the semester’s dance concert. Student choreographers gain practical experience.
enrollment in a dance studio course.

**DAN 201 Dance Repertory Group:**
- **Mixed Company (HL) 3 cr**
  Provides an opportunity for students to learn, rehearse, and perform dances in a variety of styles in area schools, community centers, and at special events. When appropriate, students assist in teaching dance classes and give lecture/demonstrations. Students perform and rehearse outside of class. The course may be repeated for a maximum of 6 credits.
  **Prereq:** Concurrent enrollment in a dance studio course.

**DAN 203 Jazz Dance III (HL) 3 cr**
- An intermediate course in jazz dance. Students continue to refine skills and movement vocabulary of the jazz style. Increased emphasis on performance skills, clarity of rhythm and line, expansion of range of movement, and personal expression. The course presents the history of jazz dance as a fusion form with African roots, and its impact as a performance style and in the entertainment industry through lecture, video viewing, outside-of-class reading, and assigned performance attendance.
  **Prereq:** DAN 104, or permission of instructor.

**DAN 204 Jazz Dance IV (HL) 3 cr**
- A conclusion of the intermediate study of jazz dance. Students continue to refine skills and movement vocabulary of the jazz style at the intermediate level. Increased emphasis on clarity of rhythm and line, expansion of range of movement, and personal expression. Assignments may include outside-of-class reading, video viewing, and performance participation.
  **Prereq:** DAN 203.

**DAN 205 African Dance III (HL) 3 cr**
- An intermediate course in African dance. Students learn to execute polyrhythmic movement, and understand the relationship between the live drumming and dances. Students learn and practice increasingly complex movement combinations and choreography which incorporate songs of various African languages and integral parts of the dance. The course provides a background for understanding the importance of dance in African life through lectures on African history, geography, and culture. Assignments may include attending performances outside of class.
  **Prereq:** DAN 106, or permission of instructor.

**DAN 206 African Dance IV (HL) 3 cr**
- A conclusion of the intermediate study of African dance. Students continue to refine the performance of polyrhythmic movement, African songs, and complex choreography and traditional dances. Students learn to improvise/choreograph and perform short dance segments using the traditional movement vocabulary and style. The course provides a background for understanding the importance of dance in African life through lectures on African history, geography, and culture. Assignments may include attending performances outside of class.
  **Prereq:** DAN 205.

**DAN 207 Ballet III (HL) 3 cr**
- An intermediate course in classical ballet with emphasis on increased technical skill. Students learn principles of epaulement, placement, and multiple turns. Students may dance en pointe with instructor's approval. The course presents longer, more intricate combinations and repertoire, the rich history and theory of ballet, and its widespread cultural impact through lectures, video viewing, outside-of-class reading, or assigned performance attendance.
  **Prereq:** DAN 108, or permission of instructor.

**DAN 208 Ballet IV (HL) 3 cr**
- A conclusion of the intermediate study of classical ballet. The course emphasizes performance skills. Students integrate technique with personal expression, and continue to learn and practice combinations and dances from the classical and contemporary repertoire. The course presents the rich history and theory of ballet, and its widespread cultural impact through lectures, video viewing, outside-of-class reading, or assigned performance attendance.
  **Prereq:** DAN 207.

**DAN 211 Modern Dance III (HL) 3 cr**
- An intermediate course in modern dance with increased emphasis on performance skills. The course presents specific techniques of modern dance pioneers, such as Graham, Humphrey-Weidman, Cunningham, and Taylor. Students learn and execute movement sequences and repertoire dances with attention to quality, style, musicality, and expressiveness. Students are encouraged to work on individual creativity and development of personal movement style. The course presents the history, theory, and significance of modern dance through lectures, video viewing, outside-of-class reading, or assigned performance attendance.
  **Prereq:** DAN 112, or permission of instructor.

**DAN 212 Modern Dance IV (HL) 3 cr**
- A conclusion of the intermediate study of modern dance with continued emphasis on the development of individual performance quality and style and the mastery of dance technique in the modern dance tradition. Students are encouraged to explore their individual movement ideas through choreography and improvisation. The course presents the history, theory, and significance of modern dance through lectures, video viewing, outside-of-class reading, or assigned performance attendance.
  **Prereq:** DAN 211.
DAN 214  Tap Dance III (HL)  3 cr
An intermediate course in tap dance with emphasis on the acquisition of performance skills, rhythmic accuracy and speed. Students learn traditional repertoire and time steps with their rhythmic breaks and explore improvisation. The course presents tap history, including its development as a fusion of African and European dance-music forms through lectures, video viewing, outside-of-class reading, and assigned performance attendance. 
Prereq: DAN 115, or permission of instructor

DAN 215  Tap Dance IV (HL)  3 cr
A conclusion of the intermediate study of tap dance. Students continue to refine technical and performance skills, improve rhythmic accuracy and speed and to learn and practice traditional repertoire, time steps with their rhythmic breaks, and improvisation. The course presents tap history, including its development as a fusion of African and European dance-music forms through lectures, video viewing, outside-of-class reading, and assigned performance attendance. 
Prereq: DAN 214, or permission of instructor

ECONOMICS

ECO 101  Principles of Macroeconomics (BC)  3 cr
A study of economic analysis of the national and global economy with discussion of current issues. This course includes business cycles, unemployment, inflation, economic growth, banking systems, monetary and fiscal policies. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 095

ECO 102  Principles of Microeconomics (BC)  3 cr
A study of the economics of the firm, the consumer, and their interaction in the domestic and global marketplace. This course includes resource allocation, supply and demand, elasticity, market structure, labor, and an economic perspective of current issues facing business and society. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 096 or concurrent enrollment in MAT 096

ECO 113  Environmental Economics (BC)  3 cr
Introduction to the contemporary problems of environmental quality. Economic analysis of the institutions and practices leading to pollution of air, water, and land resources. Study of alternative public policies for improving environmental quality. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*ECO 129  Economics of Emerging Nations (BC)  3 cr
Issues of economic growth in emerging nations. Topics include population, poverty, income distribution, property rights, rural development, and the role of trade and international investment. 
Students use case studies or other methodologies to examine developing nations and people groups. 
Prereq: Placement beyond or satisfactory completion of ENG 090, COL 090, and MAT 090

ECO 205  Sports Economics (L)  3 cr
An economic analysis of sports teams, leagues, and institutions. Topics include antitrust, public funding of sports venues, labor relations, competitive balance, wagering markets, athletic compensation, amateurism, and application of economic principles to sports settings. 
Prereq: ECO 101 or ECO 102

EDUCATION

EDU 101  Introduction to Early Childhood Education (A)  3 cr
Purposes of early childhood education and the role of the teacher. Considers the developmental needs of young children. Attention to physical environment, recording and reporting progress and administration. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

EDU 103  Creative Experiences in Art, Music, and Drama (X)  3 cr
Deals with the methods, content, and theory of the arts as they relate to the young child. Students will develop leadership abilities and their ability to research, plan, and implement developmentally appropriate activities in the arts for young children. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; ECE major, or permission of instructor

EDU 111  Introduction to Special Education (L)  3 cr
Overview of development, physical, and behavioral disabilities; basic principles of intervention techniques; overview of legislation (Chapter 766) and its implications for the young child. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

EDU 121  Reading and Language for the Young Child (X)  3 cr
Emphasizes the importance of effective communication and implements the belief that skills, abilities, and attitudes needed for such communication are identifiable and teachable. The integration of all the language arts into a curriculum for young children is stressed. 
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

EDU 123  Educating the Infant and Toddler (X)  3 cr
Emphasis is directed toward the education of the child from infancy to two years, nine months in group and home settings. Participants learn about early development, physical space, selection, and
EDU 133 Day Care Administration (X) 3 cr
Explores the intricacies of managing a center for young children. Topics include the children, the curriculum, the environment, personnel management and development, budget and funding, legal concerns, state and local regulations and working with the parents and the community to provide a sound program for young children.
Prereq: EDU 201; Recomm: Office of Child Care Services (OCCS) Lead Teacher Qualified

"EDU 139 Women in Education (L) 3 cr
A study of women in education that explores the historical perspective of women's schooling, their contributions to the field of education, and contemporary children's experiences in school. Emphasis on the strategies of inclusive teaching.
Prereq: WST 115 or permission of instructor

EDU 141 Building Teacher-Parent Relationships (X) 3 cr
Examines the inherent complexities of the parent-teacher/caregiver relationship and explores techniques for improving communication. Diverse family structures will be examined and discussed in view of their implications for teachers, parents, and children with attention to increasing parent involvement and creating successful partnerships with parents.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

EDU 201 Early Childhood Curriculum (X) 3 cr
Organization of curriculum including the research, theory, methods, and materials necessary in a classroom of young children. Emphasis on reading readiness and language skills.
Prereq: EDU 101 or permission of instructor

EDU 205 Philosophy of Education (A) 3 cr
Examines the role of school in society, the organization and history of American education, the historical foundations of education and its theorists. The relationship between theoretical perspectives and current issues emphasized.
Prereq: ENG 101, 103, or 105

EDU 215 Student Teaching I (X) 6 cr
Provides work experience in an early childhood setting with responsibility for setting up a safe and healthy environment; providing for social and emotional development in children; and becoming a professional teacher. Placement in a teaching site for EDU215 is not guaranteed and depends upon agreement among the teaching site, the EDU faculty, and the student.
Prereq: EDU 101 and permission of the program coordinator

EDU 216 Student Teaching II (X) 6 cr
Provides work experience in an early childhood setting with extensive responsibility for the total management of a classroom; experience working with families; and providing an environment which promotes physical and intellectual competence in children. Placement in a teaching site for EDU216 is not guaranteed and depends upon agreement among the teaching site, the EDU faculty, and the student.
Prereq: EDU 215 or permission of instructor

EDU 243 Leadership in Early Education and Care (A) 3 cr
Offers early education and care professionals who work closely with children and families the opportunity to expand their roles as leaders and advocates in early childhood programs. Through reflection and analysis, students consider the historical foundations of early childhood education as well as the current socio-economic systems and policies which affect the field. The course examines theoretical frameworks of individual and organizational leadership. In addition, the course addresses concrete skill development, including coalition building, effective organizing and advocacy strategies, communications and media work.
Prereq: Completion of or concurrent enrollment in EDU 216 or permission of instructor contingent upon experience in the field of early education and care for at least a year

**EMERGENCY MEDICAL SERVICES**

EMS 101 Emergency Medical Technician – Basic (X) 6 cr
Provides training in the primary care of injuries; semiautomatic external defibrillator (AED), acute illnesses, birth, and people in emergency situations. Students learn rescue extrication, transportation, communication, medical-legal aspects, and ambulance training. The course is taught using lectures, slides, demonstration, and practice. Students completing the course are eligible for the Massachusetts Basic EMT examination.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

EMS 105 Principles of Advanced Life Support (X) 5 cr
Introduces the certified EMT to principles of Department of Transportation Advanced Life Support curriculum. Students study roles and responsibilities, EMS systems, legal and ethical issues, patient assessment, fundamentals of respiration and advanced airway management. The course includes the fundamentals of perfusion and techniques of intravenous therapy.
Prereq: Current EMT certification. Placement beyond or satisfactory completion of COL 090, ENG 090, MAT 090. Concurrent enrollment or completion of BIO 108 or equivalent
Credit Courses

EMS 106  EMT – Intermediate Internship  
(X) 2 cr
Provides supervised clinical and field experiences for EMT–Intermediate Students. Students attend two class meetings and complete all Massachusetts and program clinical and field requirements within prescribed deadlines. Students are eligible to take the Massachusetts EMT-Intermediate Examination upon successful course completion. Only non-paramedic certificate students may enroll in this course.
Prereq: Successful completion of EMS 105

EMS 202  Pharmacology  
(X) 2 cr
Introduces pharmacology, pharmacokinetics and pharmacodynamics. The course includes a review of the metric system. Students calculate drug dosage concentrations and IV medication infusion rates. The course introduces basic concepts of pathophysiology.
Prereq: Successful completion of EMS 105 or permission of instructor

EMS 203  Management of Medical and Shock-Trauma Emergencies  
(X) 8 cr
Expands upon pharmacological interventions and integrates patient management skills with medical and trauma situations encountered by paramedics. The course includes the pathophysiology and management of disease processes and shock-trauma conditions. It provides special considerations of neonatology, pediatrics, geriatrics, medical incident command and rescue situations. Students begin limited clinical experiences. Students receive Pre-Hospital Trauma Life Support (PHTLS) certification and Pediatric Education for Prehospital Professionals (PEPP-Advanced Life Support) certification upon successful course completion.
Prereq: Successful completion of EMS 202 or permission of instructor

EMS 210  Paramedic Clinical  
(X) 2 cr
Provides student with practice of invasive skills and patient management under the supervision and direction of licensed hospital staff. Students attend one class meeting and produce a research paper based on clinical experiences. Students attend Pediatric Advanced Life Support seminar (off-campus) and receive Pediatric Advanced Life Support (PALS) certification upon successful seminar completion.
Prereq: Successful completion of EMS 204. Concurrent registration in EMS 211.

EMS 211  Paramedic Fieldwork Internships I  
(X) 2 cr
Provides assignments with certified paramedics. Students perform pre-hospital treatment under supervision.
Prereq: Successful completion of EMS 204. Concurrent registration in EMS 210

EMS 212  Paramedic Fieldwork Internship II  
(X) 2 cr
A continuation of fieldwork assignments with certified paramedics. The course includes fieldwork rotation at a high-volume EMS system outside of New England. The student is eligible to take Massachusetts and National Registry qualifying examinations upon successful completion of the course.
Prereq: Successful Completion of EMS 211

ENGINEERING

EGR 101  Surveying  
(X) 3 cr
Elements of plane surveying, taping, theory and use of instruments, leveling, traversing, and computation. Lab required.
Prereq: MAT 107 or its equivalent; may be taken concurrently

EGR 103  Engineering Orientation  
(X) 1 cr
An introduction to the field of engineering. The work of the technician and his relationship to the engineer; Typical engineering projects.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

EGR 107  Engineering Graphics  
(X) 3 cr
Introduction to engineering graphics concepts and applications. Lettering, scaling, orthographic projection, pictorials, sections, auxiliary views, dimensioning, tolerances, fasteners. Sketching and some instrument work employed. Introduction to computer-aided drafting included.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; Recomm: Understanding of coordinate geometry

EGR 205  Statics  
(X) 3 cr
Prereq: PHY 101 or 111; MAT 151 or 201 concurrently

EGR 206  Mechanics of Materials  
(X) 3 cr
Axial and shear stress and strain, torsion, bending, shear and moment diagrams. Deflection, columns, connections, indeterminate beams.
Prereq: EGR 205
ENGLISH

ENG 090  College Writing Strategies (D)  4 cr
Develops the writing strategies, critical thinking skills, research methods, and confidence required in English Composition I and other college-level courses. This course covers word processing and methods of using print texts, electronic texts and databases, as well as techniques for evaluating those resources. This course does not satisfy the English composition requirements of the College and does not fulfill associate degree credit requirements. “C-“ is the lowest passing grade in this course.
Prereq: None

COL 090  College Reading Strategies (D)  4 cr
Develops reading study skills for comprehension, vocabulary building, and critical reading and thinking. Students learn techniques for effectively and efficiently obtaining information from reading materials, especially textbooks. The course covers word processing and methods for conducting research using print texts, electronic texts and databases, as well as techniques for evaluating those resources. This course does not satisfy the English composition requirements of the College and does not fulfill associate degree credit requirements. “C-“ is the lowest passing grade in this course.
Prereq: None

COL 095  College Writing and Reading Strategies (D)  3 cr
Improves reading, writing, critical thinking, and study skills, using each to reinforce the development of the others. This course is a bridge between ENG 090/COL 090 courses and Composition I, although enrollment is not limited to students who have taken developmental courses. Students focus on analysis and comprehension of reading using print and electronic texts from their other college courses. The course also offers extensive practice writing essays, summaries, personal responses, and answers to essay questions, as well as a grammar review and individualized instruction. In addition, students review word processing and methods of conducting and evaluating research using print and electronic texts. This course does not satisfy the English composition requirements of the College and does not fulfill associate degree credit requirements. “C-“ is the lowest passing grade in this course.
Prereq: None

English Composition I (ENG 101, 103, 105)
A study of the various aspects of reading and writing expository prose. The coursework emphasizes analytical reading, critical thinking, oral and written communication skills, and research and documentation. The course also covers basic word processing and e-mail skills, as well as instruction in the mechanics of locating and evaluating information in electronic texts and databases. Three options are available; students receive credit for only one.

ENG 101  English Composition I: Expository Writing (E)  3 cr
Focuses on the writing of essays. This course offers students the opportunity to understand writing as a process and to develop clear, effective presentation of ideas. The student develops an awareness of the relationship between writer and reader. The course includes word processing methods and research and documentation using print and electronic texts. Students may receive credit for only ENG 101 or ENG 103 or ENG 105.
Prereq: COL 090 and ENG 090, or satisfactory placement test score

ENG 103  English Composition I: Purposes and Technique of Prose (E)  3 cr
Emphasizes expository writing for students who feel confident of their skills in analysis and organization. The student develops an understanding of voice in writing. The course includes word processing methods and research and documentation using print and electronic texts. Students may receive credit for only ENG 101 or ENG 103 or ENG 105.
Prereq: COL 090 and ENG 090, or satisfactory placement test score

ENG 105  English Composition I: The Impact of Language (E)  3 cr
Develops a personal writing style to express the results of critical and analytic thinking. This course is designed for the student who enjoys reading and writing and includes assignments from essays, novels, poetry, and other materials which serve as models and sources for written exercises. The student explores the history of the English language. The topics for discussion and writing include the languages of race, gender, advertising, and politics. The course includes word processing methods and research and documentation using print and electronic texts. Students may receive credit for only ENG 101 or ENG 103 or ENG 105.
Prereq: COL 090 and ENG 090, or satisfactory placement test score

ENG 109  English Grammar and Usage (HL)  1 cr
A survey of the elements, structures, mechanics, conventions, and rhetorical devices by which writers make their meanings clear to their readers.
Prereq: None
English Composition II (ENG 112, 114, 116)
A study of the imaginative and symbolic use of language. The coursework emphasizes the development of critical standards and written responses to fiction, poetry, drama, and in some options, to other print and electronic sources. This course focuses on analysis, critical thinking, and writing. Three options are available; students receive credit for only one.

ENG 112 English Composition II:
Exploring Literature (E) 3 cr
Examination and analysis of the three major literary genres: prose fiction, poetry, and drama. Writing assignments emphasize the formal, thoughtful, “critical” paper, but do not preclude more personal and creative responses. Students develop analytical standards for both reading and writing about literature. The course includes selections from a wide variety of authors. Students may receive credit for only ENG 112 or ENG 114 or ENG 116.
Prereq: ENG 101, 103, or 105

ENG 114 English Composition II:
Literature and Creative Writing (E) 3 cr
Examination of the creative modes of writing: short fiction, poetry, drama, and song. The writing assignments include creative experiments and literary analysis. The student develops skills in the production as well as understanding of literary art. Students may receive credit for only ENG 112 or ENG 114 or ENG 116.
Prereq: ENG 101, 103, or 105

ENG 116 English Composition II:
Analysis of Literature and Film (E) 3 cr
Study of film, fiction, poetry, and drama from Western and non-Western cultures. Coursework involves analysis of other electronic media which may include television, radio, and computer-mediated text. Students produce written work stressing critical evaluation and participate in classroom analysis of printed and electronic text. Students may receive credit for only ENG 112 or ENG 114 or ENG 116.
Prereq: ENG 101, 103, or 105

ENG 123 Report Writing (L) 3 cr
Intense study and practice in the writing of letters, memos, and reports (proposals or feasibility studies) related to specific technical and service occupations. Instruction in persuasive writing, presentation techniques, resume writing, use of graphics, research, and documentation. Term project required.
Prereq: ENG 101, 103, or 105

ENG 201 Western Literature I (HC) 3 cr
Reading and critical analysis of selected literary masterpieces from early Greek through the Elizabethan era.
Prereq: ENG 112, 114, or 116

ENG 202 Western Literature II (HC) 3 cr
Reading and critical analysis of selected literary masterpieces from the Elizabethan era to the present.
Prereq: ENG 112, 114, or 116

ENG 203 American Literature I (HC) 3 cr
Critical study of significant achievements in American literature from the Puritan period through the period of the Reconstruction. Emphasis on the growth of an American literature, its modes and purposes.
Prereq: ENG 112, 114, or 116

ENG 204 American Literature II (HC) 3 cr
Critical study of significant achievements in American literature from the late 19th century to the present. Emphasis on literary modes and thought as they reflect the modern society.
Prereq: ENG 112, 114, or 116

ENG 205 British Literature I (HC) 3 cr
Readings in English literature from the Anglo-Saxon period to the late 17th century. Major emphasis on Chaucer and Shakespeare.
Prereq: ENG 112, 114, or 116

ENG 206 British Literature II (HC) 3 cr
Readings in English literature from the late 17th century to the present.
Prereq: ENG 112, 114, or 116

ENG 207 Advanced Creative Writing I (HC) 3 cr
Techniques and approaches in narrative, lyric, and dramatic forms of writing.
Prereq: ENG 112, 114, or 116. Note: This course does not fulfill the Liberal Arts literature requirement.

ENG 208 Advanced Creative Writing II (HC) 3 cr
Techniques in narrative, lyric and dramatic forms of writing for students who have completed ENG 207 and wish to continue exploring the problems of creative writing.
Prereq: ENG 112, 114, or 116 and ENG 207. Note: This course does not fulfill the Liberal Arts literature requirement.

ENG 211 Modern Novel (HC) 3 cr
Themes and methods of novelists of the modern western world. This course explores such topics as alienation and the failure of communication and gives attention to modern experiments in point of view, structure, and style.
Prereq: ENG 112, 114, or 116

ENG 219 Ethnic Literature (HC) 3 cr
A study of American literature through writers representative of various ethnic groups in the United States.
Prereq: ENG 112, 114, or 116

*ENG 219 Ethnic Literature (HC) 3 cr
ENG 221 Shakespeare (HC) 3 cr
A critical study of a selected group of plays by Shakespeare, approached by theme. The course will also give some attention to contemporary presentations or adaptations. 
Prereq: ENG 112, 114, or 116

ENG 224 Technology and Literature (HC) 3 cr
A critical examination of the impacts of technology on literature as expressed in poetry, fiction, essay, film, and electronic text. Students consider how technological developments from factory production and the railroad to the personal computer and genetic engineering have influenced literature, art, thought, communication, work, and community. 
Prereq: ENG 112, 114, or 116

ENG 228 Queer Literature (HC) 3 cr
A study of various genres and periods of literacy texts by lesbian, gay, bisexual, and transgender writers. The course includes lectures and classroom discussions on the texts and their cultural and historical contexts. Students discuss how the texts relate to expressions of, and arguments about, being queer in a predominantly heterosexual world. Readings also address more general issues of marginalization, such as those involving gender, race, class, and age. The course is appropriate for any student interested in the way literature expresses human difference. 
Prereq: ENG 112, 114, or 116

ENG 229 Gothic Literature (HC) 3 cr
A critical and analytical study of the gothic tradition in both classic and modern supernatural literature, with some attention to film. Students examine the significance of the supernatural horror tale in its larger literary, social, and cultural context. 
Prereq: ENG 112, 114, or 116

ENG 235 Survey of Latin American Literature (HC) 3 cr
A study of Latin American writings from the pre-Columbian era to the present. Emphasis on the social, political, and cultural forces that have shaped the voices of contemporary Latin American literature. Authors include Bartolome de las Casas, Andres Bello, Ruben Darío, Clarinda Mallo de Turner, Jorge Borges, Isabel Allende, and Gabriel Garcia Marquez. 
Prereq: ENG 112, 114, or 116

ENG 240 Special Topics in Literature (HC) 3 cr
A study of relevant topics in English not covered in the current selection of courses. The English Department will determine the topic each semester. 
Prereq: ENG 112, 114, or 116

ENG 241 Survey of Children’s Literature (HC) 3 cr
Wide reading of classic and current children’s literature, including the history and development of the genre. This course examines criteria for judging children’s books and reviews classroom techniques in early childhood education. 
Prereq: ENG 112, 114, or 116

ENG 243 Modern Poetry (HC) 3 cr
An examination of modern poetry with an emphasis on interpretation and analysis of voice, language, sound, and form. This course provides an in-depth study of some major innovators as well as a study of other contemporary poets. 
Prereq: ENG 112, 114, or 116

ENG 247 Women in Literature I (HC) 3 cr
A study of works by women writers through the 19th century. Students discuss literature in various genres within the historical and social context of the times, in relation to early literary movements and from the perspective of a unique female literary tradition. 
Prereq: ENG 112, 114, 116

ENG 248 Women in Literature II (HC) 3 cr
A study of poetry, short fiction, novels, and drama that presents the richness of diversity in the work of women writers from the 20th century to the present. Students focus on the voice of the writer and her use of literary technique as she explores important themes in women’s lives. 
Prereq: ENG 112, 114, 116

ENG 253 Valley/American Literature (HC) 3 cr
A critical study of American literature from the Puritan period to the present with focus on the significant achievements of Valley writers. This course explores the impact of the geographical, social, and cultural environment of the Pioneer Valley on their works. Students study Jonathan Edwards, Emily Dickinson, Mark Twain, Robert Frost, Archibald MacLeish, and other writers. 
Prereq: ENG 112, 114, 116

ENG 261 The Short Story (HC) 3 cr
A survey of the short story as a literary genre from its beginnings in the early 19th century to the present time with emphasis on interpretation and analysis, characters in conflict, point of view, and symbolism. 
Prereq: ENG 112, 114, or 116
ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

ESL 102  Writing—Advanced Beginners Level (X) 3 cr
Focuses on basic writing skills needed for successful participation in American communities, including sentence structure, paragraph structure, mechanics, and introduction to academic writing. Individualized programs are provided as needed. Writing and computer laboratories are required.  
Prereq: ESL 107 or placement by examination

ESL 103  Written English—Intermediate Level (X) 3 cr
Develops students' writing skills for academic and professional use, such as patterns of organizing paragraphs and compositions, basic business letters, exercises in sentence structure and other composition skills. Writing and computer laboratories are required.  
Prereq: ESL 102 or placement by examination

ESL 104  Written English—Advanced Level (X) 3 cr
Emphasizes advanced writing skills in preparation for beginning-level college courses, such as research papers, reading and writing responses, essays, compositions, and grammar of advanced sentence structure. Writing and computer laboratories are required.  
Prereq: ESL 103 or placement by examination

ESL 106  English Grammar—Advanced Beginners (X) 3 cr
Focuses on the systematic study of basic English grammar patterns through reading, writing, listening, and discussion. Individualized programs are provided as needed. Laboratory is required.  
Prereq: Placement by examination

ESL 107  American English Grammar in Context (X) 3 cr
The study of intermediate-level grammar patterns in English, with focus on verb tenses and on parts of speech. This course emphasizes recognition and understanding of grammar patterns in reading and speech, and the development of grammar skills in writing. Laboratory is required.  
Prereq: ESL 106 or placement by examination

ESL 108  American English Grammar in Use (X) 3 cr
Continued study of English verb tenses and parts of speech. The course includes practice of other complex patterns needed for college coursework in English as well as a review of articles and advanced sentence structure. Students will learn accurate and appropriate use of grammar patterns in writing. Laboratory is required.  
Prereq: ESL 107 or placement by examination

ESL 109  Intermediate Grammar Review (X) 2 cr
An intensive grammar workshop for students who have completed ESL 107 or other intermediate ESL grammar courses. Students practice and master what they have learned about basic English verb tenses, question patterns, and subject-verb agreement. Students review grammar through listening, speaking, pronunciation, reading, writing, group work, and discussion.  
Prereq: ESL 107 or placement by examination

ESL 110  ESL Computer Training (X) 1 cr
Introduces English terms for basic keyboarding operations. Students develop techniques and concepts for word-processing using both Macintosh and IBM clone computers. ESL students begin to use electronic mail and learn how to find information on the Internet.  
Prereq: Concurrent enrollment in ESL 103 or placement by examination

ESL 112  Spoken English—Advanced Beginners (X) 3 cr
Emphasizes development of basic vocabulary, pronunciation, listening and speaking skills needed to communicate in class, in the community, and in social situations. Laboratory is required.  
Prereq: Placement by examination

ESL 113  Spoken English—Intermediate Level (X) 3 cr
Emphasizes development of vocabulary, pronunciation, listening and speaking skills through group discussions, role plays, oral presentations, and interactive tasks. Content units reflect student interest in social and global issues and in situations from everyday life. Laboratory is required.  
Prereq: ESL 112 or placement by examination

ESL 114  Spoken English—High Intermediate Level (X) 3 cr
Expands listening and speaking skills for academic activities such as note-taking during class lectures, summarizing and reporting information taken from the media, debating, taking part in discussions, and interviewing. Individual programs in pronunciation and clear speech are provided as needed. Laboratory is required.  
Prereq: ESL 113 or placement by examination

ESL 116  Connections (Intermediate Listening) (X) 3 cr
Emphasizes development of intermediate level English vocabulary, pronunciation, and listening skills through viewing and class discussion of the ESOL video drama “Connect With English.” Course content includes basic aspects of North American culture such as career development, family responsibilities, and U.S. travel. Reading and writing activities provide additional language practice.  
Prereq: Concurrent enrollment in ESL 112 or placement by examination
ESL 117 English Sounds and Spelling (X) 3 cr
Provides practice for non-native speakers in American English pronunciation as it relates to basic patterns of spelling. Techniques from phonetics and phonics help students master “exceptions” or words with irregular spelling and/or pronunciation. Students apply understanding of sounds, rhythm, intonation, spelling of syllables, and spelling rules in creative practice for people with diverse learning styles.
Prereq: ESL 112, ESL 116, or permission of instructor

ESL 118 Advanced ESOL Grammar (X) 3 cr
Advanced topics in English grammar for bilingual students. Topics include verb tenses for narration; adjectives and prepositional phrases for description; active and passive voice; agreement and sentence combining; sentence transitions; time expressions; articles; and vocabulary. Students contract U.S. styles of writing and class participation with writing and class participation styles in other countries.
Prereq: ESL 104, or ESL 108, or permission of instructor

ESL 122 Reading and Vocabulary—Advanced Beginners (X) 3 cr
Introduces strategies for improving reading comprehension, using the dictionary and expanding vocabulary. Students present oral and written book reports and focus on active reading of fiction and non-fiction on a variety of topics. Laboratory is required.
Prereq: Placement by examination

ESL 123 Reading and Vocabulary—Intermediate Level (X) 3 cr
Focuses on reading comprehension, vocabulary development, book reports, note-taking and test-taking strategies for intermediate-level ESL students. Students read fiction, non-fiction, newspapers, and a wide range of subjects to provide a foundation for success in college and the workplace. Laboratory is required.
Prereq: ESL 122 or placement by examination

ESL 124 Reading and Vocabulary—High Intermediate (X) 3 cr
An intensive study of reading processes, college-level material including literature, and many kinds of college tests. Students learn techniques for independent vocabulary acquisition and effective writing about reading material in book reports and other writing assignments. Laboratory is required.
Prereq: ESL 123 or placement by examination

ESL 125 Vocabulary for College Courses (X) 3 cr
For advanced non-native speakers of English who plan to enroll in college programs. The course introduces concepts, essential vocabulary, and study skills which students need in first-year college requirements. Modules of readings and vocabulary include psychology, sociology, anthropology, business, and literature.
Prereq: ESL 124 or placement by examination.
Recomm: Concurrent enrollment in ESL 115, ENG 090, and COL 090

FIRE SCIENCE TECHNOLOGY

FST 101 Introduction to Fire Protection (X) 3 cr
An introduction to fire protection and careers in the fire service. Students survey the history, scope, and resources of the fire service, including reviewing fire department structure and administration. The course provides students with an overview of the chemistry and physics of fire, of the training and support of fire service personnel, and of fire protection systems and equipment. Students gain an understanding of different career directions in the fire service and of the various local, state, and federal agencies that support and oversee fire service professionals.
Prereq: COL 090 and ENG 090, or satisfactory placement test scores

FST 105 Organizational Management (X) 3 cr
An exploration of organizational principles with emphasis on fire department organization. Students study the history, types, methods, and principles of fire department organization, both formal and informal, line and staff. The course places emphasis on supervisory responsibilities and functions.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

FST 109 Hazardous Materials I (X) 3 cr
Includes a review of basic chemistry, storage and handling of hazardous materials, laws, standards and firefighting practices within extreme fire hazard areas. Demonstrations illustrate and supplement the class work.
Prereq: FST 101 and CHE 105 or CHE 111 or permission of instructor or program coordinator

FST 110 Hazardous Materials II (X) 3 cr
A continuation of Hazardous Materials I. This course provides guidance on how to inspect property for possible accidents involving hazardous materials and how to plan for the prevention of such accidents. Students study the storage and transporting of hazardous materials as well as related protective systems and inspection procedures.
Prereq: FST 109

FST 111 Building Construction (X) 3 cr
An exploration of building construction and design with an emphasis on fire protection concerns. The course reviews statutory and suggested local, state, and national guidelines.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
FST 113 Fire Hydraulics (X) 3 cr
A study in incompressible fluids including fluid properties, principles of fluid status, fluid flow system principles, pipe friction and heat loss, flow measurements, pumps, and other hydraulic devices and machinery. Students study the applications of fire protection systems such as sprinklers, standpipes, hoses, nozzles, pumps, and water supply systems. Demonstrations illustrate and supplement the principles developed in the class.
Prereq: Placement beyond or satisfactory completion of COL 090, ENG 090, and MAT 095

FST 125 Fire Prevention, Codes and Ordinances (X) 4 cr
An overview of the organization and function of fire prevention within the fire service. In addition, students study existing fire and building codes and ordinances and their role in providing for the public safety. Students examine the code development and adoption process, code administration, and major code producing organizations. Students become familiar with national standards, especially those contained within the National Fire Protection Association’s Life Safety Code, its referenced standards, and the Building Officials & Code Administration Building Code. Students also study Massachusetts General Law, Chapter 148, and Code of Massachusetts Regulation 527, and local ordinances. Note: Graduation credit can be earned for FST 125 or FST 207 but not both.
Prereq: COL 090 and ENG 090, or satisfactory placement test scores

FST 129 Emergency Incident Management (X) 3 cr
The study of command and control activities at emergencies together with techniques of fire suppression. Topics include pre-incident planning, command organization, incident size-up, and strategic and tactical planning. This course stresses the integration of local, regional, and national emergency management systems.
Prereq: FST 101 or permission of instructor or program coordinator

FST 201 Fire Protection Systems and Equipment I (X) 3 cr
Reviews automatic and manual detection and extinguishing systems, including sprinkler and standpipe systems, inert gases, foam and dry chemicals, temperature and smoke responsive devices, and alarm and signaling systems. Demonstrations illustrate and supplement the class work.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

FST 202 Fire Protection Systems and Equipment II (X) 3 cr
A continuation of Fire Protection Systems and Equipment I for people interested in advanced fire control systems. The course places particular emphasis on sprinkler systems, and covers Halogen agents.
Prereq: FST 201

FST 203 Fire Fighting Tactics (X) 3 cr
Review of fire chemistry, equipment, and fire fighting personnel. Basic fire-fighting tactics and strategy; methods of attack; pre-planning fire problems. Fire situations for analysis and study.
Prereq: FST 101, 103, and 113

FST 205 Fire Causes, Detection, and Investigation (X) 3 cr
Explores the history, development and philosophy of fire investigation and detection. This course includes inspection techniques, gathering evidence and development of technical reports, fundamentals of arson investigation, processing of criminal evidence and criminal procedures related to various state and local statutes.
Prereq: FST 101 or permission of instructor or program coordinator

FST 206 Legal Aspects of Fire Protection (X) 3 cr
Legal rights and responsibilities of fire fighters and departments in performing their duties. This course also examines the range of fire laws affecting property owners and others. Students cover recent developments in government regulations and liability concerns.
Prereq: FST 101 or permission of instructor or program coordinator

FOLKLORE

FLK 217 American Folklore (HC) 3 cr
An introduction to the materials and methods of the study of American folklore, with emphasis on its appreciation, its relevance to the development of literature, and its relationship to lifestyles. Folklore and folk literature of the southern Appalachian serve as models for study.
Prereq: ENG 112, 114, or 116

FLK 218 Storytelling (HC) 3 cr
Folktales from American, European, and other ethnic folklore traditions are examined from a contemporary perspective. Attention given to structure, content, language, literary and social issues, and techniques. Students learn to tell the folktale within the context of their own cultural experiences.
Prereq: ENG 112, 114, or 116
FLK 219 Valley Folklore (HC) 3 cr
An introduction to the materials and methods of American folklore studies with emphasis on specific areas of Valley folklore as evidenced in music, story, art, architecture, dance, customs and festivals, as well as in other manifestations of oral, customary, and material folk traditions. Students work on a class project examining a unique aspect of Valley folklore. Credit can be granted for FLK 217 or FLK 219 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

FRENCH

FRE 101 Elementary French I (HC) 4 cr
Fundamentals of French. Acquisition of language functions, vocabulary structures, and culture through contextualized presentations, interactive activities, and extensive laboratory practice.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

FRE 102 Elementary French II (HC) 4 cr
Prereq: FRE 101, one year of high school French or equivalent, or permission of instructor

FRE 111 French Skills Practice I (X) 2 cr
An intensive immersion workshop conducted in French, for students who have completed at least FRE 101 or who are returning to the study of French. Using the material studied in FRE 101, students will work to practice and internalize the basic building blocks of French in listening, speaking, reading, and writing.
Prereq: FRE 101 or equivalent, or permission of instructor

FRE 201 Intermediate French I (HC) 4 cr
Emphasizes continued acquisition of language functions, vocabulary, idioms, structures, and culture through contextualized presentations, interactive activities, video, and selected readings. The class is conducted in French.
Prereq: FRE 102 or equivalent, or permission of instructor

FRE 202 Intermediate French II (HC) 4 cr
A conclusion of the intermediate study of French. The course emphasizes continued acquisition of language functions, vocabulary, idioms, structures, and culture through contextualized presentations, interactive activities, video, and selected readings. The class is conducted in French.
Prereq: FRE 201 or equivalent, or permission of instructor

FRE 251 French Composition and Conversation I (HC) 4 cr
Development of advanced writing and speaking skills. The course covers representative works of Francophone literature, available cultural readings and periodicals through class discussion and of oral and written assignments. The class is conducted in French.
Prereq: FRE 202 or equivalent, or permission of instructor

FRE 252 French Composition and Conversation II (HC) 4 cr
Continued development of advanced writing and speaking skills. The course covers representative works of Francophone literature, available cultural readings and periodicals through class discussion and of oral and written assignments. The class is conducted in French.
Prereq: FRE 251 or equivalent, or permission of instructor

GEOGRAPHY

GGY 101 Introduction to Geography (HC) 3 cr
Explores major geographic concepts, contemporary world regions and the development of the science of geography. Subjects of discussion range from basic map and globe concepts to population dynamics and economic development. Student use case studies from around the world to increase their awareness of geography.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

GEOLOGY

GEO 101 Physical Geology (NC) 4 cr
Nature and origin of the landscape; features of the earth's surface; common rocks and minerals; agents of erosion; role of earthquakes, volcanoes, and the mountain building process. Particular attention to regional geology. Lab and Field trips are required. Credit can be granted for GEO 101 or GEO 103, but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

GEO 102 Historical Geology (NC) 4 cr
An introduction to the origin and development of the earth, with emphasis on the Eastern United States. Topics include geologic time, myths and science of creation, meaning and interpretation of rocks and fossils. Lab and Field trips are required. Credit can be granted for GEO 102 or GEO 103, but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

GEO 103 Valley Geology (NC) 4 cr
An introduction to the unique geology and geohistory of our region. Topics include rocks, minerals, rivers, glaciers, dinosaurs, continental drift, resources, and geologic hazards. Lab required. If credit is granted for GEO 103, it cannot also be granted for either GEO 101 or GEO 102.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
GEO 104 Introduction to Oceanography (NC) 4 cr
The nature of the ocean realm—its physical, chemical, biologic, and geologic characteristics and importance. Topics to be discussed: origin and characteristics of ocean basins, physical and chemical nature of sea water, origin and movement of water masses, importance of the oceans to life on earth. Lab and Field trips are required. Credit can be granted for GEO 104 or GEO 105 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

GEO 105 Survey of Oceanography (NC) 3 cr
Introduction to ocean science. Deals with how the oceans affect the earth. Topics include ocean life and ecosystem, origin of sea water and ocean basins, coastal zones, mineral and fishery resources. Field trips. No lab. Credit can be granted for GEO 104 or GEO 105 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HEALING ARTS
HAO 101 Healing Arts (X) 12 cr
Awards 12 credits to graduates of the Stillpoint Center School of Massage, Inc. who enroll in the Liberal Arts/General program or the Liberal Arts/Healing Arts Option program and earn 15 GCC liberal arts credits. The course of study at Stillpoint includes body work sciences of anatomy and physiology, kinesiology, pathology, and hydrotherapy; massage theory and technique of Swedish massage, body awareness, body mechanics, and therapeutic techniques; and professional development and clinical applications.
Prereq: Graduate of Stillpoint Center School of Massage, Inc.

HEALTH FITNESS AND WELLNESS
HFW 100 Survey of Movement Science (A) 1 cr
Provides the student with an introductory study and critical analysis of the movement science profession.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HFW 101 Introduction to Exercise Science (A) 3 cr
Provides the student with the opportunity to examine the cardiorespiratory, musculoskeletal, and nervous systems of the body and the impact of exercise on their functioning. Topics may include the effect of changing one's own personal exercise habits, risk factors for cardiovascular disease, longevity, and quality of life. Students participate in fitness assessments for body composition, muscular strength and endurance, flexibility and cardiovascular endurance.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HFW 103 Principles of Health and Well Being (A) 3 cr
Provides the student with awareness and knowledge of wellness issues. This course is geared toward the development and implementation of lifestyle behaviors to encourage more positive lifestyles and overall well-being. Topics may include lifestyle choices, stress management, nutrition, weight control, physical activity, cardiovascular health, smoking, substance misuse, and sexually transmitted diseases.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HFW 104 Foundations of Movement Science I (A) 3 cr
Provides the student with the opportunity to examine the historical and philosophical foundations of human movement and sport.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HFW 105 Foundations of Movement Science II (A) 3 cr
Provides the student with the opportunity to examine the sociological and psychological foundations of human movement and sport.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HISTORY
HIS 101 Western Civilization to 1500 A.D. (HC) 3 cr
The major ideas, institutions, and developments of Western Civilization from ancient times to the Renaissance. Themes include the nature of humankind; relationship of the individual to society and the universe; the role of religion; the individual in history; the tradition to modern modes of life and thought.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HIS 102 Western Civilization Since 1500 A.D. (HC) 3 cr
Analysis of ideas, attitudes, and developments of Western Civilization from the dawn of the modern age to the present. Topics include the scientific and industrial revolutions; the rise and triumph of nation states; the French and Russian revolutions; European imperialism in Asia and Africa; socialism, communism, and fascism; dictatorships and World War II; challenge of the non-Western world.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
HIS 105  History of the American People to 1865 (HC) 3 cr
Economic, social, and cultural development of the American people prior to the Civil War. Utopianism; the Revolutionary Era; the development of national consciousness; consensus and conflicts; constitutionalism; the roots of American foreign policy; race relations; slavery and war. Credit can be granted for HIS 105 or 107 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HIS 106  History of the American People Since 1865 (HC) 3 cr
Reconstruction; industrialism and triumphant capitalism; the capitalist model of society; business and the protestant ethic; labor; populism, and dissent; imperial expansion and the progressive politics; crisis in the American Dream; The Great Depression and the New Deal; minorities and change; the roots of contemporary American foreign policy to Vietnam. Credit can be granted for HIS 106 or 108 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HIS 107  Valley/American History I (HC) 3 cr
Analysis and examination of major developments - political, social, economic - in American history from Colonial times to the Civil War period with the focus on the local and national levels. Emphasis on local resources. Credit can be granted for HIS 105 or 107 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HIS 108  Valley/American History II (HC) 3 cr
Analysis and examination of major developments - political, social, economic - in American history from the latter part of the 19th century to the present with the focus on the local and national levels. Emphasis on local resources. Credit can be granted for HIS 106 or 108 but not for both.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HIS 113  China and Japan: A Cultural History (HC) 3 cr
The origins and development of traditional society and culture in China and Japan. Dynastic history in China, and imperial and feudal history in Japan. Emphasis on literary and linguistic development, the formation of political systems and the evolution of cultural life; the complex developments of the 19th and 20th centuries which brought China and Japan into the world community: the critical role played by western contacts in this process; and the emergence of China and Japan as global powers.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HIS 123  The Pacific Century (HC) 3 cr
A comprehensive look at the 19th-20th century transformation of the societies of the Pacific basin including those of Southeast Asia, Korea, and the Philippines, as well as China and Japan. The coherent themes through the course include: “progress” and tradition; collisions between East and West; economic resources and interdependence; democracy, authority, and power; and the United States in the Pacific.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HIS 127  History of African-American Peoples (HC) 3 cr
A survey of the African-American experience in the United States, including African heritage, enslavement and slavery, resistance, the Civil War and Reconstruction and their combined legacies of racism and oppression, and the continuing struggles of African-Americans for full and equal rights.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HIS 128  Latin American History (HC) 3 cr
A survey of Latin American history from first encounters to the present. The course focuses on indigenous, Hispanic and Afro-Latino peoples, including the histories of conquest and colonization, independence and revolutionary movements, political and diplomatic development, economic and social organization, religion, culture, and the environment.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HIS 129  Introduction to Modern Africa (HC) 3 cr
A survey of geography, climate, and the diverse ethnic and cultural groups of the continent. After a brief outline of pre-European civilizations, concentration is on Africa’s history from the period of European colonization to the present. Current political, social, and economic conditions are highlighted.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HIS 131  Women in American History (HC) 3 cr
A survey of women’s roles in American history emphasizing the social history of unknown as well as famous women of diverse ethnic and class backgrounds who helped shape life and culture in America from the Colonial period through the Revolutionary era, the Frontier movement, 19th Century political activism and urbanization, and the 20th century through reform movements and the global community.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
HONORS

HSM 201  Honors Seminar in Behavioral Sciences (BC)  3 cr
In depth exploration of a selected topic of academic interest. The topics are interdisciplinary. The small class size requires considerable student interaction. The seminar maintains a balance between collaborative and independent work. The course includes frequent writing assignments and a major project in the behavioral sciences area. Students may repeat this course one time for a maximum of six credits.
Prereq: Earned 3.2 average for 24 college-level credits, including ENG 112, 114, or 116

HSM 202  Honors Seminar in Humanities (HC)  3 cr
In depth exploration of a selected topic of academic interest. The topics are interdisciplinary. The small class size requires considerable student interaction. The seminar maintains a balance between collaborative and independent work. The course includes frequent writing assignments and a major project in the humanities area. Students may repeat this course one time for a maximum of six credits.
Prereq: Earned 3.2 average for 24 college-level credits, including ENG 112, 114, or 116

HSM 203  Honors Seminar in Natural Sciences (NC)  3 cr
In depth exploration of a selected topic of academic interest. The topics are interdisciplinary. The small class size requires considerable student interaction. The seminar maintains a balance between collaborative and independent work. The course includes frequent writing assignments and a major project in the natural sciences area. Students may repeat this course one time for a maximum of six credits.
Prereq: Earned 3.2 average for 24 college-level credits, including ENG 112, 114, or 116

HUMAN DEVELOPMENT

HUD 095  Study Skills (D)  1 cr
Teaches academic success skills, including techniques for effective reading and remembering, increasing class involvement, preparing for tests, taking lecture notes, and managing time. This course may not be used to fulfill associate degree requirements. Course graded credit/no credit.
Prereq: None

HUD 109  Career Decision-Making and Planning (X)  3 cr
An individualized introduction to the career/life planning process. The course covers seven major steps in decision-making: commitment to planning, self-assessment, generating options, information seeking, choosing, planning, and taking action. The student develops specific career plans.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090.

HUD 112  Assertiveness Training (X)  1 cr
Skills training in behavior which allows individuals to express their own opinions, feelings, needs, and preferences, without unnecessary anxiety and in a way that is not threatening to others.
Prereq: None

HUD 113  Job Search Training (X)  1 cr
An introduction to the techniques used in effective job search. Specific attention is paid to helping each student to match his/her skills, needs, and values to specific types of jobs. Content emphasizes informational interviewing, resume development, formal job interviewing, and job contract negotiations.
Prereq: None

HUD 114  College Success (X)  3 cr
Designed to assist incoming students make a successful transition from high school, home, or the workplace to college. Adopts a seminar approach requiring students to use a textbook, listen to lectures, participate in discussions, and complete a variety of written and oral assignments. Adjustment and transition issues—academic, career, and interpersonal—are addressed with a structured, content-based curriculum, flexible enough to promote the exploration and resolution of individual concerns.
Prereq: None

HUD 117  Managing Stress (X)  2 cr
Designed to transmit basic information about how stress works to help students isolate their own stress responses, and to help them find appropriate stress reduction techniques within a lab setting.
Prereq: None

HUD 120  Issues in Wellness, Fitness, and Health (X)  1 cr
A series of seminars, lectures, and workshops designed to provide current information related to health and lifestyle concerns. Topics/content selected from such areas as fitness, nutrition, wellness, tobacco issues, substance abuse, attitudes, and preventive modalities.
Prereq: None

HUD 121  Applied Leadership Training (X)  1 cr
Fundamental leadership skills, problem-solving, decision-making techniques, and group process; college governance structure, principles of the planning process and budget preparation. Maximum two graded credits.
Prereq: Offered only to GCC Student Senators elected by the GCC student body.
HUD 125 Issues in Contemporary Society: Substance Abuse (X) 1 cr
Issues such as substance abuse, racism, sexual harassment, wellness, diversity, family abuse offered to students wishing to explore them via discussions, presentations, lectures, and workshops. Focus issues will be delineated as part of the course title.
Prereq: None  (Note: Each semester this course will be offered with a different focus which will be reflected as part of the title.)

HUD 127 Survey of Health Careers (X) 2 cr
An introduction to the responsibilities, settings and qualifications of various health careers. This course examines the role of different health professionals as members of the healthcare team. Using self-evaluation and decision-making exercises, students begin to better match their interest with appropriate careers in healthcare.
Prereq: None. Recmm: Strongly recommended for LHO students (Health Occupations Intent)

HUD 160 Mentoring (X) 1 cr
Designed to train students to be mentors learning how to help new students by providing guidance, counsel, and practical advice in negotiating the college experience.
Prereq: At least second semester student

HUMAN ECOLOGY

"HEC 101 Human Ecology: Problems and Solutions (BC) 3 cr
An introduction to basic concepts and principles in ecology including ecosystems, population, food production, energy, pollution, technology and resource depletion. Focus is on people’s impact on the natural environment emphasizing current problems and alternative solutions to them.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HEC 111 Human Ecology: the TEME Experience (BL) 3 cr
A student-centered experiential learning community that teaches basic principles of ecology and effective group skills. The course focuses on leadership, goal setting, communication, problem solving, resource management, and issues of global sustainability. Students participate in a (DSV) Deep Submergence Vehicle simulation in the third week of April. Students train to assume roles on board the DSV or as members of the surface support team. DSV crew positions require a weeklong residency on board the vessel and surface support positions require a minimum of 20 hours outside of class time during the simulation. Successful completion of this course and permission of the instructor allow for entry into HEC 251.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HEC 113 Earth Experiences (BL) 3 cr
An introduction to selected experiential education components of environmental studies and human ecology. A series of group-building problem-solving initiatives and “in-the-field” experiences designed to build group identity, promote self confidence and personal growth, and heighten understanding of applied environmental studies. Students will choose appropriate resident and day field laboratory experiences. Self-directed learning models within environmental studies and an exploration of resources and networks within environmental-oriented careers are introduced.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HEC 115 Introduction to Ecological Living (BL) 3 cr
Introduction to the major themes of ecologically sustainable living and “hands-on” experiences in practical application, techniques, and methods. Possible topics include alternative energy and conservation, building community, transportation, food production and preparation, and strategies of recycling and resource utilization. Examination of the ethics, values, and belief systems that affect personal choice and public policy impact on the earth. Special scheduling is necessary to accommodate intensive workshops and off-campus field trips.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HEC 121 Gender Issues in Human Ecology (BC) 3 cr
Examination of pre-historical, historical, and present day roles of women and men in relation to their environment. Surveys how gender roles have affected survival in hunter-gatherer and agrarian societies, earth-centered practices in religion and medicine, and the growth and influence of industrialism and nationalism. Particular attention will be given to understanding gender-linked relationships between population, poverty, and environmental degradation. The importance of new cooperative models for converting to an ecologically sustainable society explored utilizing case studies and role models.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HEC 150 The 24-Hour Outdoor Personal Growth Experience (X) 1 cr
A 24-hour back-country experience focused on the expansion of the individual’s awareness and sensitivity to his or her relationship with the environment through interpretation and participation in its cyclical rhythms. The course also includes in-class sessions. Course graded credit/no credit.
Prereq: None
**HEC 151** Vision Quest and Rites of Passage (X) 1 cr
Investigates vision quest and rites of passage, ancient ceremonies and rituals that are found in most cultural traditions to assist individuals to symbolically and literally pass from one life event to the next. It offers instruction in phases of personal transition, earth experiences for clarity and connection, and guidance in self-generated ceremonies. Opportunities include in-the-field teachings and two nights and three days of residency at a solo site in a backcountry area, and personal reflection through inner guidance. Course graded credit/no credit.
Prereq: None

**HEC 152** Sustainable Agriculture: Organic Gardening (X) 1 cr
Provides instruction in a natural gardening program and practical "hands-on" introduction to the basic philosophy, content, and methods of organic gardening and permaculture design. Using a model garden site, participants plan and design a garden, prepare the soil, plant the seeds, and prepare for harvesting and storage. Topics include compost, soil improvement, seed selection, crop rotation, and pest management. Includes in-the-field instruction and an overnight residency. Course graded credit/no credit.
Prereq: None

**HEC 153** Ancient Wilderness Living Skills (X) 1 cr
An introduction to the principles and practices of ancient wilderness living skills that enable people to live closer to the earth and to realize a deeper understanding of their heritage as human beings. Skills include carving and using a bow and drill fire making, setting, building and sleeping in a shelter made from natural materials, and instruction in crafts like natural baskets, wooden utensils, and natural rope. The course includes backcountry foraging for wild edible foods and materials for crafts, as well as an overnight residency experience. Course graded credit/no credit.
Prereq: None

**HEC 154** Earth Education: The Council of All Beings (X) 1 cr
An experience that enables students to respond to the Earth's ecological deterioration. The Council of All Beings, an internationally recognized program, gives form to students' fears and frustration, as well as guidance for establishing harmony with the planet. The course includes experiential exercises, visualization, mask-making, and personal sharing. The overnight resident experience helps students rediscover their Deep Ecology and their interconnection with all of life. Course graded credit/no credit.
Prereq: None

**HEC 155** Introduction to Sustainable Energy: Solar Living (X) 1 cr
An introduction to the basic principles and practical applications of sustainable energy systems for small-scale use in the home, office, and workplace. The course introduces the basics of renewable energy and sustainable living technologies. The seminar introduces the operation and maintenance of rechargeable solar equipment, independent living techniques and wind, biomass, hydrogen, and conservation strategies for heating and cooling. Course graded credit/no credit.
Prereq: None

**HEC 201** Strategies for a Sustainable Future (BC) 3 cr
Expands on human ecology themes in analyzing historical, cultural, and socio-economic causes of accelerating deterioration of global ecosystems. Examines global, national, and regional strategies for creating an ecologically sustainable future. Gives special attention to the strategic significance of direct individual actions in both lifestyle choices and democratic social change processes for achieving eco-system sustainability.
Prereq: ANT 104 or BIO 103 or HEC 101 or permission of instructor

**HEC 251** Small Group Ecology: Project TEME Planning and Development (BL) 3 cr
Training in the use of and application of ecological concepts and principles in the planning and development of the annual Project TEME event schedule. Along with the project directors, students enrolled in HEC 251/252 as Project TEME supervisors form the administrative nucleus of the program. Provides an opportunity for students to participate in an organizational structure - the TEME Earth Guild - whose purpose is to conduct scientific research missions critical to the future of our planet. Based on a computer-integrated experiential approach, course is designed to increase ecological awareness and individual group leadership skills by focusing on learning about the dynamics of group behavior and adaptation in a controlled environment. Successful completion of this course does not guarantee admission to HEC 252.
Prereq: HEC 111 and permission of instructor

**HEC 252** Small Group Ecology: Project TEME Implementation (BL) 6 cr
Training in the use of and application of ecological concepts and principles in the planning and development of the annual Project TEME event schedule. Along with the project directors, students enrolled in HEC 251/252 as Project TEME supervisors form the administrative nucleus of the program. Provides an opportunity for students to participate in an organizational structure - the TEME Earth Guild - whose purpose is to conduct scientific research missions critical to the future of our planet. Based on a computer-integrated
experiential approach, course is designed to increase ecological awareness and individual group leadership skills by focusing on learning about the dynamics of group behavior and adaptation in a controlled environment.
Prereq: HEC 251 and permission of instructor

HEC 253 Eco-Action Seminar and Field Placement (BL) 3 cr
Provides experiential-based learning that enables the student to apply advanced human ecology principles and practices to selected “real life” environmental problems and practical sustainable living solutions. Through interactive seminars, self-directed learning projects, and supervised internships in area organizations students focus on local issues and answers. Students explore transfer options and career choices in environmental studies and human ecology.
Prereq: HEC 101 or permission of instructor

HUMAN SERVICES

HSV 101 Introduction to Human Services (BL) 3 cr
A study of the human service field from historical, ecological, economic, political, and social perspectives. This course familiarizes students with the basic skills, strategies, and functions common to the field through readings, discussions, guest lectures, research, field trips, and service learning projects.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HSV 115 Interpersonal Skills and the Role of Helper in the Human Services Profession (BL) 3 cr
Introduces students to the roles and responsibilities of a helping relationship, and to the interpersonal skills needed to be an effective human services worker. The course includes a skills based component consisting of effective listening and communication, conflict resolution, mediation, and assertiveness.
Prereq: ENG 101, 103, or 105 (or concurrent enrollment); and PSY 101 (or concurrent enrollment); and HSV 101 (or concurrent enrollment)

HSV 119 Contemporary Parenting (BL) 3 cr
Explores reasons for having children, the birthing process, and the changes that take place within the family unit with the arrival of a child. Parenting styles and their effects are explored along with the impact of the changing societal values on the American family.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HSV 121 Introduction to Gerontology (BL) 3 cr
Introduction to the study of aging in contemporary society. Considers the research methods as well as practical applications for dealing with the issues of older adulthood. Topics include physiological, psychological, sociological and cultural aspects of aging, economics of aging, healthcare concerns, ageism, and a survey of career opportunities in human service settings working with older adults.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HSV 141 Chemical Dependency: Understanding Drug Use (BL) 3 cr
An examination of the nature of substance abuse and chemical dependency in society today. Topics studied include commonly abused substances and their effects, physical symptoms and behavioral signs of substance abuse, stages of dependency, factors which influence chemical dependency, and personal and social influences.
Prereq: PSY 101 or concurrent enrollment

HSV 167 Mediation (BL) 3 cr
Mediation is a non-adversarial way of resolving conflicts and reaching agreements. The course covers theories of conflict and conflict styles, how to define issues in mediation, reframing, neutrality and bias, and moving parties to agreement. Students are able to mediate for the campus mediation service upon successful course completion. Class includes many simulated mediations.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HSV 205 Case Management Practices (BL) 3 cr
A survey of case management practices and contemporary human service interventions used in the field of human services. This course teaches case management skills, introduces students to the use and effectiveness of intervention and includes, but is not limited to, crisis intervention, group work, cognitive-behavioral treatment, legal interventions, advocacy and alternative treatments.
Prereq: ENG 101, 103, or 105 or concurrent enrollment; PSY 101 or concurrent enrollment; HSV 101 or concurrent enrollment

HSV 215 Counseling Skills (BL) 3 cr
Students move from theoretical understanding of the helping relationship to practical application as they practice interviewing, counseling, and referral processes. Specialized counseling skills such as crisis intervention introduced. Extensive demonstration and role play utilizing audio and video tapes. Students witness clinical supervision as they practice peer supervision.
Prereq: HSV 115
HSV 271 Practicum in Human Services (BL) 4 cr
Provides students with field work in competency training and skill building through directed, closely-supervised involvement in a human service agency. Students practice their acquired skills through professionally supervised individual and/or group focused involvement. In addition to the fieldwork, students meet each week for two hours to discuss practicum experiences.
Prereq: HSV 215 (or concurrent enrollment)

HUMANITIES

HUM 110 Media Literacy: The World of Advertising (HL) 1 cr
An examination and discussion of print, audio, and electronic advertising in our society. This course develops critical thinking and critical writing skills through the analysis of various forms of advertising media. The topics for discussion may include gender, ethnicity, race, and politics.
Prereq: None

HUM 113 Introduction to the Pioneer Valley (HL) 3 cr
Overview of the geography, geology, history, and culture of the Pioneer Valley, with instruction in methods of research, including oral history and work in libraries, newspaper files, and museums. Field trips in the local area.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*HUM 119 Women in the Pioneer Valley (HL) 3 cr
Through historical and literary readings and original research, students explore the experience of women of the Pioneer Valley. Letters, diaries, journals, oral histories, fictional works, and other similar sources examined.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HUM 130 Latin American/North American Cultures (HC) 3 cr
An introduction to the cultures and values in Latin American countries and differences among them. Cross-cultural topics include similarities and differences between modern North American and Latin American cultures. This interdisciplinary course explores ways in which cultural values have influenced the history, government, politics, economics and ethics of contemporary Latin American societies.
Prereq: ENG 101, ENG 103, or ENG 105 or concurrent enrollment

*HUM 150 The Lively Arts (HC) 3 cr
Provides experience in the performing and visual arts through attendance at Fine Arts Center Performing Arts Series concerts of music and dance at the University of Massachusetts and guided visits to university gallery exhibitions of sculpture, photography, and drawings. Guest faculty present weekly lectures about the structure and history of music, dance, and visual arts. Discussion sections help students understand and apply information from weekly assignments, lectures, exhibitions, and concerts. Free tickets provided.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

HUM 153 Media and Popular Culture (HC) 3 cr
Discussion and critique of photographs, film, and video from the Depression to the present. Analyses of the influences of mass-media images on popular culture. Focus is on developing visual literacy and critical thinking.
Prereq: ENG 101, 103, or 105

HUM 155 Representing Families Through Media (HL) 3 cr
Explores the representational process in diverse genres as it has depicted family life. Students working in various media, including video, photography, dance, and writing, consider varied historical efforts by artists of different traditions seeking to bring together image and text, motion, and sound.
Prereq: ENG 101, 103, or 105; Recomm: Students should have previous experience with media, fine or performing arts, or writing

HUM 201 Humanities in the Western World I (HC) 3 cr
Illustrates the relationships among the literature, music, visual arts, history, and ideas of the Western World, with emphasis on the texts of certain literary classics. Concentrates on the Classical World, the Middle Ages, and the early Renaissance.
Prereq: English Composition II (or concurrently), or permission of instructor

HUM 202 Humanities in the Western World II (HC) 3 cr
Continuation of HUM 201. Concentrates on the late Renaissance, Baroque, Romantic, and Modern periods.
Prereq: English Composition II (or concurrently), or permission of instructor
LATIN

LAT 101 Elementary Latin I (HC) 4 cr
Fundamentals of the Latin language. Students learn Latin vocabulary, syntax, and grammar and then translate Latin into polished English and vice-versa. Students use Latin orally and listen to and write Latin as a part of the language learning process.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

LAT 102 Elementary Latin II (HC) 3 cr
Fundamentals of Latin language. Students continue to learn Latin vocabulary, syntax, and grammar and then translate Latin into polished English and vice-versa. Students read the work of ancient authors in Latin.

Prereq: LAT 101 or equivalent, or permission of instructor

LEISURE EDUCATION

All 1-credit LED courses are graded on a credit/no credit basis. All 2- and 3-credit LED courses are graded with letter grades.

LED 156 Principles of Weight Training (X) 1 cr
Covers the basic training principles involved in the development of muscle strength and endurance. Includes guidelines concerning isometric, isotonic, and isokinetic progressive resistance exercises. The value of muscle strength and endurance as a lifetime physical fitness goal emphasized.

Prereq: None

LED 157 Aerobics (X) 1 cr
Physical fitness exercises and techniques aimed at the development of the cardiovascular system. Exercises combined to promote flexibility, strength, and cardiorespiratory endurance through systematic approaches. Individual cardiovascular evaluation required and individual programs planned.

Prereq: None

LED 158 Advanced Aerobics (X) 1 cr
Advanced physical fitness exercises and techniques aimed at the development of the cardiovascular system. Introduction of more advanced exercises that promote flexibility, strength, and cardiorespiratory endurance through systematic approaches.

Prereq: LED 157 or permission of instructor and a cardiovascular evaluation

LED 161 Golf (X) 1 cr
Designed for beginners interested in the basic skills of recreational golf. Students advance at their own pace. Topics include golf rules and etiquette. Students participate in field trips.

Prereq: None

LED 167 Introductory Tae Kwon Do I (Karate) (X) 1 cr
A basic introduction to the Korean martial art of Tae Kwon Do-Moo Duk Kwan as it has evolved from its origins in Tae Kyun in approximately 57 BC. Emphasis is on familiarization with some Korean language, stretching exercises, calisthenics, punching, blocking, and kicking techniques, practical self-defense, hyung patterns of movement and exposure to some of the philosophical underpinnings of Tae Kwon Do.

Prereq: None

LED 168 Introductory Tae Kwon Do II (Karate) (X) 1 cr
Intermediate level skills and techniques of the Korean martial art of Tae Kwon Do-Moo Duk Kwan as it has evolved from its origins in approximately 57 BC. The emphasis is on familiarization with some Korean language, stretching exercises, calisthenics, punching, blocking, and kicking techniques, practical self-defense, hyung patterns of movement and exposure to some of the philosophical underpinnings of Tae Kwon Do.

Prereq: LED 167 or permission of instructor

LED 171 Yoga (X) 1 cr
An introduction to Hatha Yoga practice, including breath control, stretching, toning, and stress reduction. A wide range of classical yoga asanas (postures) are covered, including forward bends, backward bends, standing poses, inverted poses, balancings, and twists. Each session is an invigorating full-body workout. Students gain sufficient practical knowledge to sustain independent yoga practice.

Prereq: None

LED 172 Self-Defense for Women (X) 2 cr
Introduces physical and psychological skills necessary for self-defense. Involves learning the use of various parts of the body as weapons. Examines techniques of awareness necessary for prevention. Through meditation, discussion, and writing exercises, students learn to realize and overcome women’s psychological blocks to their own defense.

Prereq: For women only

LED 183 Ballroom Dancing I (X) 1 cr
Designed to give physical enjoyment to participants through the performance of the specific rhythms and movements of smooth and Latin dancing and social satisfaction through group participation. The fundamentals of fox trot, waltz, swing, rumba, and tango are taught with an emphasis on dance positions, leading and following, and dance etiquette.

Prereq: None

LED 191 Recreational Dance (X) 1 cr
Designed to provide the opportunity to increase basic dance skills. Introduction to basic rhythms, folk, square, and social dances. Field trips are required.

Prereq: None
MASSAGE THERAPY
The MTC program offers 3 options for program completion, full-time day, part-time day, and evening. Refer to the MTC program pages 102–103 for required course sequence.

MTC 101 Structure and Process of the Therapeutic Healing Relationship (X) 3 cr
Addresses the fundamental components of the therapeutic massage relationship. The course introduces the ethical guidelines of the massage profession that create a standard of practice to support a professional skill base for clinical course work and on-going professional development. Topics include dual relationships, boundaries, medical/legal issues, diversity/bias issues, and power differential. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 102 Myology I for Massage and Bodywork (X) 1 cr
Examines the musculoskeletal anatomy of the human body. Students identify details of skeletal structures, and the origins, insertions, and actions of the superficial and intermediate layers of muscles. Lectures and experiential exercises in palpation and clay modeling of muscles using the Zahourek Maniken System help students to establish a foundation for skilled and anatomically accurate touch. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 103 Massage Therapy Theory and Technique I (X) 6 cr
Teaches fundamentals of classical circulatory Swedish massage; indications and contraindications of treatment; professional hygiene, standard precautions, and self-care protocols; conscious touch and centering skills. The course includes beginning evaluation skills for assessing soft tissue, reviews musculoskeletal systems, emphasizes application of biomechanical skills, applies documentation skills in weekly practice sessions, and tracks development of feedback and professional interactive client skills. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 107 Myology II: Clinical Assessment Testing for Massage & Bodywork (X) 2 cr
Examines specific deep muscles of the body and presents clinical approaches to evaluate common joint and myological dysfunctions. Students observe and identify postural, muscular, and joint imbalance through practical application of clinical assessment techniques during lab teamwork. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 110 Kinesiology I: The Art of Functional Movement (X) 1 cr
Designed to create the safe, effective body mechanics required by the massage therapy practitioner. Students develop sensory/kinesthetic awareness and skillful, efficient movement using movement lessons and supervised table practice. Improved movement function allows students to manifest the skills necessary for sensitive application of massage strokes and pressure, intelligent touch, tissue listening, and optimal application of massage strokes and pressure. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 111 Documentation for Massage & Bodywork Practice (X) 1 cr
Provides students with the writing skills necessary for accurate and professional record keeping of therapeutic sessions. The course covers interview and intake procedures, use of health history forms, and standard medical documentation. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 112 Massage Therapy Clinic (X) 2 cr
Prepares students to apply critical reasoning and assessment of client intake in order to provide supervised client-centered massage therapy sessions for the public. Direct supervision creates a forum for feedback and analysis of student work. Students gain proficiency in integrating theoretical, technical, and professional components of practitioner training. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

MTC 113 Massage Therapy Theory and Technique II (X) 7 cr
Broadens and deepens the student’s theoretical knowledge, assessment, and technical massage skills beyond circulatory/wellness massage. Students identify soft tissue dysfunctions created by muscular and connective tissue, skeletal and joint compensation patterns. Adaptive massage techniques include connective tissue, joint receptor, neuromuscular, and passive movement manipulations and applications of hydrotherapy. Advanced palpation skills teach students to apply critical thinking to assess tissue in order to increase
functional outcomes. Students integrate these adaptive techniques into a creative massage using therapeutic principles and clinical reasoning.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

**MTC 114** Interpersonal Dynamics of the Therapeutic Massage Relationship (X) 3 cr

Focuses on the transition from theoretical understanding of the therapeutic massage relationship to practical applications in massage practice. Students use case scenarios from current clinic, service learning, and practice clients to reflect on components of the therapeutic relationship. Students examine the use of supervision, consultation, self assessment, and focus groups for professional development.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

**MTC 115** The Business and Marketing of Massage & Bodywork (X) 2 cr

Examines the various business models of massage therapy practice including independent contractor, private practice, and employee and the skills and attitudes needed to successfully support each model. Students clarify professional goals for income and marketing and develop individual business plans.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

**MTC 116** Clinical Assessment Practicum Seminar (X) 3 cr

Uses seminar discussion, supervision groups, and lab work to incorporate all aspects of learning the science and art of massage therapy. Students integrate scientific understanding of the skeletal and soft tissue function and dysfunction with appropriate applications of technical and evaluative skills. The course presents typical clinical syndromes in a supervised practical lab to develop the student’s use of critical thinking and analysis.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

**MTC 120** Kinesiology II: The Science of Functional Movement (X) 2 cr

Explores the art and science of human movement through interwoven didactic and experiential learning. Students study the muscular-skeletal system from the perspective of dynamic alignment, improved motor performance, and efficient body mechanics. The course includes movement/skilled touch lab.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090 and MAT 090; MTC participants only

---

**MATHEMATICS**

**MAT 090** Basic Mathematics Skills (D) 3 cr

Useful as a foundation for math and math-related courses, for developing quantitative job skills, or as a refresher. Students use a variety of materials and problem-solving techniques to deepen their understanding of basic arithmetic operations, fractions, decimals, percents, and measurement. They analyze problems and arrive at solutions using the techniques of mathematical reasoning. The course emphasizes mathematical discovery and addresses issues of math anxiety, test-taking difficulties, and study skills for math. This course may not be used to fulfill associate degree credit requirements; final grade of “D” will not be awarded in this course.

Prereq: None

**MAT 094** Preparatory Course for Algebra (D) 3 cr

A preparatory course for Introductory Algebra (MAT 095) for students with a working knowledge of arithmetic who have never had algebra before or who would benefit from a slower introduction to algebra. Students study many of the topics covered in Introductory Algebra but at a significantly more elementary level and at a slower pace. These topics include the concept of a variable, negative numbers, numeric and algebraic expressions, linear equations in one variable, positive exponents and square roots, and an introduction to graphing of equations in two variables. Students work with applications to help them understand and connect algebraic concepts to real world situations. This course may not be used to fulfill associate degree credit requirements. Final grade of “D” will not be awarded in this course.

Prereq: MAT 090 or placement by examination

**MAT 095** Introductory Algebra (D) 3 cr

An introductory algebra course which assumes a working knowledge of basic arithmetic. Students study topics that include the concept of a variable, negative numbers, properties of real numbers, numeric and algebraic expressions, polynomials, linear equations and inequalities in one variable, integer exponents and coordinate geometry. The course introduces graphing of two-variable equations. Students work with applications to help them understand and connect algebraic concepts to real world situations. This course may not be used to fulfill associate degree credit requirements; final grade of “D” will not be awarded in this course.

Prereq: MAT 090 or placement by examination
Credit Courses

MAT 096  Intermediate Algebra (D)  3 cr
Develops algebra skills and a conceptual understanding of topics, and focuses on the relationship between algebraic, graphical and numerical approaches to solving problems. Students study topics that include linear equations and systems of equations, methods for solving problems, radicals and radical equations, quadratic equations and the quadratic formula, rational exponents and rational expressions. The course places emphasis on graphing in the Cartesian coordinate system with particular stress on graphing linear equations and systems of equations. Students work at times with calculators and/or computers. This course may not be used to fulfill associate degree credit requirements; final grade of “D” will not be awarded in this course.
Prereq: MAT 095 or placement by examination

MAT 099  Elementary and Intermediate Algebra (D)  6 cr
An intensive elementary and intermediate algebra course that assumes a working knowledge of basic arithmetic and some familiarity with algebraic principles. Students study topics that include the concept of a variable, negative numbers, properties of real numbers, numeric and algebraic expressions, polynomials, and integer and rational exponents. In addition, students study topics that include linear equations and systems of equations, graphing in the Cartesian coordinate system, methods for solving problems, rational expressions, radicals and radical equations, quadratic equations and the quadratic formula. Students work with applications to help them understand and connect algebraic concepts to real world situations. Students focus on the relationship between algebraic, graphical and numerical approaches to solving problems. Students work at times with calculators and/or computers. This course may not be used to fulfill associate degree credit requirements; final grade of “D” will not be awarded in this course.
Prereq: Placement by examination (students must pass the arithmetic placement test (ML1P) and score 36 or higher on the algebra placement test) or permission of the instructor

MAT 107  College Algebra (NC)  4 cr
The study of functions. This course is a gateway to the study of higher level mathematics and a useful preparation for courses with quantitative content. Students investigate the principles, properties, and applications of several common types of functions from numerical, algebraic, and graphical perspectives and use these functions to model real world problems. Principle types include polynomial, rational, composite and inverse functions. The course also introduces exponential and logarithmic functions and briefly examines absolute value, root, step, and piecewise functions. Students use graphing calculators extensively.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 096 or placement by examination

MAT 108  Precalculus (NC)  4 cr
A preparation for MAT 201 and the physical sciences. Students study principles, properties, and applications of functions and their graphs. They revisit functions introduced in MAT 107 and expand their knowledge of them. The course focuses heavily on circular trigonometric functions and introduces conic sections. Laboratory activities place particular emphasis on the use of functions to model real problems. Computers and/or graphing calculators are used to enhance the study of mathematics.
Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 107 or placement by examination

MAT 114  Introduction to Statistics (NC)  4 cr
An introduction to statistics that teaches broadly relevant concepts. Topics include but are not limited to graphical and numerical methods for summarizing data; linear regression and correlation; normal probability distributions; confidence intervals; statistical inference and hypothesis testing. Laboratory activities emphasize the analysis of real world data. Computers and/or graphing calculators are used to enhance the study of mathematics.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 096 or placement by examination

MAT 116  Mathematics for Early Childhood and Elementary Educators (NC)  4 cr
Provides prospective early childhood and elementary teachers with a mathematical foundation designed to support their future work teaching mathematics. Students build on their mathematical understanding, enhance their comprehension of the mathematical/problem-solving process, develop their confidence in exploring mathematical concepts, and communicate that understanding to others. Students do college level mathematics in the context of the following topics with particular emphasis on the first two: Number Sense and Operations; Geometry and Measurement; Patterns, Relations and Algebra; and Data Analysis, Statistics, and Probability. Students become conversant with the National Council of Teachers of Mathematics Principles and Standards for School Mathematics and with the Massachusetts Department of Education “Mathematics Curriculum Frameworks,” especially as those documents pertain to the level at which the student intends to teach.
Prereq: MAT 095 or placement by examination; must be an Early Childhood Education major or Liberal Arts/Education major or have permission from a full-time math or education faculty person.

MAT 117  Mathematical Problem Solving (NC)  3 cr
Designed to provide students in the liberal arts with a foundation to mathematical reasoning and quantitative skills in decision-making processes. Students focus on ideas rather than techniques as
they implement problem solving strategies. The course introduces students to topics that might include, but are not limited to mathematical modeling, graph theory, the mathematics of social choice, growth and symmetry, descriptive statistics, and probability.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; MAT 095 or placement by examination.

MAT 142 Mathematical Modeling (NL) 3 cr
An intensive experience in Mathematical models. Students, working in teams, construct solutions to open-ended, challenging problems from a wide variety of situations. Teams apply problem solving techniques such as brainstorming, analytical solutions, simulations, and approximations. Students focus on written documentation of both their process and solution. Students take the course during January intercession on a credit/no credit basis and receive credit for the course after they complete a weekend long experience that the Consortium for Undergraduate Mathematics Applications sponsors each February.

Prereq: MAT 151 or MAT 201 or permission of the instructor or math department chair.

MAT 151 Applied Calculus I (NC) 4 cr
Provides a practical approach to the basic tools and methods of calculus. Topics include a review of polynomial, rational, exponential, and logarithmic functions and their graphs, limits, the derivative, and the integral. Students work with models and applications from many fields. Students utilize computer software and/or graphing calculators to enhance their understanding of mathematical concepts.

Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 107 or placement by examination.

MAT 152 Applied Calculus II (NC) 3 cr
Provides a practical approach to the basic tools and methods of integral calculus. Students delve more deeply into the applications of calculus with a particular emphasis on integration and differential equations. Students utilize computer software and/or graphing calculators to enhance their understanding of mathematical concepts.

Prereq: MAT 151.

MAT 201 Calculus with Analytic Geometry I (NC) 4 cr
Theoretical and applied calculus for students interested in mathematics, engineering, and the physical sciences. The course assumes an understanding of single variable calculus. Topics include separation of variables, methods of undetermined coefficients, integrating factor method, Euler's method, phase planes, first order linear systems, second order differential equations, an introduction to nonlinear systems, and Laplace transforms. Throughout the course, students use computer software and formulate differential equations that model real-world situations. Students use computer software and/or graphing calculators in and out of class to apply and enhance their understanding of differential equations and their solutions.

Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 108 or placement by examination.

MAT 202 Calculus with Analytic Geometry II (NC) 4 cr
A second semester theoretical and applied calculus course for students interested in mathematics, engineering, and the physical sciences. Students should have a conceptual understanding of differentiation and integration and a working knowledge of derivatives of a wide range of functions (including trigonometric and exponential). Students examine antiderivatives and definite integrals numerically, graphically, and algebraically and work with a wide range of applications. They study and model real-world situations with differential equations and use infinite series for approximation of functions. Students use computer software and graphing calculators in and out of class to apply and enhance the understanding of calculus concepts.

Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 201.

MAT 203 Multivariate Calculus (NC) 4 cr
Theoretical and applied multivariate calculus for students interested in mathematics, engineering, and the physical sciences. The course assumes an understanding of single variable calculus. Topics include vectors, the dot and cross products, multiple representations of functions of several variables, the gradient and directional derivatives, first and second order partial derivatives with applications including Lagrange multipliers, iterated integrals, parameterization, vector fields, line integrals, and Green’s Theorem. Students use computer software and/or graphing calculators in and out of class to apply and enhance their understanding of calculus concepts.

Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 202.

MAT 204 Elementary Differential Equations (NC) 4 cr
An introduction to ordinary differential equations with a dual focus on finding analytic solutions and on solving and understanding differential equations using numeric and qualitative approaches. Topics include separation of variables, methods of undetermined coefficients, integrating factor method, Euler’s method, phase planes, first order linear systems, second order differential equations, an introduction to nonlinear systems, and Laplace transforms. Throughout the course, students use and formulate differential equations that model real-world situations. Students use computer software and/or graphing calculators in and out of class to apply and enhance their understanding of differential equations and their solutions.

Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 203.
MAT 205 Elementary Linear Algebra (NC) 4 cr
The study of matrices and vector spaces. Topics include the algebra of matrices, systems of linear equations, determinants, subspaces, linear independence, bases, linear transformations and their matrix representations, eigenvalues, eigenvectors, orthogonality, and applications to linear systems. Students gain significant computational experience with the use of computer software and/or calculators with linear algebra capabilities.
Prereq: ENG 090 and COL 090, or satisfactory placement test scores; MAT 202

MUSIC

MUS 101 An Introduction to Music (HC) 3 cr
A survey of musical styles from the Baroque era into the 20th century. Musical forms, elements of music, the orchestra, and great composers are discussed in conjunction with critical listening of recorded examples and live performances.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*MUS 102 Jazz Eras and Styles (HC) 3 cr
A survey of the evolution of jazz both from a historical and stylistic perspective. The styles illustrated include the origins of jazz from slave songs, marching band, and ragtime through New Orleans, Swing, and Modern Jazz, including the Avant-garde and Rock eras. The teaching methods focus on developing a discerning ear to better understand the different jazz eras and the unique characteristics of each jazz style.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*MUS 103 Music Theory Fundamentals (HC) 3 cr
Introductory music theory for students with little or no musical background. The course covers reading and writing notation, scales, melodic composition, and other elementary theoretical concepts.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

MUS 107 Music Theory I (HC) 3 cr
Basic chordal structures, voice leading, inversions, figured bass, harmonic progressions, and non-harmonic tones. Harmonic analysis of great composers’ works. Keyboard harmony and ear training.
Prereq: MUS 103 or permission of instructor

MUS 108 Music Theory II (HC) 3 cr
Prereq: MUS 107 or permission of instructor

MUS 111 Chorus (HL) 2 cr
An exploration of vocal technique and choral repertoire. Students prepare selections from the various style periods for public performance. The course is open to all students. Students may repeat this course three times for a maximum of 8 credits.
Prereq: None

MUS 122 Jazz Theory: Tools for Improvisation (HC) 3 cr
An overview of the practical fundamentals of jazz theory for the beginning improviser. Students investigate chords, scales, and song forms common to the jazz idiom. Students listen and analyze recorded examples of jazz masters such as Miles Davis, John Coltrane, and others in order to enhance the student theory work and improvisation.
Prereq: Completion of MUS 103 or permission of instructor. Recom: Concurrent enrollment with MUS 125 Jazz Ensemble

MUS 125 Jazz Ensemble (HL) 2 cr
Allows students to rehearse and perform in a variety of jazz styles including “Blues,” “Swing,” “Bebop,” and “Latin.” The course stresses improvisational skills as well as ensemble expertise. Two informal presentations and a final “Gala” concert conclude the course.
Prereq: Permission of instructor

MUS 127 20th Century American Popular Music (HC) 3 cr
A cultural overview of popular music in 20th century American society with emphasis on rock, folk, pop, and world fusion styles. The course examines how music technology, commercialism, and cultural diversity have influenced the development of musical styles and practices unique to American life.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*MUS 128 World Music Ensemble (HL) 2 cr
A performing ensemble devoted to non-Western musical traditions and practices. The course emphasizes different traditions and instrumentation according to faculty interests and student enrollment each semester. Areas of concentration may include African, South American, Asian, Caribbean, Latin American, and North American influenced combinations of traditional and popular styles. Players of all instruments are welcome to join. Frequently the class requires no previous musical experience, such as semesters when African hand-drumming is the emphasis. The ensemble performs publicly twice each semester.
Prereq: Permission of instructor or program coordinator
MUS 129 Chamber Ensemble (HL) 2 cr
An instrumental music ensemble performing western European classical repertory for small groups. The class features works from various periods, composed or adapted for trios, quartets, and other small groups of varied instrumentation. No prior ensemble experience is required. The ensemble performs publicly twice each semester.
Prereq: Permission of instructor or Program Coordinator; basic music reading ability; basic proficiency on an instrument.

*MUS 137 World Music and Cultures (HC) 3 cr
A survey of music and culture including Native North America, Latin America, Black America, West and South Africa, the Middle East, India, Japan, and Eastern Europe. The course emphasizes strategies for understanding and listening to all kinds of music. Students do local cultural fieldwork projects and have the opportunity to produce field recordings as part of their final research project.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENGL 090.

MUS 138 Creative Musicianship (HL) 1 cr
An examination of a broad range of topics related to serious music study. The instructor leads cooperative class investigations into areas such as creative expression through free improvisation, preparing for auditions and performances, breaking creative blocks, responding to performance anxiety, adopting stretches/exercises, exploring career paths, making demos, and booking gigs. Students may repeat this course once for a maximum of 2 credits.
Prereq: Concurrent enrollment in 2 credit Applied Music Lessons. Non-music majors need permission of instructor.

MUS 139 Contemporary Music Ensemble (HL) 2 cr
An ensemble that performs modern musical styles of rock, pop, folk-rock, and rhythm and blues. In addition, the ensemble creates original works and explores post-1945 avant-garde musical styles that have influenced popular music since the 1960s. Students should expect to practice and develop skills for reading music and playing by ear. The ensemble performs publicly twice each semester. Students may repeat this course three times for a maximum of 8 credits.
Prereq: Permission of instructor or Program Coordinator; basic instrumental or vocal proficiency; the ability to read and play chord changes.

MUS 147 Aural Skills I (HL) 1 cr
A practice lab in which students develop music listening and reading skills. This course emphasizes practical applications including ear training, sight singing, transcription, dictation, and conducting.
Prereq: MUS 103 or permission of instructor; concurrent enrollment in MUS 107.

MUS 148 Aural Skills II (HL) 1 cr
A continuation of MUS 147, Aural Skills I.
Prereq: MUS 147 or permission of instructor; concurrent enrollment in MUS 108.

MUS 207 Music Theory III (HC) 3 cr
An in-depth examination of musical structures to further develop skills for written exercises, four-part harmonic analysis, and basic keyboard harmony skills ( scales and cadences). The course includes computer-lab time using software for music writing.
Prereq: MUS 107, MUS 108 or permission of instructor.

MUS 208 Jazz Improvisation (HL) 3 cr
A beginning level course open to all instrumentalists and vocalists. This course serves as a stepping stone to the GCC Jazz Ensemble or other intermediate jazz groups. The class combines theoretical study and applied practice as means to explore harmony, rhythm, modes, scales, and the subtleties of musical conversation. One or two small jazz combos develop from within the class and provide the context for group practice.
Prereq: MUS 103 or permission of instructor; basic music reading skills; basic instrumental proficiency.

MUS 219 MIDI Studio Techniques (HL) 3 cr
An introduction to basic features of MIDI keyboards integrated with computer music software. The course emphasizes learning to navigate and work productively with widely used professional level notation, composition, and music education software programs. The college provides all necessary equipment.
Prereq: MUS 103 or permission of instructor or Program Coordinator.

MUS 220 Songwriting (HC) 3 cr
A practical exploration of techniques for writing songs in various classic genres including the music of George Gershwin, Chuck Berry, the Beatles, Bob Dylan, Joni Mitchell, Ani DiFranco, and others. The course ties together aspects of music theory, music history, improvisation, collaboration, composition, and performance. The course also covers songwriting industry topics such as recording production and copyright law.
Prereq: MUS 103 or permission of instructor or Program Coordinator; basic proficiency in chordal accompaniment on guitar or piano.

MUS 247 Aural Skills III (HL) 1 cr
A continuation of MUS 148, Aural Skills II.
Prereq: MUS 148 or permission of instructor; concurrent enrollment in MUS 207.
APPLIED MUSIC

Individual instruction on a wide variety of western instruments, as well as some non-western instruments. Individual instruction is also available for music technology and computers (i.e. midi/computer notation), but not as a primary instrument for music majors. These are college level, letter-graded courses that require student commitment to study and practice.

MUS 130 is a 1 credit course in which students and instructors meet for one-half hour per week.

MUS 230 is a 2 credit course in which students and instructors meet for one hour per week.

The music department assigns instructors to students prior to or during the first week of each semester. Students intending to take lessons should contact the music program coordinator at (413) 775-1228 prior to or not later than the first week of classes each semester. A studio instructor fee is charged for lessons and is non-refundable after the college deadline. Lesson fees are covered by financial aid like any other course fees. Students interested in music and technology may consider attending periodic music keyboard/computer tutoring sessions in the MAC lab. The music department also offers a variety of workshops and master classes on a regular basis.

Questions regarding music faculty and lessons should be addressed to the GCC Music Department Coordinator at (413) 775-1228. Questions regarding registration, payment or refund of fees, or course withdrawal should be addressed to the Registrar's Office at Student Services, (413) 775-1808.

MUS 130 Applied Music (HL) 1 cr

Individual music lessons open to all students of any level or interest. Lessons meet for one-half hour per week. Students and instructors arrange regular meeting times on an individual basis. There is a charge for a studio instructor fee in addition to tuition. Students may repeat this course without limit.

Prereq: None

MUS 230 Applied Music (HL) 2 cr

Individual music lessons open to all students of any level or interest. Lessons meet for one hour per week. Students and instructors arrange regular meeting times on an individual basis. Music majors must take MUS 230 on a primary instrument for four semesters. There is a charge for a studio instructor fee in addition to tuition. Students may repeat this course without limit.

Prereq: None

MUS 231 Recital Participation (HL) 0 cr

Fulfills one-fourth of recital attendance and performance requirement for music majors. Students must attend and perform in student recital events scheduled for the end of the semester. With direction from applied music instructors and the Music Program Coordinator, students are expected to prepare and perform one or more musical pieces in solo, duo, or group settings. Students may repeat this course without limit.

Prereq: Non-music majors need permission of Music Program Coordinator; concurrent enrollment in MUS 230 for music majors

NURSING

NUR 101 Fundamentals of Nursing (X) 8 cr

Designed to provide a foundation for nursing practice. Students are introduced to the concepts of health, illness, and adaptation. The nursing process is presented as a foundation for nursing practice. Emphasis is on assessing the individual's ability to adapt to stressors and on the basic skills needed to assist students in this process.

Prereq: CHE 103 or 111 or one year of high school chemistry (within 7 years); MAT 096 or equivalent; ENG 101, 103, or 105 or concurrent enrollment; PSY 101 or concurrent enrollment; BIO 195 or concurrent enrollment

NUR 103 Fundamentals of Practical Nursing (X) 11 cr

Provides the basic principles of nursing care in classroom, laboratory, and clinical settings. Emphasis is on meeting basic needs of clients and families. The course introduces principles of anatomy and physiology, microbiology, nutrition, pharmacology, and the nursing process. Vocational trends, including legal and ethical issues, are introduced.

Prereq: PNC majors only. BIO 117 or BIO 194; and PSY 101 or concurrent enrollment

NUR 105 Practical Nursing Practicum (X) 2 cr

Provides direct application through intensive clinical practice of all the principles learned in NUR 103, BIO 194, and PSY 101. Technical, organizational, and communication skills are emphasized.

Prereq: PNC majors only with NUR 103, BIO 117 or BIO 194; and PSY 101

NUR 106 Pediatric Nursing (X) 4 cr

Introduces students to the uniqueness of pediatrics within our changing society. This course promotes adaptation in the situations of health and illness as it relates to the nursing care of children. This course focuses on the care of the child through integration of theoretical principles and clinical experiences. Pediatric Nursing emphasizes the ability to recognize normal growth and development and to identify deviations within the acute and community setting. The course introduces and examines ethical issues central to pediatrics.

Prereq: NUR 101; BIO 195; English 101, 103 or 105; and PSY 101, BIO 196, SOC 101, and PSY 217; or concurrent enrollment. Recomm: Concurrent registration in NUR 108
NUR 107 Nursing Care of Clients and Families (X) 14 cr
Prepares students to assist clients and families in coping and adapting to common illnesses. Integration of principles from sciences, nutrition, pharmacology, nursing, and human growth and development is emphasized. Vocational trends, including entry into practice issues are presented. Prereq: NUR 105; PSY 217 or concurrent enrollment.

NUR 108 Obstetric Nursing (X) 4 cr
Focuses on the theory of obstetrical nursing and its application in nursing care during pregnancy and throughout the process of labor, birth, postpartum, and the care of the neonate. The course emphasizes an integration of theoretical principles and clinical experience using the nursing process to assess, plan, intervene, and evaluate the care of the family, mother, and newborn. This course recognizes birth as a natural physiologic process of the human experience and defines the nurse's role in it. Students address the identification of problems and conditions that complicate this process, along with the identification of nurse's role and more complex nursing care. The students analyze clinical cases and ethical issues related to maternal-child care. The course presents an overview of basic women's health issues related to reproduction. Prereq: NUR 101; BIO 195; English 101, 103 or 105; and PSY 101, BIO 196, SOC 101, and PSY 217; or concurrent enrollment. Recommended: Concurrent registration in NUR 106.

NUR 109 Advanced Concepts in Practical Nursing (X) 5 cr
Prepares students to assist clients and families in coping and adapting to multi-system illness by recognition of alterations in health status. Emphasis is on integration and application of all previous content in this final course of the curriculum. Current vocational trends and leadership skills are included. Prereq: NUR 107.

NUR 111 Introduction to Nursing Process (X) 1 cr
Introduces the Roy adaptation theory of nursing and the nursing process as a foundation for professional nursing practice, and provides licensed practical nurses with the opportunity to assess and diagnose patients' physiological and psycho-social status using functional health patterns. Graded on credit/no credit basis. Successful completion of NUR 111 results in the award of 8 credits by examination for NUR 101. Prereq: Advanced placement into the ADN Nursing Program with successful score in Excelsior College Fundamentals of Nursing Associate Degree Level Examination.

NUR 112 Introduction to Nursing Process and Basic Concepts (X) 2 cr
Introduces the Roy adaptation theory of nursing and the nursing process as a foundation for professional nursing practice, and provides licensed practical nurses with the opportunity to assess and diagnose patients' physiological and psycho-social status using functional health patterns. The course includes content on nursing ethics, physical assessment, and teaching/learning. Graded on credit/no credit basis. Successful completion of NUR 112 results in the award of 16 credits by examination for NUR 101 and NUR 102. Prereq: Advanced placement into the ADN Nursing Program. Articulation agreement with GCC's PNC or Thompson Schools LPN program or successful score in Excelsior College Fundamentals of Nursing Associate Degree Level Examination and Excelsior College Maternal and Child Nursing, Baccalaureate Degree Examination.

NUR 120H Native American Cultural Experience for Nurses (X) 3 cr
Immerses the student in Navajo culture and traditions related to health and healing practices. Using the concepts of nursing process and adaptation, the student integrates traditional beliefs and customs with those of western biomedicine and nursing. During a three-week clinical experience, the student provides direct patient care at an Indian Health Service Hospital on the Navajo reservation. Prereq: NUR 101 or equivalent, 3.20 GPA or current R.N. licensure.

NUR 121 Native American Cultural Experience for Registered Nurses (X) 1 cr
Immerses the registered nurse (RN) in Navajo culture and traditions related to health and healing practices. Using the concepts of nursing process and adaptation, the RN integrates traditional beliefs and customs with those of western biomedicine and nursing. During a one-week clinical experience the RN provides direct patient care at an Indian Health Service Hospital on the Navajo reservation. Prereq: Current RN licensure (US), malpractice insurance.

NUR 201 Adaptation to Illness: Medical-Surgical Nursing I (X) 8 cr
Designed to provide correlation between nursing theory and clinical practice. Emphasis is on assessment of the level of adaptation and the nursing process. Individual needs of patients located at some point on the health-illness continuum form a basis for the integration of pharmacology, nutrition, diet therapy, and interpersonal relationships into a developing framework of knowledge. Prereq: NUR 101 and 102; BIO 106 or BIO 196; BIO 205 or concurrent enrollment.
Credit Courses

NUR 202  Adaptation to Illness: Medical-Surgical Nursing II (X)  9 cr
A continuation of NUR 201. Additional depth and breadth is provided, focusing on pathophysiology. Emphasis is on the mechanisms of adaptation and the use of the nursing process. Concepts of rehabilitation, the teaching/learning process, family and community psychodynamics, and nursing leadership are presented to provide a more comprehensive view of the nursing process and the ability to promote patient adaptation.
Prereq: NUR 201, NUR 203; BIO 205; ENG 112, 114, or 116 or concurrent enrollment; HUM elective or concurrent enrollment

NUR 203  Mental Health Nursing (X)  4 cr
Focuses on mental health nursing principles in the formulation of a therapeutic approach to patient care. People are viewed holistically as complex organisms in constant interaction with physiological and psycho-social stressors. The nurse is viewed as a facilitator of adaptation, using the nursing process to establish a plan of care based on an understanding of the individual, family, and society.
Prereq: NUR 101 and 102; BIO 106 or BIO 196; BIO 205 or concurrent enrollment

NUR 204  Trends and Issues in Nursing (X)  3 cr
Focuses on the political, social, economic, and legal issues that influence the nursing profession and the delivery of health services throughout the community. The course addresses the history of nursing, professional organizations, educational and employment opportunities in nursing. Students will develop an understanding of health care economics, community-based delivery systems, and management skills.
Prereq: NUR 203; Coreq: NUR 202 or permission of instructor

OCC 102  Occupational Technology Teaching and Business Experience (X)  1-6 cr
Grants life experience credit for teaching and/or business activities in the occupational trades according to the following guidelines. Up to three (3) credits may be granted for business experience (private, public, or non-profit) including experience in management, employee relations, and/or government regulations, taxes, and requirements. The total for these life experiences shall not exceed six (6) credits. To be granted these credits, applicants must submit a portfolio including proof of employment, performance reviews, letters of administrative support, and a narrative describing the applicant’s business experience that will be reviewed by the program advisor, the Division Dean, and the admission office.
Prereq: Application to the Occupational Technology Program

OUTDOOR LEADERSHIP

OLP 111  Introduction to Outdoor Adventure Skills I (X)  4 cr
Develops technical skills in four adventure program areas: backcountry travel, paddling, rock climbing, and challenge course programming. The infield sessions include participation, conceptualization, and application of the skills content. Students receive individualized feedback on skill development. Students participate in local and extended field trips.
Prereq: OLP participant only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 112  Group Management for Outdoor Leaders I (X)  2 cr
Provides an introduction to group and interpersonal relations models and techniques necessary for effective leadership and functional group dynamics in outdoor settings. Enhance student understanding of basic concepts and improve competencies through the use of the learning community as a laboratory group.
Prereq: OLP participants only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 116  Adventure Program Planning & Fieldwork I (X)  3 cr
Focuses on the principles and methods of program development in the adventure recreation field. The process oriented course addresses planning, organizing, conducting, and evaluating functions in outdoor adventure programs. The basic preparation allows students to complete
supervised fieldwork in a variety of settings with a variety of populations. Students participate in field trips.
Prereq: OLP participants only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 120 Wilderness Emergency Preparedness (X) 3 cr
Develops a student’s knowledge of and skills in wilderness medical responses, rescue, and evacuation with an emphasis on backcountry techniques. It continues to build upon Wilderness First Responder skills through core skill reviews and field simulations. Additional field presentations and simulations develop an understanding of emergency responses for land and water-based outdoor adventure activities.
Prereq: OLP participants only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 124 Natural History for Outdoor Leaders (X) 2 cr
Provides an introduction to environmental studies with an emphasis on basic concepts useful to an outdoor leader. Field studies address the climate, life zones, and natural resources of the Northeast. Students explore conservation of resources and learn how to present basic natural history concepts to diverse populations. Students participate in field trips.
Prereq: OLP participants only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 127 Outdoor Adventure Skills II (X) 4 cr
Continues the development of core technical skills required in the outdoor adventure field. Students refine their backcountry travel skills and learn how to apply them in cold-weather environments. Skills areas include backcountry navigation, snowshoeing, winter mountaineering, and first aid. Students also participate in activities which address natural history and cultural history interpretation. Students must demonstrate specific competencies in core areas to obtain leadership ratings. Students participate in field trips.
Prereq: OLP participants only; successful completion of OLP 111

OLP 140 Rock Climbing Instructor (X) 2 cr
Develops student’s proficiency with the leadership and implementation of institutional top rope rock climbing. Students learn advanced skills of multi-pitch lead climbing. The infield sessions include selection of equipment, safety systems, site management/evaluation, leadership/learning styles, curriculum development, and basic rock rescue. Students must demonstrate specific competencies to obtain leadership ratings.
Prereq: OLP participants only; successful completion of OLP 111 and OLP 120

OLP 141 Paddling Instructor (X) 2 cr
Builds upon the students’ flatwater and whitewater paddling and introduces students to kayak touring and instruction. The course promotes an understanding of introductory paddling lessons so students can develop their own paddling programs. The course emphasizes the development of personal technical skills, technical knowledge, instructional, and leadership abilities. Students must demonstrate specific competencies for an American Canoe Association instructor rating. Students must demonstrate specific competencies in kayak touring on inland water ways and the ocean to obtain an ACA rating for kayak touring. Students participate in field trips.
Prereq: OLP participants only; successful completion of OLP 111 and OLP 120

OLP 142 Nordic Skiing Instructor (X) 2 cr
An introduction to beginner and intermediate cross-country skiing skills and ski touring. The course promotes an understanding of introductory cross-country skiing lessons so students can develop their own programs. Students develop personal technical skills, technical knowledge, and instructional abilities. This course meets the Professional Ski Instructors of America requirements for instructor certification programs. Students must demonstrate specific competencies to obtain instructor certifications. Students participate in field trips.
Prereq: OLP participants only; successful completion of OLP 111 and OLP 120

OLP 143 Backcountry Travel Instructor (X) 3 cr
Prepares students to become proficient in the implementation and leadership of three season backcountry travel experiences. Students learn core skills of trip planning, safety systems design, route development, and equipment use in the classroom and reinforce these skills in the field. Students participate in a model canoe trip that is designed and led by the OLP core staff. Students then design and execute a backpacking trip. Student must demonstrate specific competencies to obtain leadership ratings.
Prereq: OLP participants only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 144 Challenge Course Programming Instructor (X) 2 cr
Builds upon low and high challenge course experience to develop leadership necessary to design, deliver; and evaluate adventure-based programs in education, recreation, outdoor adventure, youth services, therapeutic settings, and management development training applications. Students must demonstrate competencies to obtain leadership ratings.
Prereq: OLP participants only; successful completion of OLP 111 and OLP 120
OLP 201 Individual Project in Outdoor Leadership I (X) 1 cr

Begins a student-directed learning project focusing on research, developing a new competency, or broadening understandings of adventure industry practices specific to the student’s career goals. With instructional staff feedback and advising, each student identifies a project, develops objectives, researches learning activities, and articulates final project outcomes for completion in OLP 202.

Prereq: OLP participants only; placement beyond or satisfactory completion of COL 090 and ENG 090; Wilderness First Responder certification

OLP 202 Individual Project in Outdoor Leadership II (X) 1 cr

A continuation of and completion of the project begun in OLP 201. Evaluations focus on developing accurate self-assessment skills.

Prereq: OLP participants only; successful completion of OLP 201

OLP 205 Group Management for Outdoor Leaders II (X) 2 cr

Combines seminar with field placements to continue the development of interpersonal relations concepts and practices begun in OLP 112.

Prereq: OLP participants only; successful completion of OLP 112

OLP 216 Field Work Experience in OLP II (X) 3 cr

Continues to develop skills in planning, organizing, conducting, and evaluating outdoor adventure education programs. Students conduct a variety of activities with diverse populations to refine their instructional and learning abilities. The focus is more complex field experiences that may require students to conduct overnight programming. Students participate in field trips.

Prereq: OLP participants only; successful completion of OLP 116

PEACE AND SOCIAL JUSTICE

PSJ 101 Introduction to Peace Studies (BC) 3 cr

An interdisciplinary study of the concepts of peace and the interplay of economic, sociological, psychological, historical, political, technological, cultural, ideological and environmental factors since the end of the Cold War. This course familiarizes students with the salient concepts of positive and negative peace, peacemaking and the principles of a culture of peace.

Prereq: ENG 101, 103, or 105; and any course coded BC

PHILOSOPHY

PHI 103 Introduction to Philosophy (HC) 3 cr

Introduction to the major, classical philosophical problems through a thematic approach. Emphasis on active, informal discussion of contemporary issues.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

PHI 104 Introduction to Ethics (HC) 3 cr

Introduces the philosophical, theological, and theoretical foundations of ethics. The course surveys the range of applications in contemporary society including business, law, government, healthcare, and the media. It also examines specific issues such as distributive justice, capital punishment, Just War Theory, and cultural relativism.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*PHI 108 Western Religions (HC) 3 cr

An introduction to the fundamental dimensions of religion and the central teachings and practices of Judaism, Christianity, and Islam. Through readings, site visits and dialogues with practitioners, students explore how these religions shape both individual lives and modern societies.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*PHI 110 Eastern Religions (HC) 3 cr

An introduction to the fundamental dimensions of religion and the central teachings and practices of Hinduism, Buddhism, and the religions of China and Japan. Through readings, site visits and dialogues with practitioners, students explore how these religions shape both individual lives and modern societies.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*PHI 204 Issues in Ethics and Social Philosophy (HC) 3 cr

Explores contemporary ethical issues which confront the individual and society as a whole. Through philosophical, journalistic, and literary selections, the student examines such topics as personal integrity, racism, poverty, gender equity, and violence. Students consider classical, non-western, and feminist perspectives.

Prereq: PHI 103, PHI 104, or permission of instructor

*PHI 205 Biomedical Ethics (HC) 3 cr

Examination of the theoretical and historical foundations of bioethics. Emphasis on the application of ethical theory to the analysis of contemporary issues in health care. Special attention to the cultural content of bioethical problems, specifically issues of race, class, and gender.

Prereq: ENG 101, 103, or 105 or PHI 104 or permission of instructor
PHI 206 Environmental Ethics (HC) 3 cr
An examination of how philosophy has contributed to our thinking about environmental issues. The course surveys major influences in the development of environmental ethics including: the land ethic, biocentrism, deep ecology, ecoligion, and social ecology. Applications to specific environmental issues allow students to clarify their own views and hone their critical thinking skills.
Prereq: ENG 101, 103, or 105 or permission of instructor

PHYSICS

PHY 101 General Physics (NC) 4 cr
An algebra based physics course with topics including vector kinematics, mechanics of particles and rigid bodies, and conservation laws. This course prepares students for further study in the fields of science, mathematics and health professions. Students use physical concepts and mathematical relations to solve physics problems. The course meets in the Physics lab and uses a combination of lecture, demonstrations, discussion, and laboratory exercises. Students develop skills in the use of modern computer software packages and graphing calculators.
Prereq: MAT 107, or placement by examination beyond MAT 107, or permission of instructor

PHY 102 General Physics II (NC) 4 cr
A continuation of PHY 101, non-calculus treatment of the fields of light, electricity, and magnetism, and atomic and nuclear physics with some topics from modern physics. Lab required.
Prereq: PHY 101 or permission of instructor

PHY 111 General Physics I with Calculus (NC) 4 cr
A calculus-based physics course intended primarily for students preparing for careers in science, mathematics, or engineering. Topics covered include kinematics, mechanics of particles and rigid bodies, and conservation laws. The course emphasizes the use of the concepts of physics to solve problems. This course meets in the physics laboratory using a combination of lecture, demonstration, discussion, and laboratory exercise.
Prereq: MAT 201 or concurrent enrollment in MAT 201

PHY 112 General Physics II with Calculus (NC) 4 cr
A calculus-based study of the laws of electricity and magnetism. Topics include properties of electricity and magnetism, fields, elementary electric current analysis, wave motion, electromagnetic waves. This course is taught in the physics laboratory using a combination of lecture, demonstration, discussion, and laboratory exercise.
Prereq: PHY 111; MAT 202 or concurrent enrollment in MAT 202

POLITICAL SCIENCE

POL 101 American Politics (BC) 3 cr
American national government and politics. The principles, processes, and institutions which make up the American political system: constitutional framework; federalism; interest groups, parties, elections; Congress; the Presidency; the judicial system. Policy-making and contemporary problems.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

POL 103 Comparative Politics (BC) 3 cr
Provides students with the conceptual tools necessary to develop an understanding of some of the world’s diverse political structures and practices. The course encompasses the study of both specific countries (and their governments) and the general concepts used to interpret the political relationships and institutions found in virtually all national politics. Five countries form the core comparative governments, four of these countries – Great Britain, South Africa, China and Russia/the former Soviet Union – provide a foundation for developing paradigms of different types of political systems. The inclusion of a fifth developing country allows students to examine yet another source of theory building, as well as understand the political implications of different levels of economic development.
Prereq: POL 101

*POL 105 International Politics (BC) 3 cr
Traditional principles of international relations and emerging new problems from a political perspective - population, environment, energy, natural resources, economic interdependence, rapid technological change. Provides a global context for dealing with new and developing international considerations.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

POL 203 American Civil Liberties (BC) 3 cr
Freedom of expression in history and in contemporary America; the role of the Supreme Court in the maintenance of civil liberties; the influence of official and popular pressures. Includes consideration of religion, assembly, the press and speech, as well as the rights of the accused and constitutional standards of equality.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*POL 205 American Foreign Policy (BC) 3 cr
An introduction to America’s role in world affairs, especially since World War II. Attention is given to the underlying principles of American foreign relations; to the American foreign policy process; to the instruments of modern foreign policy; and to the contemporary foreign policy environment: Soviet-American relations, Western Europe, the Middle East, Africa, Latin America, and the Far East.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090; Recomm: POL 101
PSY 101  Principles of Psychology (BC)  3 cr
Introduction to the field of psychology and human behavior. The student considers such topics as the history of psychology, research methods, psychophysiology, sensation, perception, learning, cognition, memory, development, motivation, personality, and mental illness.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

PSY 209  Abnormal Psychology (BC)  3 cr
A review of research methods, assessment procedures, the history of mental illness, and the major perspectives utilized in understanding mental illness. The course gives particular attention to the diagnostic system and categorization of conditions as developed by the American Psychiatric Association’s Diagnostic and Statistical Manual (DSM) as well as attention to current psychotherapeutic and psychopharmacological treatment interventions.
Prereq: PSY 101

PSY 213  Psychology of Interpersonal Behavior (BC)  3 cr
Interpersonal determinants of human behavior. Theoretical models by Adler, Horney, Fromm, and Berne. Major emphasis on transactional analysis as developed by Berne.
Prereq: PSY 101

PSY 214  Psychology of Peace, Conflict and Violence (BC)  3 cr
A focus on the key concepts of peace psychology: the relationships among violence, social inequalities, peacemaking and the pursuit of social justice. Topics include ethnic conflict, family violence, hate crimes, militarism, conflict management, social justice, nonviolent approaches to peace, and peace education. Students examine systems of violence and systems of peace. Through lectures, discussions, readings, experiential activities, projects, film, and dialogue, students study the philosophy of non-violence, conflict resolution skills, constructive approaches to human relationships, and develop more complex views of the immediate causes of violence and deeper appreciation for the structural roots of violence.
Prereq: ENG 101, 103, or 105; PSY 101

PSY 215  Theories of Personality (BC)  3 cr
An exploration and application of the major schools of personality theory: psychoanalytic, trait, biological and evolutionary, behavioral, cognitive, humanistic, relational, and sociocultural.
Prereq: PSY 101. For HSV/LHS majors, HSV 101 is also required

PSY 217  Human Growth and Development (BC)  3 cr
A survey of human physical, psychological, and social development from birth through death. Framework for the study of the individual’s cumulative, integrative growth experience. Theories of development and their applications.
Prereq: PSY 101 or SOC 101 or ANT 104 or permission of instructor

*PSY 225  Psychology of Women (BC)  3 cr
An exploration and application of the major theories of women as seen through their own eyes. Topics for investigation are dispelling the myths and mysteries about the development of women, significant gender differences, the quest for a separate identity, transitional changes and adaptation, and the possibilities for a more generative view of the human life cycle.
Prereq: PSY 101 or SOC 101 or ANT 104 or permission of instructor

PSY 227  Group Dynamics (BC)  3 cr
Provides the student with a solid understanding of group development and its processes. Students examine their own interpersonal style as it relates to group work. The student explores methods in which interpersonal and intrapersonal behaviors influence such phenomena as leadership, cohesiveness, continuity, diversity and group effectiveness. The course uses experiential learning as a vehicle for understanding the entire group process.
Prereq: PSY 101 or permission of the instructor

PSY 233  Child Behavior and Development (BC)  3 cr
Focuses on the development of the child from conception to adolescence. The concept of development is explored in depth and all aspects of the developing child are considered: social, emotional, physical, verbal, intellectual, and creative. Major theories of child development are reviewed. Research in child development is studied with particular attention paid to naturalistic observation.
Prereq: PSY 101 or permission of instructor

*PSY 259  The Psychology of Oppression (BC)  3 cr
This course is both experiential and didactic. It is designed to provide students with an understanding of the psychological causes and processes that are endemic to oppression. Our goals are to explore and understand the emotional reality of oppression as it presents itself in our day to day lives. We will explore the similarities and differences among sexism, ageism, classism, heterosexism, racism, antisemitism, other forms of
ethic oppression, and ableism. Through the use of mini-lecture, discussion, readings, experiential activities, projects, film and conversation, we will explore our own attitudes and how oppression operates at interrelated levels of the personal, institutional and cultural. We will also look at how people have worked and may work against oppression.

*PSY 277 Psychology of Death and Dying (BC) 3 cr
Designed to be both experiential and didactic, this course enhances students’ understanding of death and dying processes both personally and professionally. Topics covered include cultural attitudes toward death and dying, origins of death anxiety, processes involved in dying, grieving and mourning, children and death, the helping relationship and the caregiver, suicide, euthanasia, burial and cremation, organ and body donations, and community resources.

Prereq: PSY 101 or permission of instructor

**SCIENCE**

SCI 103 Astronomy (NC) 4 cr
An introductory course in Astronomy. Students examine the history of the universe from 13.7 billion years ago to the present. Concepts include the nature of space and time, Quasars, galaxies, stars, star systems, planets, life, and how each has changed over time. Coursework involves independent article reviews, research, observing and reporting. Students learn to work with mathematical formulas and use scientific calculators.

Prereq: COL 090 and ENG 090 and MAT 090 or satisfactory placement tests scores

SCI 104 Energy: Issues and Principles (NC) 3 cr
Covers both the technical and economic aspects of energy. Designed on a need-to-know basis primarily for the nonscience-oriented student who feels the need to be informed about this field of critical importance to the survival of modern civilization.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

SCI 111 Survey of Science and Technology (NC) 3 cr
An introduction to selected principles, concepts, and technological applications in physics, chemistry, and biology. Students will construct these concepts through laboratory activities and gain an understanding of their relevance and relationship to the world around them.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*SCI 113 Women in Science and Technology (NC) 4 cr
Examines the historical roots of scientific thought, the development and limitations of scientific methodology, and the contributions of women in science and technology throughout history.

Students consider the effects of institutions, work, family, and mentors on the development of women in science and technology. For the laboratory, students examine the inherent biases of scientific methodology, rethink laboratory experiments using non-traditional approaches, examine and recreate experiments undertaken by women throughout history, and develop, research, conduct, and present experiments of interest to each individual class.

Prereq: Placement beyond or satisfactory completion of COL 090, ENG 090, and MAT 090

**SOCIIOLOGY**

*SOC 101 Principles of Sociology (BC) 3 cr
The study of society through basic concepts and scientific methodology. Examines culture, social systems, institutions, status, role, norms, interaction, deviance, small groups, and social stratifications.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

*SOC 106 The Social Construction of Difference and Inequality (BC) 3 cr
Introduces students to the theories and fundamental concepts of social diversity and social stratification in the United States. Through an individual, cultural, and systemic lens, students examine the construction of identities, including race, gender, sexual orientation, religion, class, and dis/ability. This course provides a sociological understanding of the social construction of difference and inequality and combines cognitive and experiential learning to promote recognition, understanding, and acknowledgement of disparate experiences of equality in the United States.

Prereq: COL 090 and ENG 090, or satisfactory placement test scores; Recomm: SOC 101
A sociological examination of the nature, structure, causes, and consequences of social problems, with a particular focus on their interconnections. The course uses major theoretical frameworks to examine social problems at both the micro and macro level. The course investigates a variety of social problems, with a focus on problems in the United States. The course examines how to define and distinguish social problems from social issues.

Prereq: SOC 101

SPANISH

SPA 101 Elementary Spanish I (HC) 4 cr
Fundamentals of Spanish. Acquisition of language functions, vocabulary, structures, and culture through contextualized presentations, interactive activities and extensive laboratory practice.

Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

SPA 102 Elementary Spanish II (HC) 4 cr
Fundamentals of Spanish. Continued acquisition of language functions, vocabulary, structures, and culture through contextualized presentations, interactive activities, and extensive laboratory practice.

Prereq: SPA 101 or equivalent, or one year of high school Spanish, or permission of instructor

SPA 109 Spanish for Native Speakers I (HL) 1 cr
A survey of the basic components of Spanish with an emphasis on the unique needs of native Spanish speakers who have not studied the language in an academic setting. Particular attention paid to written expression, but also takes advantage of the students’ background in and intuitive knowledge of spoken language. For native speakers of Spanish. 

Prereq: none; for native speakers of Spanish

SPA 111 Spanish Skills Practice I (X) 2 cr
An intensive immersion workshop conducted in Spanish for students who have completed at least SPA 101 or who are returning to the study of Spanish. Using the material studied in SPA 101, students practice and internalize the basic building blocks of Spanish in listening, speaking, reading, and writing. Class time is spent on pair and small group work, drill, video, readings, and authentic materials.

Prereq: SPA 101 or equivalent or permission of instructor

SPA 112 Spanish Skills Practice II (X) 2 cr
An intensive immersion workshop conducted in Spanish for students who have completed at least SPA 102 or who are returning to the study of Spanish. Using the material studied in SPA 102, students practice in order to internalize the basic building blocks of Spanish in listening, speaking, reading, and writing.

Prereq: SPA 102 or equivalent, or permission of instructor

SPA 124 Spanish for Health Professionals (HL) 4 cr
Emphasizes the fundamentals of Spanish both for students seeking positions in health related fields and those already working in the profession. The course focuses on “survival” Spanish language skills and cross-cultural training for health professionals. Students develop their command of Spanish in specific job related areas. The course prepares participants for those aspects of Hispanic/Latino cultures that have an impact on their work. Much of the class is spent working in pairs and small groups role-playing situations that participants will encounter on the job.

Prereq: none

SPA 133 Spanish for Law Enforcement (HL) 3 cr
Emphasizes the fundamentals of Spanish both for students seeking positions in law enforcement and those already working in the profession. The course focuses on “survival” Spanish language skills and cross-cultural training for law enforcement professionals. Students develop their command of Spanish in specific job related areas. The course prepares participants for those aspects of Hispanic/Latino cultures that have impact on their work. Much of the class is spent working in pairs and small groups role-playing situations that participants encounter on the job.

Prereq: none

SPA 143 Spanish for Educators (HL) 3 cr
Emphasizes the fundamentals of Spanish both for students seeking positions in education and those already working in the profession. The course focuses on “survival” Spanish language skills and cross-cultural training for professionals in education. The course develops the participants’ command of Spanish in specific job related areas. The course prepares participants for those aspects of Hispanic cultures that have impact on their work. Students spend much time working in pairs and small groups role-playing situations that participants encounter on the job.

Prereq: none

SPA 201 Intermediate Spanish I (HC) 4 cr
Emphasizes continued acquisition of language functions, vocabulary, idioms, structures, and culture through contextualized presentations, interactive activities, video, and selected readings. The class is conducted in Spanish.

Prereq: SPA 102 or equivalent, or permission of instructor
SPA 202 Intermediate Spanish II (HC)
4 cr
A conclusion of the intermediate study of Spanish. The course emphasizes continued acquisition of language functions, vocabulary, idioms, structures, and culture through contextualized presentations, interactive activities, video, and selected readings. The class is conducted in Spanish.
Prereq: SPA 201 or equivalent, or permission of instructor

SPA 251 Spanish Composition and Conversation (HC) 3 cr
Development of advanced writing and speaking skills. Representative works of Hispanic literature, available periodicals, and films are the subjects of class discussion and oral and written assignments.
Prereq: SPA 202 or equivalent, or permission of instructor

SPA 252 Spanish Composition and Conversation II (HC) 3 cr
Continued development of advanced writing and speaking skills. Representative works of Hispanic literature, available cultural readings, and periodicals are the subject of class discussion and oral and written assignments. The class is conducted in Spanish.
Prereq: SPA 251 or equivalent, or permission of instructor

SPEECH COMMUNICATION

SPE 101 Oral Communication: Public Speaking (SHL) 3 cr
Principles of oral communication, stressing the role of the speaker in the communication process. The course emphasizes the proper preparation and delivery of speeches. Each student gives two or three speeches and participates in a small group activity.
Prereq: ENG 101, 103, or 105 or concurrent enrollment

SPE 121 Oral Communication: Small Group Discussion (SHL) 3 cr
Principles of oral communication, stressing the role of the leader/participant in small group discussion. The course emphasizes proper preparation for group learning, problem-solving and meeting management. Students participate in role playing exercises that are based on community and industrial models.
Prereq: ENG 101, 103, or 105 or concurrent enrollment

*SPE 131 Oral Communication: Intercultural Communication (SHL) 3 cr
Principles of oral communication, stressing the role of culture as a key variable in the communication process. The class examines the way culture and its various components affect the way humans communicate verbally and nonverbally. Students complete oral communication projects in the form of speeches and group discussions on subjects that pertain to culture and communication.
Prereq: ENG 101, 103, or 105 or concurrent enrollment

SPE 141 Interpersonal Communication (HL) 3 cr
Provides an opportunity for students to increase their ability to communicate effectively in daily interactions through the study of basic interpersonal communication concepts and the practice of speaking, listening, and conflict resolution skills. Students identify and analyze current communication patterns as a step toward increasing interpersonal competence.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

SPE 203 Argumentation and Debate (HL) 3 cr
An introduction to the essential elements of debate with emphasis on preparation and presentation.
Prereq: SPE 101 or permission of instructor

THEATER

THE 101 Introduction to Theater (HC) 3 cr
Concentrates on the nature and origin of theater from the 5th century B.C. to the present. Students learn the language of dramaturgy while analyzing the major works for content and social influence. They recognize and identify dramatic genre, structure and style of major works within the field.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

THE 105 Play Analysis (HL) 3 cr
Concentrates on the interpretation of various types of dramatic works and scripts. The student learns to critically analyze dramatic work not only for content but also in the context of dramaturgy elements such as plot, theme, character identification, and other critical components in the dramatic field.
Prereq: THE 101

THE 106 StageCraft (HL) 3 cr
The study of the processes of scenery, lighting, and sound design for production realization as approached from the stage designer’s point of view. The course emphasizes the creative process used in developing the physical elements of a theatrical production. The student learns how to safely execute the skills demanded of the scenic designer in a hands-on method and work environment. Students aid in the construction and technical work required for that semester’s G.C.C. main production as well as the technical needs/requirements of the student directed projects.
Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
THE 108 Interactive Dramatics (HL) 3 cr
An introduction examining the use of creative drama in education and recreational settings. Study and practice of the medium to develop the acceptance of the responsibility of thinking. Educated theater people for sharing the art of drama in young lives while developing all students in areas of sensory awareness, imagination, movement, role-playing and improvisation. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

THE 113 Fundamentals of Acting (HL) 3 cr
An introduction to the art of acting with emphasis on characterization, voice, and movement, as well as varieties of acting techniques, script analysis, improvisation, and theater exercises, used to prepare monologues, duet scenes and one-act plays. Additional emphasis is on the uses of acting to improve self-presentation and self-development. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

THE 133 College Theater Workshop (X) 1 cr/semester; maximum 4
Practical experience in acting, house management, public relations, publicity, shop and production crews as the current G.C.C. semester production requires. No more than one credit may be earned in any given semester. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090

THE 213 Advanced Acting (HL) 3 cr
The actor's use of improvisation, abstraction, and development of motivational devices in character through internalization and externalization techniques. The course includes concentration on scene and character development through class performances. Prereq: THE 101, THE 113

THE 214 Directing – Theory (HL) 3 cr
An introduction to the skills of play production with an emphasis on directing. The student studies the concepts/requirements necessary to mount a full theatrical production. Students analyze and hypothetically cast and produce instructor-approved scripts as their final project. Prereq: THE 101, 105, 113; and ENG 112, or 114, or 116

THE 217 Experimental Performance (HL) 3 cr
Requires the student to use their own particular skills and interests to create an original performance work based on themes that emerge from the class itself. Participants use ensemble theatre and movement exercises to integrate the work of the project, which they have expressed in writing, movement, character improvisation, and visual arts, video, music, the sciences, and other areas of interest. Students produce a creative, innovative, and live performance. Prereq: The course is restricted to students completing their final semester of the AA degree in the fields of Dance, Music, Art, or Theater. The course also requires approval of a performing arts faculty member and the class instructor.

THE 223 Acting in Shakespeare (HL) 3 cr
A study of the basic techniques used in Shakespearean acting. Major emphasis is placed on approaching Shakespeare through careful analysis of the use of language, construction of the text, language as a cue for character, situation, and dramatic conflict. The student examines and performs selected works from comedies, histories and tragedies of the playwright, concentrating on the Presentational technique of stylized acting. Prereq: THE 213; and ENG 221 (or concurrent enrollment in ENG 221)

THE 224 Directing – Practice (HL) 3 cr
The practical application of all skills learned in THE 214, Directing – Theory. The student chooses, analyzes, casts, and directs for performance a 1-act play approved by the instructor. This project is a minimum of 45 minutes performance time and is presented for the G.C.C. community in the Sloan Theater at semester's end. Prereq: THE 214

THE 226 Stage Skills (HL) 3 cr
A concentrated study of the design and application of stage makeup, mask work, stage combat and stage dialects as they contribute to characterization and motivation in performance work. The course includes fencing techniques for dramatization as part of the physical stage combat study. Students assemble an audition piece and a professional resume, as well as perform and film an audition videotape in the G.C.C. Educational Technology Support Center. Prereq: THE 213 or THE 224

WOMEN’S STUDIES

*WST 115 Introduction to Women’s Studies (L) 3 cr
Introduction to women’s studies as a basis for understanding human development, social systems, and the historical and biological perspectives that affect women’s lives in the 20th century. Prereq: Placement beyond or satisfactory completion of COL 090 and ENG 090
Faculty & Staff

**Fall Multiple Section Exams:**

- Wednesday, December 21 at 3:30 pm

**Notes:**

- Friday, December 23, 2005 is reserved for final exam make-up due to snow cancellation. The schedule will be determined as necessary.
- Final Exams will be held in the regular class meeting room.

**Exceptions:**

- Instructors who choose a multiple section exam time for their final exam will notify students of the final exam date, time, and room assignment several weeks prior to the end of the semester.
- Instructors who teach a class that meets Mon / Wed, or Wed / Fri, or Mon / Fri and shares classrooms with other classes will notify students of the final exam room assignment several weeks prior to the end of the semester.
- Classes with a lab will use the lecture period time to determine their final exam.
- Classes that begin before 8 a.m. and continue beyond 8 a.m. will have their final exam according to the Mon/Wed/Fri 8-8:50 a.m. block or the Tue/Thu 8-9:15 a.m. block.
- The final exam for classes that end prior to 8 a.m. will be determined by the instructor and students of the class.

Directions to Greenfield Community College

Greenfield Community College is conveniently located near the intersection of Interstate 91 and Route 2.

**From the north, south, or east** (from the east, take Route 2 to I-91 south first)
Take exit 26 off I-91 and follow the traffic rotary to Route 2 west. Once on Route 2, take an immediate right at the traffic light onto Colrain Road. We are located on College Drive, six-tenths of a mile ahead on the left.

**From the west**
Turn left at the traffic light onto Colrain Road just before the I-91 rotary. We are located on College Drive, six-tenths of a mile ahead on the left.

Greenfield Community College—Main Campus
2005-2006 Academic Calendar

Please note: Dates listed on academic calendars relate to full semester classes only. Calendars for classes with a modified schedule, e.g. extended weeks, reduced weeks, etc., are available in the Registrar’s Office.

Advising codes

An advising code appears in parentheses at the end of each course title. You should refer to this code in selecting appropriate courses to fulfill your particular program requirements and to fulfill the requirements of the Commonwealth Transfer Compact (see pages 41-42), including the University of Massachusetts diversity requirement (courses with an asterisk). “Liberal Arts” comprises those areas of study listed under humanities, the behavioral and social sciences, and mathematics and the natural sciences, as opposed to the study of professional or technical subjects. Our advising codes are as follows:

A Career courses that may be used as liberal arts electives in programs of study leading to the Associate of Arts degree (Liberal Arts and Business Administration Transfer), but not as liberal arts electives in any other program. These courses provide theoretical foundations for career fields, but, by the breadth of their course materials, they also serve to increase students’ knowledge of, and appreciation for, contemporary culture.

B Behavioral science/social science courses (anthropology, economics, human ecology, political science, psychology, sociology). These courses provide focused, concentrated study within a typical liberal arts discipline.

C Liberal arts courses that may be used to fulfill core requirements for the Associate of Arts degree or as liberal arts electives in any other program. Such courses provide comprehensive, non-specialized study within the typical liberal arts disciplines: the humanities, the behavioral and social sciences, and mathematics and the natural sciences.

D Courses emphasizing the improvement of basic reading, writing, mathematical, and study skills. These courses may not be used to fulfill associate degree requirements. A final grade of D will not be awarded in these courses (A, A-, B+, B, B-, C+, C, C-, and F are grades awarded).

E English Composition I (ENG 101, 103, 105) and English Composition II (ENG 112, 114, 116).

F Humanities/fine arts courses (art, English, folklore, foreign languages, history, humanities, journalism, music, philosophy, speech, theater).

G Liberal arts courses that may be used as liberal arts electives in any program, but not as core courses for the Associate of Arts degree.

H These courses provide focused, concentrated study within a typical liberal arts discipline.

I Natural science/math courses (biology, chemistry, environmental science, geology, mathematics, physics, science).

K Courses whose subject matter emphasizes technical career skills, personal growth, or leisure education. They may be used as general electives in any program. A maximum of 12 “X” credits (including a maximum of four in leisure education) is allowed toward the credits required for the Associate of Arts degree.
